NET DROP 12 TO 16 POINTS

October Contracts Broke To 10.63, or About 24 Points From Monday's High Records With The Close a Shade Up From The Lowest On Covering

New York, April 21.—Cotton easier today under more or less general realizing or liquidation and closed stendy at a net lecline of 12 to 16 points.

decline of 12 to 16 points.

The market opened six to nine points lower on relatively easy cables and after some irregularity prices cased still further under heavy Liverpool, Wail Street, Southern and Western selling. Offerings wore gults well taken and after Liverpool's close pressure became less active and prices ralled some six to seven points from the lowest. The bulge, however, encountered another wave of selling orders and after publication of the weekly weather report indicating satisfactory progress with farm work and planting, the market was unsettled with prices reaching a net lows of 14 to 18 points in inte trading, October contracts broke to 10.68 or about 24 points from Monday's high records, with the close a shade tup from the lowest on covering.

It was estimated around the ring that houses with Liverpool connections had solid 100,000 bales here in the last few days, presumably on straidles.

NEW OBLEANS COTTON.

New ORLEANS COTTON.

New Orleans, I.a., April 21.—Cotton felt selling pressure today from first to last. At no time were prices above the level of yesterday's close. Much of the selling was for short account but offerings from liquidation longs also, at times, were lieberal. Favorable crop and weather reports were the main influence. The market closed at practically the lowest of the day, a loss of 11 to 15 points. At one time in the early page of the session there was a momentary fally which carried prices within a couple of points of yesterday's hast figures, but the favorable weekly reports from the weather bureau caused relieved selling under which the market broke. Holders of long cotton plainly sere nervous over references to a full planting in many sections of the belt.

DULL PERIODS IN STOCK TRADING

Rock Island a Disturbing Factor; United States Steel Was Under Steady Pressure High Record in Bond Trad-

New York. April 21.—The most motable feature of today's trregular stock market consisted of frequent periods of relative dollness, in striking contrast to recent feverish sessions. Transaction, however, again exceeded 1,000,000 shares for the seventh consecutive full session.

On the surface there were signs that what is vaguely known as the substantial interests including a large proportion of the professional element, had renewed operations on the selling side under cover of spasmodic gains in specialties.

Rock Island again was a disturbing factor, declining below its minimum price of the previous session and constituting one of the most active issues in the list. Its heariness found immediate reflection in the Southwestern group of railroads which fell three to six points, presumably on apprehension that those properties might be handicapped in their impending tinancial readjustments.

United States Steel was under steady pressure and relinquished leadership to Amalgamated Copper.

It seems that Costin sold \$2.68 worth of meat at the store of Mr. 8. E. Hines, saying that he was selfing it for his cousin. Luther Costin, but in less than two hours Justier Costin came in the same store wanting to buy some meat. This naturally led the proprietor to ask some questions, then William Tucker, who claims that the meat was stolen from him, came into the scene, identifying the meat as some that had been stolen from him and stated that some one had broken the back end off his house. Some the admitted having sold the meat, but said he sold it in his swa name, the initials of which are some what like those of Luther P. Costin, if he further stated he found the meat with the assistance of his dog in the woods hear Tucker's home.
