"As a result of the trolley accident at Pittsfield, Mass., the President received several serious bruises. One of these on the left leg between the knee and ankle has developed into a small abscess. As after the operation the Presi dent will require entire rest, probably for at least ten days or two weeks, it has been necessary to cancel all the remaining engagements of his trip and he will go directly from Indianapolis to Washington this evening. The physicians say that the case is not in any way serious and that there is no danger whatever. This statement is made so that no false rumors may disturb the people and that they may be authoritatively advised of the exact nature of the case. (Signed) "GEORGE B. CORTELYOU,

The foregoing quotation from the u terances of an experienced British offi cial represents the real opinion of th British Foreign Office on the subject o the negotiations between America and Europe and represents it with a ters straightforwardness which is not likely to figure in the guarded diplomatic re

The hopelessness privately entertained by the British Foreign Office of effecting a change of heart on the part of the Roumanian government will not be ollowed to interfere with the external course of the negotiations and there still reason to believe that Mr. Hay's protest may result in a formal, joint note of the Berlin signatories demanding bet ter treatment of the ews. egardRing that point, however, nothing is definitely settled, but if it is done it will be more in a spirit of acquiescence wth the hu mane sentiments expressed in Mr. Hay' appeal than to any belief that good will e accomplished.

#### Call Loan Rates Feuctuate From Eleven to Twenty Per Cent.

Money on call fluctuated between 11 and 20 per cent before noon, opening at the first figure and advancing to 20 per cent. in leaps. noon the rate had eased off to 12 per cent. An unusual and significant feature was the lending of money by individuals and frms who withdrew the greater part of their bank balances and made loans direct. Naturally this curtailed the supof bank money and created some ill feeling between the banks and their clients. One prominent brokerage house is reported to have taken \$1,000,000 cash out of the two banks, lending the money at from 15 per cent to 18 per cent. Two black pacer came out for his trial leading banks reported today that withdrawals by their out of town correspondents, presumably in the West and Southwest, had been unusually heavy. Local branches of the Canadian banks were heavy lend-

ers at the higher rate. In the last hour the rates for call loans were quoted from 10 to 13 per cent.
