

IN THE RELIGIOUS WORLD

A SOCIAL PROBLEM THAT TESTS OUR TEMPER

The International Sunday School Lesson for June 23 is "The Penitent Woman"—Luke 7: 36-50.

(By WILLIAM T. KELLEY)

A greater number of changes and of a more radical character are being made in this generation than in any other period of history. It is a time of transition, and the transition is being made in a way that is not only rapid but also thorough. The changes are being made in all directions, and the result is a new order of things. The changes are being made in the social, political, and economic life of the world, and the result is a new order of things. The changes are being made in the social, political, and economic life of the world, and the result is a new order of things.

The Best Authority on a Present Problem

It is not only a present problem, but a problem that has been with us for many years. The problem is one that has been with us for many years, and it is one that has been with us for many years. The problem is one that has been with us for many years, and it is one that has been with us for many years.

A Host Who Was Not a Gentleman

The host who was not a gentleman was a man who was not a gentleman. He was a man who was not a gentleman, and he was a man who was not a gentleman. He was a man who was not a gentleman, and he was a man who was not a gentleman.

and which he would not have failed to give to another rich Jew. A blinding rebuke to the snobbish rich was given by Jesus in the fact that he made it plain that he was not a sinner, but that he was a man who was not a sinner. He was a man who was not a sinner, and he was a man who was not a sinner.

What Hospitality Involves

What hospitality involves is a matter of the heart. It is a matter of the heart, and it is a matter of the heart. It is a matter of the heart, and it is a matter of the heart. It is a matter of the heart, and it is a matter of the heart.

The Supreme Test of Religion

The supreme test of religion is a test that is not a test of religion, but a test of religion. It is a test of religion, and it is a test of religion. It is a test of religion, and it is a test of religion.

S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble.

It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S.S.S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, to keep the stomach, as is with pleasing effects on the nervous system, and invigorates every portion of the body.

ness in its weakness and in its strength, by the truth that all of mankind must make its approach to God as sinners dependent upon His mercy. If saved at all, we must be saved by His grace. This is the truth that makes us tender, patient and forgiving. Because of the love with which Christ loves us and all men, we, in turn, must love His other children too much to let us permit the hurt of even the least of His little ones.

Snowdrift

Overcomes Every "Fried Food" Objection

There used to be two objections to fried foods—they were not nearly as digestible as foods prepared in other ways. Now, however, as most good cooks know, this has been overcome by frying in Snowdrift. Snowdrift is a fatless cooking medium without burning; with the Snowdrift very hot in the beginning, the surface of the food is immediately cooked. This prevents the fat from getting in and the food pieces from getting out.

The other objection to fried foods was their expense—frying required so much lard or butter, it was by far the most expensive method of cooking. Snowdrift has also overcome this. In frying you can use Snowdrift over and over again, trying different articles in the same Snowdrift. Fry fish today, strain the Snowdrift and fry chicken tomorrow in the same Snowdrift. The chicken will not taste of fish. Frying with Snowdrift is a decided economy. Try it!

Snowdrift is sold only by the can—never sold from barrels and tubs.

DAISY DESIGN for BLOUSE, COLLAR and CUFFS

This week we give still another design for blouse or shirt waist in view of the constant demand for them. Solid and eclect embroidery may be used or outline and eclect stitches. The figure shows how the design should be placed to the garment.

METHOD OF TRANSFERRING

Dissolve a half teaspoonful of washing powder or a small piece of soap in two-thirds of a glass of water. To this add a tablespoonful of ammonia. Place the material on which the transfer is to be made on a hard, smooth surface, saturate the back of the design with the above solution, place the design face down on the material, laying a sheet of thick paper over the back of the design, hold firmly with one hand and with the bowl of a spoon rub, with pressure, from you. By following these directions carefully one to four transfers can be made.
