Stocks and Bonds. New York, Sept. 7-The speculative movement in stocks was disposed to mark time today. Prices moved slugrishly and fluctuated frequentnly. The holiday in Londan was partly responfible for the duliness. The financial district also is inclined to await the butcome of the New York City bond sale for clearer light on some of the conditions which are counted upon to sustain the improvement which has taken place in the securities market. Bids for the \$40.000,000 issue of 4 1-2 per cent. New York City bonds are to be ged next Tuesday. The offici sal of yesterdays rumors of an intended distribution of a 25 per cent extra dividend to Northern Pacific stock holders dashed some of yesterdays speculative enthusiasm, as these rumors were a main incentive to the movement. The bank statement also falled to show the expected gain in cash, the decrease of \$1.

ed gain in cash, the decrease of \$1,-420,000 contrasting with preliminary estimates of a gain of \$2.000,0000. also showed a small expansion, the net result being to reduce the surplus reserve to \$7,372,350. Meantime it became known that deposits of Treasury funds have been made with some of the banks in the financial district and that more are in prospect next week. The contrast in the bank statement this week a year ago is striging. In that week, notwithstanding a lean In that week, notwithstanding a lean contraction of nearly \$12,000,000 the Dec. 193%, May 193%. surplus disappeared before a shrinksurplus disappeared before a shrink-age in that item of \$9,447,325 to a deficit of \$6,577,925, the cash hold-ings having been depleted \$16,598,100

This booklet of forty eight pages is a combination of a novelty and a book with a purpose. Two sets of moving pictures are the attraction, while a sanitary lesson versus the risks of careless and promiscuous kissing fulfills the purpose. Half the reading matter consist of pleasantries that make easy reading for all who have any relish for little gems of poetry and romance; while the remaining half of the text might be called a doctor's sermon on kissing, with a view to lessening its risks, and the conta-gions conveyed thereby. Two safe and sanitary modes of kissing are recommended for all who feel the need of such a vent for their emotions, but the how is a secret only imparted to the purchaser of the book, and is no doubt fully worth the small price of 20 cents.

A man seldom does much good in the world until he stops trying to do:
