TOO MUCH RAIN IN

First Weekly Crop Bulletion Tells of Big Cotton Preparations.

The first of the Weekly Crop Bulletins was out yesterday, issued by Section Director C. F. von Herrmann, for the North Carolina section of the Climatic and Crop Service of the United States Weather Bureau. It is in part as follows:

"In some respects the opening of the crop season of 1904 must be considered urfavorable, chiefly on account of the severe winter weather and the frequency of rains during March which delayed plowing to some extent. In marked con-trast to the spring of 1903, however, there was a general absence of excessive rainfall and very little flooding of low-lands, and the temperature conditions during March, when farm work and crop growth really begin, were favorable.

'The winter of 1903-04 was in reality the coldest on record since meteorological observations began to be systematically taken, namely in 1872.

"The mean temperature for the three winter months is 26.9 degrees which is the lowest on record; the previous nearest approach to such a low winter mean oc curred in 1892-'93 with 37.8 degrees. Yet the absolute minimum temperatures re cored this year were not noteworthy, having often been surpassed on previous ocer the result of the complete absence of the usual periods of a few warm days that generally occur during our winters It is remarkable that the cold weather was not accompanied by much precipita-

tion, though the average snowfall (un-melted) for the winter, 8 inches, was omewhat larger than usual. The de fleiency in rainfall for the four months was over 5 inches. The enect of the dry weather during the fall was greatly to delay the seeding of winter wheat and oats, while the early cold prevented germination and gave the cereal a very late

"The temperature conditions during the

week ending Monday, April 11th, 1904, were not favorable for the best growth of crops. Killing frosts occurred on the 4th and 5th, with much damage to fruit and truck crops. Peaches, plums and cherries were in bloom, and the peach crop especially was no doubt severely thinned in the central-eastern portion of the State, but is not thought to have suffered great damage in the west; apples generally escaped with slight injury. Early truck crops, chiefly Irish potatoes and early beans just up, and May peas were much damaged; strawberries fored slightly. Another frost Monday morning, April 11th, was not heavy enough to do any damage. During the middle of the week the weather was warmer, more or less cloudy, with light rains on several days. The week was ing on the alleged existence of an imscarcity of labor.

"Preparations for a large cotton crop are well underway and large amounts of fertilizer ae being distributed. Planting clover and grass are growing rapidly. have come up nicely. Considerable adand yield fairly well. Strawberries are ment coming into bloom. Planting gardens is progressing well."

Four Boys in Big Robbery.

(By the Associated Press.) Waterbury, Conn., April 9.- Four boys \$12,000 was stolen from the home of Henry Davis, were arrested at their homes today. About \$8,000 was found in their possession. After their arrest they told the police where the money was hidden. The sum of \$10.213 was recovered. Davis insists that he had about \$12,000 in the trunk.

"Allee Samee" in Cotton.

The cotton situation shows absolutely no change in the spot market. Five bales were sold here yesterday. Two of these were bany off grade and the money given was 10 cents a pound, while 14 1-2 cents was paid for three other bales. A year ago 89 bales were sold at 10 cents a pound.

The future market is a "flirtatious" one and the temperature of it changes vary frequently. The bulls and the bears alter nate in periods of joy.

RING FEARS PEOPLE

Raleigh "Big Eight" Opposed a Reference to **Fourth Ward Voters**

"Ring rule" and petty bossism fears the oice of the people.

Never has that been better shown than n the caucus of the Board of Aldermen Friday night when "might made right." Precedent was disregarded in the selecon of an alderman for the Fourth Ward to fill the vacancy created by the death of Alderman R. C. Redford.

Always it has been the custom to allow he remaining members from a ward to name the man from the ward who is to accompanying pains and misery fill a vacancy that has been made in

HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives' and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company-California Fig Syrup Co.-printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
