NEW ORLEANS COTTON.
 New Orleans, La., Nov. 4.—The cotton market was quiet today with less business all around. Spot unchanged at 7 3/8 for middling. Some disappointment was expressed at the falling off in the export movement but the port sales 21,300 bales in the Liverpool market called forth much bullish comment.

Interest was drawn from the market itself by the dispute over the matter of increasing commissions. One element among the brokers wants commissions on outside business increased to 20¢ for each 100 bales, and on members' business to 10¢, while another element wants them remain at 8¢ and 7.50¢. Today's discussion led to the calling of a special meeting of the brokers' association for next Tuesday.

Spot cotton quiet; sales on the spot 215 bales; to arrive 1,200 bales.

NEW YORK COTTON.
 New York, Nov. 4.—Members of the cotton exchange at a meeting here today agreed to ballot for the liquidation of straddle accounts down to 7.5¢ cents for December. Not a single trader refused to consider a lower price than 8¢ cents for December as a basis for liquidation, but Liverpool has marked the price of January February down to 4.25¢ and today's action was considered an offer to compromise recent disputes.

It was rumored that December contracts were selling on the curb here at 7.5¢ to 7.75¢ and local traders believe prevailing trade conditions no longer warrant the difference of 100 points between Liverpool and New York as fixed by the recent conference towards the end of last summer.

Otherwise there was no fresh development in the contract situation, the belief that from the South indicated continued steady spot markets with prices generally unchanged to 1/2¢ higher. Exports for the day were only 25,754 bales, and some apprehended that the advance in war risks may again check business, but cotton is now moving on very nearly a normal scale. Offerings from Texas are fully a cent higher than they were two weeks ago. Today's port receipts were 68,500 bales. Stock at all United States ports 303,940 bales.

RALEIGH COTTON MARKET.

NEW YORK FINANCIAL.
 New York, Nov. 4.—Wall Street temporarily abandoned its interest in international affairs today to consider the outcome of the elections. With the stock market still under closure, there was no way of measuring the significance of the overturn in terms of security values, but conservative opinion inclined to the belief that under normal conditions the market would have responded with a vigorous upturn of prices.

On the other hand, it was regarded as a debatable question whether the political conditions would not have been largely neutralized by the latest victories of the German navy. This were accompanied by another sharp rise in trans-Atlantic rates, while war risks on ships plying between North and South American ports were virtually prohibitive, according to reports.

Expiration of the British moratorium was without appreciable effect either in London or here. The weekly statement of the Imperial Bank of Germany, which showed an increase of 150,000,000 in gold reserves in the three months of war, reflected the large payments made in connection with the war loan.

Foreign exchange was firm, cables being quoted at 4.91 1/4, and eight drafts at 4.90 1/4. More German cotton bills were in the market at rates unchanged from the early week.

Latest developments in the steel industry pointed to a general wage reduction at the beginning of 1915. Evidence of the continuing improvement in the investment market was furnished by an advance in the prices of short term notes.

Retirement of emergency currency on a fairly large scale here and at other reserve centers testified to the increasing strength of the domestic monetary situation which was supplemented by easier rates for practically all loan accommodations.

Railway returns for September offered infallible proof of backward trade conditions, transportation companies in the Northwest and South showing net losses.

COTTON SEED OIL.
 New York, Nov. 4.—Cotton seed oil showed strength on active covering of shorts and new buying for Western and local investment account, inspired by advance in large rumors of export demand and higher offerings of crude. Final prices were 5 to 25 points net higher. Rates 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.
