## Minister Hunter's Son Kills William Fitzgerald in Guatemala City and Takes Refuge in the Legation --- Shall he ba Surrendered?

(By the Associated Press.) Washington, D. C., Nov. 21 .- The State Department has been informed that Godfrey Hunter, Jr., son of the United States minister at Guatemala city, today shot and killed William Fitzgerald, of Grand Rapids, Mich. Hunter has taken refuge in the legation and an interesting question has arisen as to his exemption from arrest.

Important details are lacking in the report of the affair which has come to the department, and the officials are in doubt as to what should be done. They have no notion of surrendering without protest an American citizen to the local courts of Guatemala, unless satisfied that the man is a proper subject for punishment. A closer inspection of the original advice revealed the fact that the only name by which the man was known was Fitzgerald, he had not the name William, as was supposed at first. He was shot four times. Another important fact developed was that young Hunter was accompanied at the time of the shooting by the secretary of the legation. This official is set down in the register as being James G. Bailey, of Kentucky, who went to his post in June, 1901. The cablegram also, rather by suggestion than by direct statement, gave ground for an inference that the killing was provoked. Not much is known here of the personality of Godfrey Hunter, Jr., and it is impossible to learn definitely whether or not he was actually connected officially with the United States legation at Guatemala City at the time of the kill-ing. That he had been a clerk or typewriter in the legation is established but n some quarters it is said that connection had been terminated for some time. This may be a very important point in settling the question of exemption of young Hunter from arrest, for a legation

The conference adjourned with bene diction by Rev. Dr. Reid, of Nashville.
