

COTTON MADE FIRM SHOWING Net Advance of Eight to Ten Points MARKET CLOSED STEADY

Weather Reports Showed That Showers Had Been Quite General and in Some Instances Precipitation Had Been Quite Heavy—Reports of Strong Southern Market.

(By the Associated Press.) New York, N. Y., June 14.—The cotton market made a generally firm showing today and closed steady at a net advance of 8 to 10 points.

Immediately following the call prices eased off to within 2 or 3 points of the standard finals under local selling for a turn and realizing by some of last week's buyers, but the market received good support from certain spot people and other prominent brokers, and prices soon firmed up again.

A good many private reports were received concerning the desirability of the former rains in the Mississippi valley; reports were circulating of very strong Southern markets, and while buying did not become general or particularly active the market gradually worked higher with July contracts selling at 10 1/2 and December at 10 1/2 or about 19 to 12 points higher.

Detailed weather reports showed that showers had been quite general in central and western sections of the belt over Sunday and that in some instances precipitation had been quite heavy. There was nothing in this showing which would have attracted much attention were it not for the fact that a week or so ago the central belt was complaining of excessive moisture.

The steady showing of the Liverpool market was considered a reflection of trade sentiment at that point regarding proposed short time in Manchester. Southern spot markets were generally unchanged to 1-2c higher.

Receipts at the ports today 9,056 bales against 9,750 last week and 7,136 last year. For the week 35,000 bales against 31,323 last week and 53,932 last year. Today's receipts at New Orleans 1,875 bales against 2,123 last year; and at Houston 1,162 bales against 1,620 last year.

Spot cotton closed quiet, 15 points higher; middling uplands 11 1/2; middling sea island 11 1/2. Futures opened steady and closed steady.

New Orleans, June 14.—Spot cotton firm, unchanged; middling 10 7/8; sales on the spot 1,300 bales; to arrive 750.

Futures opened quiet at an advance of 1 to 2 points. Liverpool cables were slightly better than expected and the weather over Sunday was bad.

The market had little life at any time during the session. At one time in the early hours the active months were 1 to 2 points lower than Saturday's closing, being depressed by the dullness. Later in the day the market was steadier on an unfavorable weather forecast for tomorrow and prices went up to a net advance of 7 to 7 1/2 points. Pressure was applied to July which closed unchanged from Saturday's close while the later months were at a net advance of 7 to 8 points.

Cotton futures closed steady. June 10 1/2 nominal; July 11 1/2; August 10 1/2; September 10 1/2; October 10 1/2; November 10 1/2; December 10 1/2.

The above is a complete outfit, which has been furnishing lights for a live town in North Carolina for about 5 years. It is in splendid condition. It has become too small for our customers, and we will replace it at once with a materially larger plant.

GREENSBORO SUPPLY CO., Greensboro, N. C.

New York Dry Goods. New York, June 14.—The dry goods market was firm in the primary division today. Cotton goods and cotton yarns are firmer with a higher tendency. Dress goods for fall delivery on duplicate orders are ten per cent higher than when the lines were opened.

Stocks and Bonds. New York, June 14.—There was further shrinkage in the volume of the stock market today, following the tendency of last week. Efforts of the organized speculative element to effect profit-taking sales to take advantage of any outside demand attracted by the week-end influences forced a decline after the opening, owing to the meagre proportions of the outside demand.

Chicago Grain. Chicago, Ill., June 14.—Reports of a more abundant harvest in the Southwest than had been predicted, prompted liberal sales of wheat on the Board of Trade today and a material decline in prices. At the close the net loss for the day was 2-8 to 2-16.
