Eventful Life.

It Bears a Message From Our Government to In Washington the Famous Superintendent of North Carolina Insane Ayslum Put an Capain Rosehill. May Reach Him End to His Existence

Dr. Eugene Grissom, for twenty-one years the superintendent of the North Carolina Insane Asylum in Raleigh and known widely as an alienist and newrologist, committed suicide Sunday morning in Washington City.

The tragic end to his life came at 8 o'clock Sunday morning. Dr. Grissom was standing on the front porch of his son's home in Washington and suddenly drew a pistol from his pocket, pressed it to his head and a bullet went crashing through his brain. He staggered for a moment, and then sank into a chair. A neighbor ran across the street and wrenched the pistol from his hand. His son came and the dying man was

taken into the house. Medical aid was summoned and Dr. Grissom was taken to the Casualty Hospital, but the gaping wound with the brain oozing from it told that there was no hope and in half an hour the end had come.

The weapon which brought death was a Colt's revolver of the large army pattern, and it is not known where Dr. Grissom obtained it. His daughter-in-law says he had none that she knew about, and the public are trying to find out how it was obtained. Dr. Grissom had been in a morose and lejected condition for some time, and was obtained.

dejected condition for some time, and was physically and mentally weakened by the use of morphine and strong nar cotics, a habit which had fixed itself upon It Flew From Rothschild him. Several times within the past year he had threatened to end his life.

Dr. Grissom is best known in North Carolina from his long position as superintendent of the State Insane Asylum in Raleigh. Noted as an alienist he was Finally the Frenzied Man Sends a Bullet Crashelected to the position in 1868 and his reputation as an expert on cases of insanity grew with the years.

Dr. Grissom left North Carolina in 1890 and went to Denver, at which place and at Colorado Springs he practiced his profession and won much renown as an emicent physician, but his health failed, as well as his mind, and on the streets of State Street department store firm of Denver he one day attempted suicide with chloroform. He was in the insane asydum at different periods, but getting better went to Washington to

DURHAM COUNTY PRIMARY ELECTION.

Papers Defective and Officer Returns From Massachusetts Without Negro.

(Special to the News and Observer.) Durham, N. C., July 28 .- With all the returns not yet in, the following candidates were nominated at the primaries in this county Saturday by votes ranging from 700 to 1.200: Sheriff, F. D. Markham; Clerk of Court, C. B. Green; Treas. urer, Paschal Lunsford, and Coroner, J. Frank Maddry. The hottest contest was over the office of Register of Deeds. With one precinct to hear from this vote stood: John E. Smith, 679; M. G. Markham, 385; H. A. Reams, 212. Only two County Commissioners received enough votes in the primaries to nominate them. These were John W. Pope, 733, and O. K. Proctor, 720.

of the track of the devastating blast that there is extraordinary similarity between the eruptions of the Sufriere volcano of St. Vincent and Mont Pelee. The products are the same, both are characterized by the absence of lava, and the work of destruction both to inanimate objects and to mankind was accomplished in much the same way. The destructive effects of the eruption in St. Vincent covered a much more extensive area, but the loss of human life was much less.

There has been no active eruption of Mont Pelee of importance since June 6. A great cone of bowlders and volcanic bombs, heaped within the fissure from which the explosion came, has grown in size since the middle of May, when Dr. Jaggar first saw it. Occasionally there are sudden slides of debris down this cone into the deep gorge of the Riviera Blanche. These slides product great columns of brown dust, which resemble smoke that rise in billows from the mountains flank and give impression of an eruption when viewed from the sea. At night these slidings of red-hot rocks make a glowing streak in the mountain's slope. This accounts for the many reports by passing vessels of eruptions, hot lava and dust falls. The phenomenon is merely a superficial one. As at St. Vincent, the many mud spouts, steam jets and local craters that have been reported are all superficial, caused by rainwater draining into the beds of hot dry gravel.

The two volcanoes of St. Vincent and Martinique were in eruption in sympathy in May. Both have gradually become less active since and it is probable they will continue to diminish in activity, to by the present signs. In this judge opinion the French scientific commission, headed by Prof. Lacroix, of Paris, concurs. Dr. Jaggar is strongly opposed, however, to any rehabilitation of the devastated slopes of the volcanoes until the respective governments o fthe islands are willing to establish permanent experiment stations to protect and warn the inhabitants.

WORKING FOR BETTER SCHCOLS.

Events of Interest That Are Occurring Now in Greensboro.

(Special to the News and Observer.) Greensboro, N. C., July 28 .- The Guilford county teachers' institute opened this morning, Dr. Whitsett in charge. with a large attendance of teachers and friends of education. A regular campaign for local school taxation begins here this week. The first meeting will be at Jamestown tomorrow night, and each night during the week meetings will be held. 10. 10.

As a result of recent examinations of from Randleman in Randolph county. The the crater of Mont Pelee and exploration two men owed a boarding house keeper here \$10 for board. They left, saying which destroyed St. Pierre, it appears they would return in two days and re ferred the proprietor to the Charlotte Drug Company for whom they claimed to be selling medicines. This morning a letter came from this firm, saying they had no such representatives. They now claim to have been selling medicines of their own manufacture. The sheriff finds they have been violating the law by not having taken out any license.

These men, it is felt here, having such a peculiar opportunity for corrupting silly or immature young women and hav ing also the disposition to take advan-

take of it, should be dealt with to the fullest extent of the law. Yesterday fresh cow peas were again

included in the bill of fare, and instead of cursing the jailer for sending them, they sent back twice for more; this pleased the jailor mightily, and he is in good humor today. The Shaw woman wrote a silly letter to her father in Danville vesterday, telling him she was in a bad fix, but it might be worse, and for him not to trouble over her as she had a loving lover, separated only by jail bars but where they could look at each othe all the time and pray for the time to come, when they would be free. It is said the Shaw woman is also a wife, her husband being Thomas Bailey, or Batly, of Danville, from whom she has been sep arated for a year.

The husband of Nannie Jones offered yesterday to pay all costs of proceedings against her, and let her out of jail in she would go home to her sister in Danville, but she refused to do this. It is not a tough looking crowd at all. The young men have a good appearance, and the two runaway wives have an air of education and womanly modesty in their faces. They are both young and very good looking.

The general expression on the streets here is that the whipping post needs reestablishing for just such men as are their companions.

Wilson would have been summarily executed but for the interposition of Senor Corea, the Nicaraguan minister here. Having secured a stay of proceedings and a guarantee of a legal trial, the minister has now induced President Zelava to commute the death sentence imposed upon Wilson by court martial. Before the receipt of this message it was known here that the court martial had been held. It is presumed that the commutation is to imprisonment for a time, and then expulsion from Nicaragua.

He was born in Granville county in 1831, and was 71 years old when death came. He was a son of Wylie Mangum Grissom, his mother having been a Miss Polly Bobbitt. Dr. Grissom was educated in this State but graduated in Medicine in the University of Pennsylvania and then began to practice in Granville county, making a specialty of nervous liseases and insanity. In the Civil War he was the captain of a Confederate company and was wounded in the Seven Days Fight around Richmond. While in the hospital he was elected to the Legislature in this State. In after years he was a Republican and while superintendent at Raleigh the Republicans desired him to become a candidate for Congress and for Governor, but he declined both nominations. He was celebrated as a lecturer, and

one of his greatest was "The Borderland of Insanity," delivered before the American Medical Society. As an author his book on "True and False Experts' is a most valuable work on insanity. He occupied high positions in various medical associations in the United States. He was emeritus inspector general, thirty-

third degree, of the Ancient and Accepted Order of the Scottish Rite, and was an active member until he removed from North Carolina. He was an Odd Fellow a Knight Templar, a Knight of Pythias and a Fellow of the Royal Order of Scotland. Dr. Grissom was a member of the Methodist church.

There survive him five children, his wife having died while they resided in Raleigh. These are Eugene, Jr., with whom he lived, and who is connected with the Pension Bureau in Washington, Roberf Grissom, a druggist in Cripple Creek Colo., Mrs. Harry Ruffner, of Denver; Mrs. Dr. Rucker, of Basalt, Colo., and Miss Lillian A. Washington, July 27 .- Dr. Eugene Grissom, once well known as an alienist and neurologist, committed suicide here today at his son's home by sending a bullet through his brain. Dr. Grissom had been dejected and morose for several weeks and had become physically and mentally weakened from the use of strong narcotics. He was a native o Granville county, N. C., served on the Confederate side until wounded during the Civil War and afterwards was a member of the State Legislature. For twenty-one years he was superintendent of the North Carolina Insane Asylum, at Raleigh, and gained a wide reputation s an alienist and lecturer. Before the American Medical Society he delivered

a lecture entitled "The Borderland of Insanity," that attracted great attention. He was the author of "True and False Experts," a work devoted to showing the alleged inaccuracies of the expert testimony in insanity cases. Dr.

Grissom was one time first vice president of the American Medical Society and several times presiding officer of Association of American Asylums He was the president of the convention of 1886. He was a Mason of high de gree. He was 71 years old.

(Special to the News and Observer.) Salisbury, N. C., July 28 .- Hon. Lee by scores,

flicted causing almost instant death. Acute insomnia, which probably caused temporary insanity, is said to be responsible for the deed. Mr. Rothschild returned from a six weeks outing in Minnesota last week and seemed greatly improved physically. At no time, it is said, was his mental condition such

as to cause any apprehension that he contemplated self-destruction. Shortly after luncheon this afternoon Mr. Rothschild entered the bath room of one of the upper floors of his home, and almost immediately the servants heard the report of a revolver. Going to the bath room, they found the merchant lying on the floor. A bullet wound in his forehead showed what had happened. Mr. Rothschild was still breathing. A physician was summoned but could be of the civil authorities to place a guard no service. Mr. Rothschild retired from the man-

agement of the big department store at State and Van Buren Streets about two months ago on account of ill health. A constitution ordinarily robust had been shattered in building up the business since the opening, seven years ago. Interested with him and the principal owner of the store was Nelson Morris, his father-in-law.

(Special to the News and Observer.) Charlotte, N. C., July 28 .- On the trestle over Richardson's creek, two miles east of Monroe, yesterday, two little negro girls were instantly killed and a third fatally injured by an S. A. L. freight running from Monroe to Hamlet.

Five little girls were near the western end of the trestle when the train-No. 9 -approached. Just beyond the trestle there is a long curve and the engineer did not get a clear view of the trestle until within a short distance of it. A large water tank also obstructed his view. The little girls seemed not to have heard the approach of the train, which was going rather rapidly. The engineer did everything possible to stop his engine and the little girls

ran rapidly for safety, but only two of them escaped.

Young Safe Robbers.

(Special to News and Observer.) Southern Pines, N. C., July 28 .- Jess and Will Davis were carried before C. W. Shaw, charged with the theft of several checks and cash from J. E. Buchan. They were young boys and confessed to the deed, implicating their fathers, Andrew and William Davis. The four of them were committed to jail at Carthage to await the action of the court. The amount taken from the safe was about \$33, half of it being in checks and the other cash.

Chalee Scores Captain Wild For Failure to Obey Civil Authority.

(By the Associated Press.)

Washington, July 28 .- The action of General Chaffee in reprimanding Captain Frederick S. Wild, 13th Infantry, upon the sentence of a court martial has been received at the War Department.

Captain Wild was in command at Lingayen, where a cock pit was burned, two soldiers of the command having previously been stabbed in the cock pit. It was generally understood that the

cock pit was burned by the soldiers in revenge. It was brought out in the trial. that Captain Wild had been requested by over the property after the first attack and failed to do so, and a second attempt at burning resulted in its destruction. General Chaffee in carrying

out the sentence of the court says: "The necessity for this trial is based on the intention to accentuate to the accused that the existing order to give complete and unqualified support to all branches of the civil government in these islands must be complied with, and to show by example that nothing short of such support will be accepted from officers on duty in this division. Captain Wild's conduct is but mildly punished by reprimand. It is destructive of the very foundations of discipline and when considered in connection with the importance of the duty devolved upon him, is in the highest degree reprehensible."
