

THE WAR TRIP
After Trip Full of Incidents Got There Safely
THROUGH WATER AND MUD

The Message to General Armfield From Governor Glenn Was a Congratulatory One and Was Delivered by Special Courier John A. Park, After a Trip That Required Much Pluck and Stick to It.

(Special to News and Observer.)
Morehead City, N. C., Aug. 6.—The North Carolina War Dispatch Automobile, bringing a message from Governor Glenn to General Armfield, arrived at Camp Glenn, tonight at 9:20.

Special Courier John A. Park, was in command of the car and was accompanied by his driver, Mr. Thomas Harris, of Raleigh. Lieutenant Z. P. Smith, Company "B," Third Infantry, boarded the car at New Bern and came through with it from there. The machine left Raleigh at five o'clock Wednesday morning and reached Dover that night at 7:30, after covering ninety-six miles. Stops were made at Selma, one hour; Goldsboro, two hours; Kinston, an hour, and New Bern, two and one-half hours. The road from Newport to Camp Glenn offered more serious difficulties to the autoists than any other like distance on the route, and a great trouble seemed to have been the great troubles most of the time. Various detours had to be made to cross streams where bridges were washed away and a great deal of time was taken up through having lost the road.

A few miles before reaching the camp the car was stalled in four feet of water. With Mr. Park at the wheel, the car was spinning along at a rapid rate when the swollen stream was encountered. Putting on full speed he attempted to get through it, thinking the water shallow, the darkness preventing him from seeing the rapid current. The car was stuck in the thick foliage. The occupants pulled the car out, however, and finally found another road. All the members of the party were drenched upon their arrival and seemed to be very tired, but still in good spirits.

The car registered a hundred and seventy-four miles from Raleigh. Mr. Park states that there was not a single breakage in the tools used on the entire trip, a new set of batteries were installed at Dover and with the exception of gasoline and water everything else used on the journey was brought aboard. Mr. Harris said that the engine of the car, after its long test, works better now than at the start. Lieut. Smith stated that he was greatly surprised that the work the machine did in getting there.

The car used is a fifteen-horse power Ford roadster, and is the first automobile of any kind that has ever been seen in Morehead, and considerable attention was aroused upon its arrival.

A valuable aid furnished the camp by the car was the delivery of some badly needed telephone supplies for the rifle range, which will be put up in the morning by Mr. Harris. Mr. Park says that he and his chauffeur are too fatigued to do any more driving now, and after a few days' rest will return by train to Raleigh.

The Message From the Governor.
The message taken to Camp Glenn by Mr. Park was delivered and received with a great deal of interest. Mr. Park is addressed by General J. F. Armistead, Camp Glenn, Morehead City, N. C., by Special Courier, Corporal John A. Park, and reads as follows:

"My Dear General:—I desire to say that you and through you to the officers and soldiers of the Third Regiment, that I am very sorry indeed that previous engagements make it impossible for me to be with you during the encampment. I was compelled to miss the encampment of the First Regiment, which I very much regret.

"During my administration I have done everything in my power to advance the interests of the National State Guard, and though there has been some discontent among a few of the officers, I believe that generally, my course has been appreciated and approved. The Guard is certainly in a great deal better shape than it ever has been before, and it gives me great pleasure in going out of office to feel that I have been able to do something toward promoting the welfare of the military of the State, as well as doing personal and individual acts of kindness for many of the soldiers.

"You will please present my best wishes to all officers and soldiers, and will thank you during my administration I have been proud of the State Guard in their obedience and fidelity to duty, and that I can only hope and believe that the next Governor will be able to do as much for it as I have done. I have accomplished. Say to them that they have been true soldiers, and I hope, during the encampment, they will all prove themselves to be, what by nature they are, true gentlemen, bringing no reproach upon either our flag or our State by any unsoldierly conduct.

"For yourself accept my best wishes and appreciation of all you have done in upholding my hands in the discharge of my duties.

is just the thing for unexpected company. There is nothing better to serve from the can for an impromptu luncheon.

CUT IN DRUNKEN BRAWL

Henry Johnson Cut Last Evening
by John Hearsh

Both Are White Men of This City—Were Drunk and Fussed Over Quart of Liquor—Immediately After the Cutting Affair Heart Leaves for Paris Unknown.

"The old cron liquor was the cause of it all." That is the synopsis of a cutting affair last evening, when John Heart, a nineteen-year-old white boy, cut Henry Johnson, a colored man, about 30 years old, in the back, making a painful but in no way serious wound, cash about an inch long, in which Dr. C. O. Abernathy put two stitches.

John Heart, and Henry Johnson were friends, both living in the same house, until last evening, when they both "tanked up" on "old corn." Johnson, it seems, had touched the precious stuff a little more than Heart, and the latter had enough to make him "feel good." They were both sitting on the railroad track, near Fayetteville street crossing, last evening about 4:30 o'clock. An argument arose over the possession of a quart of liquor which Johnson had. After some discussion Johnson left Heart in possession of the whiskey and went to a drink for him. Johnson and the father then went back to where the Heart boy was and, and the Heart boy, already crazy with whiskey, became infuriated with Johnson for going after his father. Johnson was sent to jail for a few days, and the father then went back to where the Heart boy was and, and the Heart boy, already crazy with whiskey, became infuriated with Johnson for going after his father. Johnson was sent to jail for a few days, and the father then went back to where the Heart boy was and, and the Heart boy, already crazy with whiskey, became infuriated with Johnson for going after his father.

"I desire to say that you and through you to the officers and soldiers of the Third Regiment, that I am very sorry indeed that previous engagements make it impossible for me to be with you during the encampment. I was compelled to miss the encampment of the First Regiment, which I very much regret.

ALL SHOPS IN DARKNESS

(By the Associated Press.)
Winnipeg, Manitoba, Aug. 5.—Tonight the Canadian Pacific Railway shops were in darkness as the electricians operating the light plant have declined to work with non-union men. Today three coach loads of strike-breakers arrived here from St. Paul and Chicago and these, added to the Japanese used in round houses and other parts of the yards, add somewhat to the usual activity around the buildings.

Porters are now compelled to clean out their own cars and every extra laborer that can be obtained is being pressed into service. Several hundred mechanics are expected from Pacific coast States, while the Eastern shops will draw the supply from New England. At some shops in far western cities armed police are on guard.

The most striking feature of the situation was the placing of between fifty and sixty pickets at the various railroad terminals and in the vicinity of the shops to meet all mechanics coming into the city and to dissuade them from working for the Canadian Pacific. J. H. McVeigh, local chairman of the strikers, authorized the Associated Press to state that he had instructed them to beat the pickets off a cartload of strike-breakers left Chicago yesterday morning. A strict boycott will be kept for the men in pickets at the Southern and Great Northern terminals.

12,000 GO STRIKE
All Shops on Canadian Pacific System Idle
SEEMS TO BE FOR LONG TIME

Most Extensive Strike in the History of Railway Shops in Canada—Every Wheel in the Shops Stopped and First Week Down—When the Whistles Blow, Street Short Blasts.

(By the Associated Press.)
Winnipeg, Man., Aug. 5.—Union shopmen employed by the Canadian Pacific Railway today struck in all shops on the system from the Atlantic to the Pacific and all shops tonight are idle. It is estimated that 12,000 men went out, the largest number being 2,200 in Montreal. Fifteen hundred left in Winnipeg. Two thousand men left work between Fort Mill and Vancouver, all at the dictates of the executive committee of the various unions affected. Even odd workmen in line for pensions, went home and it seems to be the most extensive strike in the history of railway shops in Canada.

Among the workmen employed around the train sheds at depots went out, and conductors and engineers caused some delay to train service by insisting that trains be properly made up before they would take them to the whistles. In the shops stopped and every fire whistled down when the whistles blew several short blasts; car makers and shop foremen alone being left to put the places in shape for a period of idleness to follow.

This afternoon the men gathered at their halls to appoint committees to carry on the strike. It was a determined crowd. A few younger men tried to force an appearance of joviality, but the majority looked as if they fully realized the gravity of the step taken. The railroad company has several hundred odd country mechanics who will be brought to the scene of action at once.

Among those assembled the talk was about the early termination of the strike. Some are optimistic enough to believe that all will be over this week, the men believing that there will be a capitulation of the company. There seems, however, to be a strong impression that the company has allowed affairs to drift, to see how far the men will go.

The Canadian Pacific Railway officers accepted by the Canadian Pacific Railway today under protest and the company's officers are surprised at the refusal of the men to acquiesce.
