"I had been treated by four different physicians during 10 years of stomach trouble. Lately I called on another who told me he could not cure meithat I had neuralizia of the stomach and said he could oure me in four months but would have to have his money down. I could not raise the necessary sum and in my extremity I was let to quit coffee and try Pestum.

"Bo I stomed coffee and gave Postum a thorough trial and the results have been magical. I now sleep well at night, something I had not done for a long time; the pain in my stomach is gone and I am a different woman." I creaded to quit coffee because every time I had tried to stop it suffered from severe headaches, so I continued to drink is although I had reason to believe it was injurious to me, and was the cause of my stomach trouble and extreme nervousness. But when I had Pustum to shift to it was different.

Coffee had been steadile and surely killing me and I didn't fully realise what was doing it until I quit and thanged to Postum.
