REPUBLICANS OF THE SENATE LEAP INTO TARIFF FIGHT

Attempt to Override Democrats on Question of Public Hearings

SIMMONS IN THE FRAY

Chairman of Finance Committee Moves Reference of Underwood Tariff Bill to His Committee Without Instructions—Penrose Seeks to Have Committee Instructed to Give Public Hearings—Question Pending at Adjournment.

(By the Associated Press.)
Washington, D. C., May 9.—Republicans of the Senate leaped eagerly into their fight against Underwood tariff bill when it was brought over from the House today and precipitated an issue by attempting to override the decision of the Democrats to consider the measure without public hearings.

Forewarning the assault that the Republicans propose to wage against the schedule from "gate to gate," Senator Penrose sought to have the bill referred to the finance committee with instructions for public hearings. After Senator Simmons, chairman of the committee, had moved for reference without instructions.

Action on this phase was pending when the Senate adjourned Tuesday. Several Republican leaders predicting that public hearings would be forced next week.

CHARGING THAT FREE SUGAR IN THREE YEARS WOULD GIVE THE AMERICAN SUGAR REFINING COMPANY AN OPTION WHICH THEY WOULD FORFEIT ON THE PROPERTY OF THE BEET SUGAR INTERESTS. Senator Smith, of Michigan, in a vigorous appeal for consideration of the bill publicly introduced in the "darkness and gloom" of the committee room, assailed the tariff bill. He declared it would result in a repetition of "dark days" that followed the Wilson bill, that the sugar industry would be ruined, that other industries would suffer and that already business was falling off rapidly, throughout the country.

Charging that free sugar in three years would give the American Sugar Refining company and the Federal Sugar Refining company an option which they would forfeit on the property of the beet sugar interests, their only domestic rivals, Senator Smith declared the beet sugar industry would be wiped out. "If the American Sugar Refining company and the Federal Sugar Refining company," said Senator Smith, have made an alliance with the emancipatory party, it is an unholy alliance. Men who have not shirked in committing crimes to increase the volume of their business and who are now resorting to the will of the law, make very poor allies for any political party."

Elizabeth City Man Again in Courts

On Account of Article Published in His Newspaper Which Mr. Aydt Alleges Was Libelous and Defamatory.

Elizabeth City, May 9.—W. O. Saunders, editor of The Independent, a newspaper published here, was convicted of criminal libel this morning in a trial before Judge R. W. Taylor, and sentenced to the county jail for six months on the county attorney's charge.

The defendant's attorneys served notice of appeal and bail was given for Mr. Saunders' appearance at the September term of Superior court when the case will be tried again.

The trial this morning is the result of an article that was published in The Independent several weeks ago, making statements concerning Mr. Aydt, which the latter alleges are libelous and defamatory. He made demands upon The Independent to retract those statements and Mr. Saunders refused to do so and challenged Mr. Aydt to have him arrested.

This morning Mr. Aydt secured a warrant against Mr. Saunders, charging him with criminal libel and it was served by Chief of Police Thomas.

Mr. Aydt was the only witness that appeared in the trial today. He was on the stand for several hours.

Attorney H. S. Ward and Judge J. B. Leigh prosecuted for the State and Attorney L. M. Meekins and W. L. Cannon defended Mr. Saunders.

BROUGHT-BROKEN.

Refreshing Rain Visits Dry Sections of the East.

(Special to News and Observer.)
Kinston, May 9.—As the result of the heavy rain which has fallen during the past 26 hours, conditions on the farms in a dozen counties surrounding Kinston, grown serious because of the extreme drought, were greatly relieved. Operations, especially by the tobacco planters, have been retarded over a month at many parts of the section. Besides delaying the crops, the long dry spell has been responsible for the loss of thousands of dollars in timber through forest fires, and those in a number of places between Kinston and the coast were checked by the rain of yesterday and today.

The precipitation, registering from .88 to an inch, has increased activities in the tobacco fields satisfactorily, and today the setting out of young plants is going on apace.
