INCOME TAX QUESTION.
Senator Aldrich Will Move Today That It Be Again Be Deferred.

Washington, D. C., June 17.—When the income tax question comes up in the Senate tomorrow Senator Aldrich will again move that action be deferred until after schedules in the tariff bill. This motion will carry with it President Taft's program for the enactment of a law taxing net earnings of corporations and the adoption of a resolution submitting the question of a new constitution so as to permit Congress to levy and collect a tax on incomes without regard to apportionment among the States. Mr. Aldrich will make the statement that he believes the income tax question will be finally settled by Monday, and he will suggest that the postponement of the income tax and corporation tax measures be deferred until that date.

At a caucus of the Democratic senators today it was decided that the majority shall stand by their previous declaration in favor of the enactment of an income tax law at the present session. The caucus was well attended. There were speeches by Messrs. Bacon, Calhoun, Culberson, Money and Rayner and brief remarks by numerous others, in which the opinion was expressed that the administration movement in favor of placing a tax on net earnings of corporations is designed to prevent the income tax amendments from reaching a direct vote.
