# FOR EACH DISTRICT

## Boards of Education to Prepare Estimate

Guaranteeing a Four-Months' School in Every School District in the State Becomes Effective This Year-Basis For Fixing Salaries of Teachers.

State Superintendent Joyner will send to the country board of educaeach county today a blank form of 48 pages to be filled out and presented to the county board of edu-June. It is for the complete estimate of expenses of each school district for the school year 1909-'10, and is made necessary by the act of the last legislature, guaranteeing a four-months' school in every school district in North Carolina. The board of county commissioners is required to take this statement, showing the funds necessary to run a four-months' school in each district, and levy a tax necessary to carry out the provisions of the ac The tax will be decided upon by the various boards of county commissioners at their June meeting.

The new law, under which this estimate is made, is as follows:

On or before the first Monday in June of each and every year the county board of education of each county shall ascertain the amount of money that will be needed to maintain the public schools of such county for four months during the succeeding school year. The board of education, using as a basis the receipts for school purposes · during the current school year ending June thirtieth. shall ascertain the amount that will be available for school purposes from the regular school tax, from fines and penalties and from the amount appro priated under section four thousand and nipety-seven of the Revisal of one thousand nine hundred and five of North Carolina. If the amount to be received is less than the amount ascer-tained to be needed the board of education shall submit a statement of the above facts to the board of county femmissioners of such county; and it

shall be the duty of the county commissioners to levy a spesaid county to supply one-half the deficiency for the support and maintenance of the public schools of such county for four months: Provided. that this special tax shall not be less athan one cent on the one hundred dollars valuation of property and three cents on each poll, nor more than five cents on the one hundred dollar valuation of property and fifteen cents on each poll in any county. This tax

shall be levied and collected as other solidly laxes are levied and collected and the runds thus raised shall be expended in such manner as the county board of education may determine for more public maintaining one or more public months in each year. The calculation of the amount that will be nec essary, shall, state separately the amounts needed for supervision, for

administration, for buildings and remairs, for expenses (this to be item-ized) and for salaries of teachers The limitation placed by law on each of these objects shall not be exceeded. The county beard of education shall further state the number of teachers. white and colored to be employed in each district, and the salary of each teacher in each district, and the average of salaries to be paid, according to this statement, shall not exceed the average salaries paid in the State during the preceding year for white teachers and colored teachers, respect-ively. In the event of a disagreement between the county board of education and the board of county commiscioners as to the rate of tax to be levied, the county board of education may bring an action in the nature of mandamus against the board of county commissioners to compel the levy of such special tax in the manner and form as provided in sections e'ght hundred and twenty-two and eight hendred and twenty-four of the Revisal of one thousand nine hundred and five of North Carolina, and it of, North Carolina, and it ing the same to find the facts as to

the amount needed and the amount available from the sources herein specified, which finding shaff he conchisive and to g've fudement, requirine the county commissioners to levy the sum which he shall find nocessary maintain the schools for four fmonths in raid county."

Fixing Salaries of Teachers. Pelative to fixing the salaries of Meachers, State Superintendent Joyne

Different salaries may be fixed for different districts, secording to, orgrade of work and qualification of teacher required in each district. In some districts, to secure the sort of teachers required, the salary of white impeher may exceed \$32.24 and that of colored teacher \$22.48, but the average of salary of all white, and colored teachers of the county, respectively, cannot exceed these amounts. To illustrate: Should the toged be ten, the total monthly sal-Ary allowed them could not exceed paid a monthly miary of \$29.48 each, aggregating \$197.40, and the other five a monthly salary of only \$25 each. aggregate monthly salary allowed all the white teachers could not ex-

different, according to the work required and the qualification of the teacher, and the monthly salary of some might exceed \$32.24 and that of others be less than that amount. The same principle applies to the total of white teachers and salaries of any county, and also to colored teachers The average of the salaries of the whole county for white teachers, ob tained by dividing the total of monthly salaries allowed all white teachers, by the total number of white teachers to be employed, cannot exceed \$32.24; but in reaching the average for the county it will be possible to pay some of the teachers more than this per month, provided a sufficient number are paid less to bring the average to the average salary of the State. The same rule applies to the colored teachers, whose average of monthly salary cannot exceed \$22.48."

STATES COMMISSIONER OF EDUCATION. .

commencement exercises Shaw University, at Raleigh, N. C. occur this year from May 9th to 13th

On Sunday, May 9th, the baccalaureate sermon will be preached by Rev. C. T. Walker, D. D., of Augusta, Ga. On Monday, May 10th, the address before the literary societies of the College Department will be given by Jas. E. Shepard, Ph. G., of Durham. N. C. On Wednesday, alumni day, the principal address will be given by S. N. Vass, D. D., of Raleigh. The commencement exercises prop-

er occur on Thursday, May 13th, and an unusually interesting program has been prepared. The invocation will he by Rev. J. A. Whitted, D. D., of Winston-Salem. N. C. The degrees will be conferred and the diplomaawarded by Prof. Frank M. Harper, superintendent of the Raleigh schools The annual address will be given by Hon. Elmer Ellsworth Brown, U. S. Commissioner of Education. The benediction will be pronounced by Rev. S. N. Vass, D. D., of Raleigh.

At the close of the exercises there will be an extensive and attractive industrial exhibit in both the young women's and young men's depart-ments. A large class will be graduated, representing all departments of the institution.

Shaw has had a great growth during the last fifteen years. The average daily attendance has increased from 211 to 493 and the annual re-ceigts during this time has more than doubled.

## ARREST INSURANCE AGENT

ORDERED YOUNG FOR FAILURE TO COMPLY WITH THE LAW.

Insurance Commissioner Young yes terday notified the sheriff of county to arrest J. A. Wheedbee, representative of the American Finance Company, of Richmond, Va. This company had made application to be licensed, but had never complied with the State insurance laws. Wheedbee's office is at Henderson. man." Mr. Young said, "was indicted at Monroe for selling the stock of the

Seminole Securities Company." The trial of Mills and Bequest, the two insurance agents charged with defrauding a white woman of Scotland county out of \$9,000 five or six years ago, will commence in the Superior court at Laurinburg next week. Deputy Commissioner W. A. is attending Surry court at Dobson this week, at which three negroes are

the insurance money. The license of the Modern Wood men of America has been cancelled because of their failure and refusal to put up the advance assessment re-

quired under the North Carolina insurance laws. The Insurance Department has reeived inquiries as to Mingle and Wood, proposing to insure moving

picture shows. Mr. Young said this concern is not licensed to de business in this State, and that any policy issued by them is null and void. The commissioner has stopped the representative of the Insurance Audit and Inspeciton Company, formerly the

Policy-Holders' National League, from vorking in this State, for violating the law in rendering assistance to nonlicensed -companies. Mr. Young will be in Greensboro

oday on official business.

SPECIAL TERMS OF COURT.

Ordered by Governor for Onslow and Mecklenburg Counties. Governor Kitchin yesterday ordered special term of criminal court for

Mecklenburg county, commencing June 14th. Judge W. B. Council June 14th. will preside. . A special term of civil and criminal court was ordered for Onslow county, beginning May 10th, Judge O. H. Guion to preside. This court was made necessary by a conflict in courts caused by an act of the last legislature monthly salary could not exceed which gave Sampson county an additional week, interfering with the first the salary allowed each teacher might week of the Onslow court.

To U. S. Supreme Court. A writ of error to the United States Supreme Court was sued out yesterday before Chief Justice in the case of Ives vs. Green, which was affirmed on appeal from the Pasquotank Superior Court of North Carolina. This is the case of a tug boat damaging a marine railway at Elizabeth City. The lower court gave the owners of the marine railway damages. Mr. Walter Clark, Jr., appears for the defendant.

One Charter Yesterday.

The Brown Supply Company, of Bailey, Nash county, was incorporated yesterday with an authorized capital stock of \$25,000. The company will do a general mercantile business and its incorporators are; J. D. Finch, B. W. Brown and McBissett,

# LAKE PROJECTS

State Board of Education Defers Action

Covered With Water Has Been Received-Landowners Desire That the State Board of Education Issue Drain the Lake-Board to Meet

The State Board of Education, com osed of the constitutional officers of the State government, met yesterday morning in the office of Governor Kitchin to receive a petition from a malarity of the land-owners in the vicinity of Mattamuskeet Lake, Hyde counfor the drainage of the lake, under the Mattamuskeet drainage act passed by the last Legislature. It was estimated that the reclamation work would cost \$400,000, of which the State would have to pay \$300,000 and the land-owners \$100,000. ANNUAL ADDRESS BY UNITED and the land-owners \$100,000. The land, after being drained, would, it has been estimated, be worth from ten to fifty dollars an acre, and there are in round figures 50,000 acres. The Poard of Education has been offered \$60,000 for the property by individuals

> lake bottoms into some of the mos fertile farming lands in the country. As two members of the Board, Lieutenant-Governor W. C. Newland and Secretary of State, J. Bryan Grimes, were absent, no action taken. Representing the petitioners were \$ 8. Mann, of Swan Quarter, ex-State Senator and president of the Mattamuskeet Railway Company; and Col. H. C. Carter, of Fairfield, a director of the Mattamuskeet road, Ex-Representative J. C. B. Ehringhaus, of Elizabeth City, and M. Mackley, of

who would develop it, converting the

Pelhaven, representing other interests, appeared before the Board, opposing he drainage proposition. The members of the Board of Edu cation have not determined upon what course they will pursue. The Mattamuskeet property is the most valuable they hold, its bottoms being of sufarming soil to the bottoms of Angola Bay, in Pender and Duplin counties, according to the reports of

It was said to be beyond a doubt that, should the lake be drained, by either the State or a private corpora-tion, the Mattamuskeet Railway would be rushed to completion, thus being provided with better marketing facili ties than any other agricultural sec-tion in the State, owing to its proximity to Norfolk and to the markets of

Eastern North Carolina. This company was chartered by the General Assembly on the 6th of March, 1907, and was formally organ ed at Swan Quarter, on the 12th of ay, 1997, and commenced business with a stock subscription list amounting to eleven thousand and four hun-

Application was at once made to the Board of Directors of the State Prison for convicts, with which to grade the road, and the first work was begun on the 14th of August, 1907. The work of grading has been carried on con-tinuously since that date until there has now been graded between Fairon the north side of Mattamuskeet Lake, around the east and south ides of the lake, through the towns h Engelhard, Middleton, Juniper Bay, Swan Quarter, Rose Bay Scranton and Leechville, toward proposed terminus at Belhaven, 51 1+2

miles of roadbed. This includes 29-14 miles spur track.
Of the sixty and one-half miles between the towns of Fairfield and Belhaven, which is the terminus of Norfolk and Southern Railroad Pungovriver, there remains no 12 1-2 miles of main line roadbed to

be constructed. The present officers of the corpora tion, elected May 12, 1908, are S. S. Mann, president, Swan Quarter; C. W.

## Woman, Lovely Woman being tried for burning a house for

But Alas, Without Beautifui Hair No Woman Can be Handsome

A great many newspapers and magazines are painting pages on how a woman can be beautiful and keep And everyone, as you can see

ourself, admits that no woman cap be really beautiful unless she has lustrous and luxuriant hair. The women of

rule, beautiful and keep beautiful, and a careful American obser-

who has claims that their beauty is due to their hair luxuriant, which they do by using a Many Americ can women are French sisters and that is why the quick acting and greatest of

Have ready a pail of warm ands made by dissolving a tablespoonful of Gold Dust washing powder in warm water. Dip a soft cloth in the water, aqueeze almost dry and wipe the glass off. Polish with chamois as it leaves no lint and does the work with more case. Do not wash windows when the sun is shining on them. Wash mirrors in the same way as windows. Then polish with a soft cloth charged with powdered whiting. Finish

I. Watson, secretary and treasurer, Wysocking; H. C. Carter, Fairfield; C. E. Mann, Middleton; G. L. Swindell, Belhaven; T. H. B. Gibbs, Fairfield, lirectors; Samuel A. Windley, State proxy, Lake Landing.

Three hundred and eighty shares of stock have been issued to the State of North Carolina, the State now ownng a considerable majority of the ag gregate stock now paid in Said shares are in denominations of \$100 each.

The present plan of the manage ment, of the company is to complete the construction of its roadbed into the town of Belhaven, and, if sufficient capital can be secured for that pur ose, the construction of its roadbed over the most direct practicable route o Washington, N. C. Under favorable onditions the work of grading roadned can be completed to Belhaven by

The original object sought in secur ng the charter for this company was to furnish outlet for the magnificent agricultural resources of the county of Hyde, and the eastern part of Beaufort county; also to furnish quick and prompt transportation for the raulti-tudinous products of Pamileo Sound and its tributaries as well as a great trucking section.

It is the hope of the management and stockholders to finance and equip the road in its entirety in the next wenty-four months.

An officer of the railroad said, with eference to the agricultural importince of Hyde county, in which Mattamuskeet is situate, covering 50,000 acres of the best land in the county: The importance of Hyde county as railroad territory has been overlook-

ed to a great extent because of fact that nearly three-fourths of the county line is a water line. The county is a peninsula, seven-eights of its territory being embraced by the waters of Alligator river, Pamilico sound, Pungo iver and its tributary creeks. Its water facilities put the shipping points of Fuirfield, Engelhard, Wysocking, Juniper Bay, Swan Quarter, Rose Germanton Sladesville, Makelyville and Scranton almost equidistant from the markets of Elizabeth City, New Bern. Washington and Belhaven and have caused its products to be carried noiselessly in sail vessels and distributed, almost impartially, among the markets named and furnish the rea-son why the magnitude of its resources has never been exploited the interest of any railroad scheme.

Mr. J. O. Wright, chief drainage engineer of the U. S. Agricultural Department, at a farmers' institute at "The last census showed that Hyde contains 1,961 cultivated The average size of these contains county farms is \$7 acres. The value of the land alone is \$1.084,230. The improve-

ments are worth \$342,700; the live stock \$130,125, and the farm products not fed to stock \$225,525. "The area of the county is 247,680 agres. If it were all drained and culcorn at 40 bushels to the acre it would yield 9,907,200 bushels. If this were yield 9,907,200 bushels. If this were loaded in box cars at 400 bushels per haul the product away. Allowing 23

cars to a train and running thre-trains a day, it would require one year's time to remove the crop. Selling this corn at 60 cents a bushel, it would bring a revenue to the county of \$5,-

It was said vesterday;

"It costs the farmers of Hyde county from five to seven cents per bushel to get their grain to market; four cents per bushel from points where there is no lightering to do with smaller boats, live to seven cents a bushel where the grain has to be carried in small boats to the larger ones and there is canal toll to pay. Certainly if they could get their grain marketed cheaper, say at four cents a bushel, and one-half the hauling saved. then a railroad would get the business. At four cents a bushel in seasons of fair produc-tion it would cost the farmers of Hyde county \$61,538, to market surplus of

fair corn crop.
"We would be even more conservative than this and say that to suc-cessfully compete with the sail ves-sels and secure the business of carrycrops, the railroad would have to make a rate of three cents per At three cents per bushel to market 1.538,450 bushels of corn would bring to the railroad a revenue of \$46,153.50. When we consider that it takes 22 vessels with an average tonnage capacity of 25 tons, 3 steamers, one making weekly and semi-weekly trips, and two making daily trips (one gas boat line making tri-weekly trips and, perhaps 100 vessels ranging down from 10 tons down move the farm products of Hyde county, no one will dispute the proposition that \$45,000 for moving the agricul-tural products of Hyde county, is

rether below than above the actual "Hdye county and the lower part of Tyrrell can, owing to the higher temperatures, caused by surrounding waters, market potatoes, peas, kale. letruce, beans, cucumbers and nearly to ten days earlier than any other territory in North Carolina of the same latitude. Its soil is specially adapted to the production of these. products and the only reason it has not been developed as a trucking territory has been lack of quick and certain transportation. The yield per acre can be made as great as any other ter ritory, it having already been demon superior hair strated that as many potatoes per acre tonic. State: that from four to five thousand quarts of strawberries per acre can be harvested in any favorable season Asparagus grows wild in Currituck township and can be raised in the greatest profusion. Use it as directed for two weeks. If at the end of that time you are not satisfied with results, say so to Bobbitt-Wynne Drug Co., and they will give you your money back.

Besides being a delightful and invigorating hair dressing, free from grease and stickiness. Parisian Sage will surely cure dandruff, stop falling hair and itching jof the scalp, or money back.

The girl with the Auburn hair is on every package, and leading drugglats in every town sell Parisian Sage.

Dr. Guy Carleton Lee, member o the faculty of Johns Hopkins Ehiversity, a noted author, lecturer and educator, left the city yesterday after a visit to h's University of North Carolina classmates, Messrs. Victor A. Boyden and W. W. Vass, and while here he called on Governor Kitchin and Chief Justice Clark.

Dr. Lee never omits to say that he is "from North Carolina." He loves the State, her history and traditions. and before leaving Raleigh he declared it to be the prettiest residence city he had ever seen.

Dr. Lee is renowned as a scientist and as a student of conditions. Correctly speaking, he is one of the leadng sociologists of the world. His utterances on the ouestions with which he is amiliar are like the dictum o a high court.

Some months ago Professor Le gave a very scholarly talk upon profound sociological subject before a convention of scientists in the east After his lecture he was greeted by an English nobleman who has engaged in certain accentific investigations. The man from across the sea remarked:

"I've heard of you. Mr. Lee, and in my own library I have several books bearing your name; but somehow I have never been quite able to place you definitely in any one class of investigators. Now tell me, just what is your specialty?"
"Man!" was Dr. Lee's very brief

but significant reply. As a matter of fact, although the present age is one of specialing, it is not always the specialist in particular fields who is best able to understand, and direct men Some of the most learned psychologists know nothing of life or human emotions, outside of what they find h books or in their own laborato

specializes in man, he spoke a truth that has frequently been revealed by his platform work, for he has come understand his fellow beings as few lecturers do. And the reason for this is not far to seek. Dr. Lee has been friend and companion to all sorts and conditions of men.

Before he assumed a position as one of the foremost platform lecturers in America, he has won rank as one of the ablest of the young historians of the country. Before the had compelled recognition as a historian, however he won a place among the great newspaper editors of the present day. And he had been called to the news paper desk from a university profes orship, where he had accomplished much in advancing the method and manner of imparting historical knowl edge to older students.

But back of all this-back of the career of lecturer, historian, editor, professor and graduate student, Dr. Lee had a long line of occupations and experiences that tended to develop the best that was in him and at the same time to give him a re markable insight into men.

And out of this varied career. De Lee, through his ready sympathy with sonality, which has drawn the rough est men and women to him. has made one long and loving study of man.

## DEMARK THE MIRREDER

NEGRO KILLED DEPUTY SHER-IFF OF COLUMBUS COUNTY. IN COLD BLODD APRIL 5.

Governor Kitchin yesterday offered

reward of \$100 for the apprehen-

sion and capture of Sam Wilson. negro, charged with murder in Columbus county. He shot in cold blood, killing instantly, Deputy Sheriff Jesse S. Long, in Bug Hill township, six miles from the South Carolina line, on the night of April 5th. Wilson had been arrested by the officer on a warrant charging abduction. He was being held for the night by Long and his brother-in-law, Miller Gore, who searched the prisoner, but failed to discover a pistol, which Wilson had concealed in his sock. about 11 o'clock that night the negro asked to be taken out of the building. and was accompabled by Long. then reached for his pistol, killed Long, and escaped into South Caro-The sheriff and a posse with a blood-hound, pursued the fugitive til the following morning, when a storm destroyed the track and the pursuit with the hound had to be abandoned. It is believed that Wilson is being befriended and concealed by negroes in the rice fields near Georgetown, S. C.

farming country would result in inreased wealth to the State. Major Joseph E. Kuhn, United States engineer in charge of the Norfolk district, has gone to Hyde county for the purpose of making a prelimi pary examination of Lake Mattamuskeet region with a view of ascertaining the practicability of connecting the Albemarle and Pamlico sounds every other garden product from five by a canal as a part of the inland waterway from Norfolk southward. The examination is at the request o the inland water board. Major Kuhn expects to spend four or five days in the inspection.
