### VANDERBILT AND PARTY IN NEW YORK

Rescued From the "Warrior" Yacht Which Ran Ashore

SUFFERED NO ILL EFFECT

From Their Experiences of a Day and Night of Uncertainty While the High Seas Pounded the Yacht and the Trip Through the Breakers. Description of the Rescue By Frederick Vanderbilt, Owner of the Warrior.

(By the Associated Press.)

Colon, Jan. 29.—The steamer Almirante late today arrived here having on board Mr. and Mrs. Frederick W. Vanderbilt, the Duke and Duchess of Manchester and Lord Falconer, who were rescued from Mr. Vanderbilt's yacht Warrior, which ran ashore in a storm Monday off the coast of Colombia. Apparently Mr. Vanderbilt and his guests suffered no ill effects from their experiences, which included a day and a night of uncertainty while the yacht was being pounded by high seas, and a trip through the breakers from the stranded vessel to the Almirante. Mr. Vanderbilt, describing the rescue, said:

**Description of the Rescue.**  
The Warrior grounded on a sand bank at 5 o'clock on the morning of January 26, being carried in shore by a strong current. The United Fruit Company's steamer Frutera, from Santa Marta, arrived on the scene of the accident at 5 o'clock in the evening. The sea was then too rough for small boats to be launched, but the Frutera stood by all night. At 3 o'clock on the morning of the 27th the steamer Almirante arrived and both vessels sent life boats to the yacht at daylight. A heavy and very rough sea was breaking about the Warrior and a boat from the Frutera capsized, but all hands were saved.  
A boat from the Almirante returned to the yacht again at 10 o'clock in the morning, the wind and sea having

moderate. It took off all the passengers from the Warrior. The officers and crew of the yacht were advised to leave, but all of them elected to remain on board until a wrecking tug arrived from Kingston. The yacht was resting easily on the sand bank in about twelve feet of water, and there is a good chance of saving her.  
"All praise is due to the officers and crews of the rescuing steamers."  
During the trip to Colon Mr. Vanderbilt received reports by wireless from the stranded yacht. Referring to these he said:  
"A report from the captain of the Warrior this morning indicated a gloomy outlook, owing to the high seas. I am glad to say that a wireless message which reached me at 2:30 o'clock this afternoon was much more favorable. It said a wrecking tug from Kingston was due at the scene at 6 o'clock this evening and that less anxiety was felt by those on board the Warrior."  
In view of the uncertainty of the situation, the Almirante returned immediately to the Warrior to aid in the rescue of the officers and crew if necessary. She then will proceed to Kingston. Supplementing his earlier statement, Mr. Vanderbilt said:  
"It was a difficult matter to leave the yacht, owing to the high seas, especially for the ladies in the party. A small boat from the steamer Frutera capsized but the crew clung to it until they were taken off. Other volunteers on both the Frutera and Almirante were more than willing to make another attempt to rescue us, but waited at my request until the sea was smoother."  
"Though in a dangerous position, I am of the opinion that the Warrior yet may be saved."

**Had Keg of Whiskey—Raided.**  
Spencer, Jan. 29.—Acting upon a report that a keg of whiskey had been shipped to the home of Paul Good, in East Spencer, Deputy Archie Nash and Officer Wolfe, of that place accompanied by Deputy Jas. H. Kridler, of Salisbury, raided the place Tuesday night. The officers were just a little late in reaching the spot and the shipment had been divided and removed in small quantities to other places. Less than a gallon was left for Paul, and the raid ended.

(By the Associated Press.)

Washington, Jan. 29.—Emperor William's acknowledgment of President Wilson's birthday greetings is said to have been the first official wireless message between the United States and Germany. The Emperor's reply was at the State Department today, where a reply was being framed. The wireless came direct from a station in Germany across the Atlantic to a commercial station at Tucker, N. J.

The President and Emperor William had exchanged the following message on the anniversary of the latter's birthday. The President's message:

"Allow me to extend to your Majesty on this anniversary of your birthday, my sincere congratulations and best wishes for your personal welfare. Mindful of the extent to which so many persons of German blood have contributed to the good citizenship and progress of the United States, it gives me added pleasure to express for myself and my countrymen a hearty wish for the continuance of the splendid progress and prosperity achieved by the German Empire during your reign."  
Emperor William's reply:

"Please accept my sincere thanks for your kind wishes on the occasion of my birthday. Very pleased with your appreciation of the contribution by American citizens of German descent to the development of the United States, I, for my part, express best wishes for the further progress and prosperity of the American people."

### MT. AIRY CONSIDERS HOSPITAL PROSPECTS

Three Propositions in View and Out of Them Institution is Certain to Materialize.

Mt. Airy, Jan. 29.—A modern hospital is one of the possibilities for this city in the near future for more than one person realizes the need of such an institution and believes that it would not only supply a real want but prove a paying investment. There are three propositions to erect a hospital here and either of them should bring the desired results.

Mrs. B. A. Irvin, a retired and wealthy milliner, who left here several days ago to visit her son, a physician in New York City, informed her friends that upon her return she would begin the erection of a thirty-room granite hospital upon a splendid site already purchased for that purpose. The site consists of several acres of ground near the heart of the city, and is an ideal location. It is believed that if her plans are carried out her son, Dr. Sam Irvin, will come here and have charge of the institution.

Another proposition is offered by a gentleman who says he is willing to invest \$25,000 in just such an enterprise and is negotiating with a local physician with a view to making arrangements for erecting a public hospital which will meet the demands of this section.

Should these propositions fail to materialize the local council Junior Order of American Mechanics will erect the hospital.
