Kellam Cancer Hospital. WE CURE - WE CURE - WE CURE. Cancers, Tumors and Chronic Sores.

Royster's Candy. Sweet memories of the past and delightful anticipations of the future.

CHEMICAL BUILDING WANTED.

Trustees of State University Meet and Elect an Executive Committee.

The annual meeting of the trustees of the University was held in the Governor's office yesterday afternoon.

PRESIDENT VENABLE'S REPORT. President Venable, who was present, made the following report:

The Department of Medicine at Chapel Hill has had 75 students in attendance this session and will be unable to properly instruct a larger number unless increased laboratory and lecture space is furnished for them.

The Department of Law has a registration of students exceeded only once in its history. As soon as possible, considerable additions should be made to the Law Library.

The Department of Pharmacy has an increase of about thirty (30) per cent. over the largest number previously in attendance. It is doing excellent work for the profession in the State.

The scientific departments all report that good work is being done. Some are overcrowded with students and more room must be secured for their work.

Some further evidences as to the character of the work done in these departments may be given. Thirty-four scientific papers have been published from them within the past two years.

many departments are dependent upon the chemical laboratory for valuable courses in their schemes of instruction and for the success of these departments it is imperative that abundant space and opportunity for work be provided in the laboratory.

When I undertook the administration of University affairs two and a half years ago, I found the Alumni Building incomplete and no funds on hand for its completion. I have collected nearly \$9,000 for this purpose and some subscriptions are still unpaid.

The Board of Health recommends that the University secure and utilize certain springs for its water supply. This by no means nullifies any work hitherto done upon the water works, which were wisely planned and economically constructed.

Lastly, the University has been forced to pay interest on so much of its approved bonds as the State that by March 1st it will amount to nearly \$1,200,000. This has caused a deficit for the year.

This was in addition to his full and elaborate report already printed in these columns furnished to the Governor and by him transmitted to the General Assembly.

The following were elected the Executive Committee for the ensuing year: A. B. Andrews, R. H. Battle, F. H. Buehler, J. S. Carr, J. W. Graham, T. S. Kenan, R. H. Lewis, M. D., Fred Phillips, Z. B. Walsor.

The growing reputation of the University in these lines draws students to our laboratories, but I am confronted by this serious difficulty. These laboratories are already congested to a point which threatens the excellence of the work.

believe that any one now in the race would be elected.

Greensboro Industrial News.

(Special to News and Observer.) Greensboro, N. C., Jan. 29.—Mr. Henry J. Dexter, of New York, president of the Fentress Mining Company, arrived in this city yesterday with a number of gentlemen and with his party is registered at the Guilford. The party left this morning on a special train to inspect the company's properties, which are situated in this county.

The parent industry of the town of Gibsonville, the Minneola Mill, owned and operated by the Minneola Manufacturing Company, of which J. W. Cone is president and J. A. Davidson secretary and treasurer, will this year enlarge the scope and capacity of its plant to such an extent as will practically triple the population of the place.

An electric power letter stamping machine will be installed in the postoffice here in place of the hand power machine now in use.

Whiskey and Our Factory Population. To the Editor: The writer lives in a large factory town. Our people are largely steady and industrious and were it not for the effect of rum would be independent.

The question confronting us today is not a political question, and to argue that it will wreck this or that party is as flimsy as it is fallacious. It rises far above the narrow party lines.

Concord Zealous for Temperance. (Special to News and Observer.) Concord, N. C., Jan. 29.—Our citizens met in mass meeting in the court house on the night of the 26th in the interest of temperance.

Liquor Men Say They Have no Fear. (Special to News and Observer.) Wilmington, N. C., Jan. 29.—Prohibition and dispensary issues will probably be submitted in the coming municipal campaign, but the liquor men say they are not fearful of the consequence.

Poor Appetite. "None o' your dainty caters for me," said a thrifty farmer. He was right. You can't work if you can't eat. We know our tonic reconstructor VINOL will make your appetite come back...
