(By the Associated Press.)  
Washington, Sept. 22.—Apprehension lest the Democratic tariff bill lead foreign nations to impose tariff penalties against the United States as soon as the new law goes into effect today caused administration and Senate leaders to plan the introduction of a joint resolution in Congress making specific provision for the continuation of existing relations with all countries until President Wilson has time to negotiate new trade agreements.

The seriousness of the situation that will confront the administration today was impressed on Chairman Simmons of the Senate committee by State department officials. It was pointed out that the trade relations established by President Taft's proclamation under the Payne-Aldrich law of 1909 would terminate as soon as the new law becomes effective and the United States then would face the possibility of having higher tariff rates applied by many countries against its exports.

Headquarters of the United States Police officers of the city say that Durham has become headquarters for bootlegging for this section of the State, and try as they might they have been unable to lay hands on the party of parties who have been dealing the stuff out to the negroes. The cases are set for trial before the jury for the week ending September 23.
