THE PANAMA ROUTE RATHER THAN NONE

In the House the Debate on the Philippine Bill Continues, But With Flagging In terest. One or two Rather Spicy Speeches.

(By the Associated Press.)

Washington, D. C., June 21.-Senator Morgan and Representative Hepburn, representing the Senate and House conferees on the Isthmian Canal Bill, were together today to arrange the preliminaris for the meeting of the conferees.

The first formal meeting of the Isthmian Canal Conferees will be at two o'clock on Monday. Today's meeting was devoted to a careful study of the Senate Panama amendment with a view to getting a thorough understanding of its bearings. It was stated afterward that no conclusions beyond he fact that a meeting of the conferees should be held Monday had been reached.

Meantime the friends of the respective projects were active in making plans. Although no formal meeting of the House conferees was held, informal exchanges showed their general attitude. They are first of all for a canal and while favorable to the Nicaragua route, they will not insist upon that route to the extent of defeating all legislation.

DAY SESSION IN THE HOU: E.

Debate on Philippine Bill Continues. Several

Speeches Made.

(By the Associated Press.) Washington, June 21.-Debate on the Philippine Civil Government iBll lagged in the House today. There were seven speakers, Messrs. Reeves, (Ills.), Bromwell, (Chio.), for the bill and Messrs Maddox, (Ga.); Dinsmore, (Ark.), and Thayer, (Mass.), against it. Mr. Mc-

Mr. Hay, (Va.): Mr. Clayton, (Ala.), and Mr. Mann, (Ills.), criticised the action of the House conferees in agreeing to the increase in the number of candidates at West Point proposed by the Senate, Mr. Mann said that recently the number of cadets had been increased one hundred. The increased membership of the House would further increase the carets thirty, and now it was proposed to increase that number still more. He did not believe we should legislate in the dissection of a great increase in the standing army.

Mr. Clayton called attention to the fact that the army, which cost annually \$25,000,000 before the Spanish War, now costs annually \$125,000,000.

Mr. Hull and Mr. Parker (N. J.), defended the conference report, arguing that the increase was necessary in order

properly to officer the army. In the discussion of the Philippine Bill Mr. Reeves contrasted the condition of the Filipines under the Spanish regime with their condition now, and with what it might be expected to be in the future. He used a wealth of statisties to show that our great market in the future must be in the Orient, and that our position at the gateway of the east would be of immeasurable advan-

Mr. Maddox, (Ga.), who followed Mr. Reeves, opposed to the bill. The question of whether we were to permanently retain the Philippines, he said, would be ultimately decided not by Congress, but by the American people.

"God was with us during the war with Spain," he continued, "but when we entered into the peace negotiations the devil stepped in, and he has been run-

ning things ever since." Mr. Maddox questioned Secretary Root's figures as to the cost of the war in the Philippines. He said he could not understand how the Secretary got his figures. The actual amount appropriated Street church, by Rev. O. Fadenna, a on account of the war with Spain and natize African, now of Troy, N. C. the subsequent operations in the Philippines, he said, exceeded one billion dollars or about half of the cost of the Civil War. He asserted that the cost of the army in the Philippines, including transportation, had been in excess of \$100, as long as they are up to the old stand-000,000 annually, and with the reduced and in flirting.

force would not fall much below \$8,000,-000. If the army in the Philippines for the last fiscal year cost only forty millions as Secretary Root alleged he wanted to know what had become of the remainder of the \$115,000,000 appropriated in the army appropriation bill for that

Mr. Dinsmore (Ark.), made an earnest speech appealing to both sides to weigh well the tremendous issue which was to be decided in the pending legislation, decided one way, it meant, he said, free government and and independence for the Filipinos; the other way, it mean colonial subjects and a perpetual colonial

policy. He severely criticised General Wood's course in using Cuba funds to influence legislation in the United States and said if the colonial system was to be permanent the time would come when by what ever name it might be called occurrences such as had been practiced in Cuba would become the regular order of things.

Mr. McClellan (N. Y.), in a short speech, defended the army. There may have been instances of cruelty in the Philippines he said, but there should be no difference among Americans about upholding our soldiers, while they are under fire.

"The army is not, never has been, and never will be, the asset of one political eigh came out best. Charlotte to all apparty," said he, amid a round of ap- pearances had the game won when a plause. His tribute to the enlisted men of the regular service was received with enthusiasm.

His callers included Senators Al-Earlier in the day the conference reports lison, Foraker, Proctor, and Beveridge on the Military Academy and Sundry and Representative Long, of Kansas. Civil Appropriation Bills were adopted. They called at different times, but all touched upon the success of Cuban reciprocity. From a source close to the President it is learned that he is still firm for reciprocity. If this cannot be accomplished by a bill he will attempt to secure it by a treaty. This treaty may be sent to the Senate soon or the President may call an extra session of the Senate for the middle of summer or for November. He is determined to secure reciprocity for Cuba is possible.
