

WOMAN AND Society.

"I've pictured the man that I'll marry," she said. When reaching her seventeenth year: "There's only one kind that I ever will wed."

"All men have their faults," she was heard to exclaim. When reaching her twenty-fifth year: "Of course I am looking for merit and fame."

"But much may be lacking I fear. I'd like to have dignity, courage and grace. A man who is earnest and true, who's strong for the battle and swift for the race— But half of these virtues will do."

She cut it down more in her thirtieth year; Her smiles were for all that she met, For she had decided, it seemed to be clear, She wanted the man she could get.

The Register began a series of interrogations, which resulted in a flat refusal to issue any license, and the couple hurried to catch the next train, declaring that many they would, somewhere, and that before night. They stated without hesitation, that they had runaway from Virginia on account of objections to their marriage on all sides; refused to give the place of residence, except that they came from Virginia, and did not hesitate to give the names mentioned above.

Library Work for Club Women. To the Editor: It is eminently proper that the women of the State should aid in the great educational campaign which our Governor is now so ably conducting. Education means more to them than to others. To the woman who is cut off from the social pleasures and privileges of the city, this is a vital, a living issue.

The education acquired in the school room must with the majority of our people, be meagre at best. The course of study in our public schools will always be rudimentary, but the chief object is attained, if, in the few years of school life, a love of reading good books has been created in the hearts of the pupils, so that they will seize on every opportunity to read. The library is an important factor in the public school system. It is one of the great forces in modern educational progress. The youth finds in a good library a substitute for university training. The student of mature years supplements his college course by reading in the hours and minutes of leisure as an accompaniment to regular business.

The Legislature of North Carolina has provided partially for the establishment of 582 small rural libraries. The number actually placed so far, is 308, making a proportion of one library to fourteen school districts. Fewer than fifteen per cent of our people live in touch with the city libraries, leaving a large majority who have access to no books except those found in meagre private collections.

In many homes the book shelf is conspicuous by its absence. An old spelling book, a patent office report, perhaps a Bible, and a last year's almanac, and the library is complete. The club women of the State, at a recent meeting in Winston-Salem, recognizing this need as their opportunity, adopted Library Extension as one department of work. The aim of this department is to promote the establishment of libraries wherever the way may be open; to enlarge those already in existence; to fit out small cases of books which may be sent to points where they are needed; to stimulate the interest in libraries generally; to foster the love of collecting and preserving books; and to endeavor to infuse into the minds of the people a proper conception of the benefits to be derived from libraries.

It should not be a difficult matter to secure a traveling library. Many clubs will send out memorial libraries which

have been contributed. In many communities there are good men and women who will gladly aid in making up suitable collections of books. The ready co-operation of the county superintendent, teachers, and other school officials, as well as the railroad authorities will facilitate the placing of these libraries. We appeal to the club women to co-operate in this work.

MRS. J. T. ALDERMAN, Chairman Library Extension State Federation Woman's Clubs, Henderson, N. C., Nov. 30. WOMAN AGAINST WOMAN. The version of this famous and fascinating play that is used by the Pearl Land Stock Company, is the same as Mary J. Holmes' novel which numbers its readers by the hundreds of thousands.

It is a beautiful story of English life, showing the self-sacrifice of a young English country girl who marries a nobleman to save his life from the gallows. She is the only witness (as the story goes) of the supposed murder of an English captain by Lord Roy Darrel, and as a wife cannot be made to testify against her husband, she consents to the

The Superiority of "The Royal Elastic." There are other cotton mattresses besides the "Royal"—giving more or less satisfaction—mostly less, because in none of them has the most important feature received proper attention—i. e., that the raw material used in making the filling shall be of the best staple cotton procurable. In no other way can a felting be obtained that will stand the test of continued use and retain through a lifetime its first elasticity. In all other cotton mattresses except the Royal, this "keystone" feature has been overlooked.
