### LITERATURE SECTION OF THE WOMAN'S CLUB IN LAST MEETING OF YEAR

resided Over by Mrs. M. Ashby Lambert. Department Hears Three Addresses on European Travel.

Mrs. M. Ashby Lambert, chairman of the Literature Department of the Woman's Club, conducted yesterday afternoon, the last meeting which the department will have this year.

Before the regular program of the afternoon was taken up, there was an election of the officers who will be Mrs. Lambert's assistants next year in her work. These officers were elected as follows: Vice-c. Irman, Mrs. Walter Watson (re-elected) and secretary, Mrs. Lynn Wilder.

These came the regular program, the first speaker being Mrs. J. A. Scott, who gave her hearers some entirely new and unhackneyed information about Scotland. She spoke on the manners and customs of the Scotch and their peculiarities. She referred to the chilly climate of Scotland, where fires are needed all summer, and where it is impossible to raise many summer vegetables. Taking the city, Edenburgh, as her special subject. Mrs. Scott mentioned the attractiveness of the shopping district on Princess street, where, on one side are shops bright with the gay tartans and Scotch Jewelry, and, on the other side the Princess Street gardens. Oddities of travel, like being silowed to ride on the top of street cars for one cent, were amusing, while it was pathetic to hear how, the poor children run after the touring busses and hang around wedding parties begging for pennies. The early morning calls of the dustman, of the milk-maid (who carries, on a hoop about her waist, her pitchers of milk) of the baker, with his hot rolls for breakfast, were well told. The school life of the children and the emphasis placed upon Then came the regular program, the well told. The school life of the chil-dren and the emphasis placed upon neatness and order in these schools made another interesting topic.

The character of the building, the way the cooking is done by open fires, the absence of screens (because there are no flies) the scarcity of ice boxes the absence of screens (Decause there are no flies) the scarcity of ice boxes and refrigerators (because they seldom need ice) were other items of interest. Many other peculiarities were noted by Mrs. Scott, whose talk was thoroughly enjoyed and appreviated by the ladies present.

She was followed by Miss Eliza Pool who talked in her interesting bright way on Switserland and its beauties, on Alpine climbing, on Geneva, home of Jean Jacques Rousseau. Voltaire and Madam de Stael; and many other
