NEW YORK FINANCIAL.

New York, Oct 20.—Interest in financial affairs today centered chiefly around the conferences being held in Washington between representatives of the British finances minister and treasury officials. The outcome of these meetings is expected to have a very direct hearing not only upon existing foreign exchange conditions, but also upon the broad questions of the reopening of the London and New York stock exof the London and New York stock

of the London and New York stock exchanges.

Washington also was 'the sent of continued negotiations relative to the organization of the proposed cotton pool in which a hitch was reported. The chief obstacle in the way of this man is said to be the disincilluation of the Federal Reserve Board to assume full responsibility for the project on the ground that other and more pressing duties are now before it for consideration.

There was another abrupt break in exchange on Landon cables being quoted at 4.995 find demand bills at 4.99. The decime generality was associated with the recent beavy foreign demand for American commodities.

commodities. A Depression in steel and copper continued with lower prices. Time money was easier in some instances, but actually unchanged. Lawal banks are holding them changed, Lewis contracts are contractly seems of these contracts representing 90 day loans made shortly before the stock exchange closed. Meney on call was freely offered at an average rate of $6V_2$, the supply exceeding the demand.

NEW YORK COTTON.

New York, Oct. 20. The amendments to the by laws of the cotton exchange were the by laws of the cotton exchange were adopted by an almost unanimous vote of the members here today. A report from the elgiring house committee was submit-ted to the board of managers, but action on this matter is not considered necessary

ted to the hoard of managers, but action on this matter is not considered necessary to a re-opening of the market and the trade now is chiefly interested in the progress of the slan for taking pier old contracts by a corporation and 'syndicate. Favorable weather denditions were reported generally in the South and Western belts. Spot markets were sold to be a shade easier. Local spot dealers, however, claim that far menths show little willingness to consider prices under the six cent level and some of the Eastern belt markets were steader. Homeste mills are buying only for immediate requirements. Complains of fountry damaged cutton are buginning to reach the trade and it is said that much rection is being held by farmers without adequate protection from the weather.

NEW ORLEANS COTTON.

NEW ORLEANS COTTON.

New Orleans, La., Oct. 20. The downward merement in the price of cotton continued today, bilds for January being reduced to 7.10, while spot cotton was officially quoted at 6% for middling, a loss of one-eighth from resterday's prices.

The refusal of leanrance companies to take war risk, on shipments of cotton to many neutral ports was given as one of the reasons for the decline. The loss of a sixteenth in quotations at Dalias early in the day below to worken local spot while the large receipts at Memphis and Houston which were larger for the corresponding day bolk last year and the year before, thissel much smoothing and four for crossed offerings.

The weather over the belt was favorable spots quitet sales 26%, to arrive 310.

COTTON SEED OIL.

New York, Oct. 20.—Cotton seed oil was steady early on covering of shorts and professional support but the list sugged off inter under pressure of heige sales and scattered liquidation by tired longs. Final prices were 2 to 5 points net lower. Sales L.200 burgels.

The market closed early.

NORPOLE PRANTT MARKET.

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women profer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friena" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such helps as "Mother's Friend" and the broader knowledge of them should have a helpful knowledge of them should have a helpful influence upon babies of the future. Science says that an infant derives its sense and builds its character from cutaneous impressions. And a tranquil mother certainly will transmit a more healthful influence than if she is ex-tremely nervous from undue pain. This is what a host of women believe who used "Mother's Friend."

These points are more thoroughly explained in a little book mailed free.
"Mother's Friend" is sold in all drug stores. Write for book. Braddield Regulas tor Co., 411 Lamar Bids. Atlanta Ga.
