Master over all Blood diseases. Pure, rich blood and a free circulation is the surest prevention against the diseases and disorders which are constantly attacking our physical

systems. Healthy blood stimulates the excretory members and enables them to filter out of the system everything that is not necessary or beneficial to the growth and development of the body. Thus we are apt to remain healthy unless there is a weakening of the vital fluid or an impure infection of the circulation.

Imperfect blood takes various forms in its outward manifestation. weak, watery circulation denotes anaemia with its attendant evils of pale, waxy complexions, malarial conditions, or perhaps some more definitely marked disorder is shown. Frequently the blood becomes infected with acrid humors, and Eczema, Tetter, Acne, or some other skin affection makes its appearance, while an excess of uric acid in the circulation produces Rheumatism with its pains and aches. Old Sores and Ulcers are likewise dependent on bad blood, these places being kept open and in a state of irritation, by the drainage of pollution which disordered blood constantly discharges into them.

Another common indication of weak, impure blood is the loss of appetite, tired, worn out feeling and a general run-down condition of the system. This is an ailment very prevalent in the Spring and most persons so afflicted realize the necessity of overcoming the trouble by the use of a tonic.

We recommend to all in need of a blood purifier or tonic, the use of S. S., a medicine which has proven itself the greatest of all blood purifiers. It goes down into the circulation and removes all impurities, humors and poisons and makes the blood pure and healthsustaining. It purifies and strengthens weak deteriorated blood. supplies it with the healthful properties it needs and lays the founda-

tion for good health. As a tonic S. S. has no equal and those who are beginning to feel the need of such a medicine to fortify them-IS THE BEST TONIC selves against the unpleasant con-

ditions which come with Spring and early Summer, should commence its use at once. S. S. S., the King of Blood Purifiers, is a genuine blood cleanser, made entirely from roots, herbs and barks; it does not contain a particle of mineral in any form. You could not do better than begin the use of S. S. S. if from any cause, your blood is weak or impure. S. S. S. cures all troubles due to a deranged circulation, and you will find it the most satisfactory tonic you ever used. Write for book on the blood and any medical advice. No charge for either.

"A man may be a schoolmaster and a failure at every thing else. It is a glorious thing to be a success only as a schoolmaster. but it is one of the glories of the profession of the schoolmaster that gives opportunities for developing these faculties which are essen tial in any sphere. All men do not make the best of the opportunities which are presented in their chosen work in life. Woodrow Wilson, by profession, has emphasized the op portunities that were utilized by him as a schoolmaster and has added lustre to the glories of the teaching profession by showing what it fitted him to do. He has amo set before every schoolmaster the possibilities of greater future usefuiness in other spheres, if he should be called to them, provided he will make the best work at hand, and thereby fit

himself in a larger sense to be a teacher and leader of men."
