

NO SUCCESSOR TO SUPT. W. L. WIGGS

County Commissioners Accept Resignation and Mr. Miller Will Take Charge.

MORE ABOUT HIGHWAY

Commissioners Have Not Decided Upon Request of Auditor Holding for Clerical Assistance; Auditors at Work on Books of County Have Not Yet Made Report.

That Wake county has the best and most sanitary camps to be found in the State is the claim made for the county by Mr. W. L. Wiggs whose resignation as Road Supervisor was accepted by the County Commissioners yesterday. Road work, all over the county was discussed at the meeting for it was the day set apart as "Road Day." No successor to Mr. Wiggs, it is understood will be selected.

Before the commissioners appeared Mr. Alexander Webb, president of the Raleigh Chamber of Commerce, to urge the County Commissioners to sign up with the national government for road work on the Washington-Atlanta Highway.

Mr. D. H. Winslow, road engineer, has emphasized the fact that unless the people of Raleigh get busy and unless the commissioners sign the agreement with the government in such shape that it will allow the engineer authority to go ahead in the road work, then Raleigh is likely to lose its position on the highway and a shorter cut will be taken from Durham leaving the Capital City in the cold.

The request of Auditor Holding for additional clerical force, presented Monday by attorneys of Mr. Holding, has not been considered fully by the commissioners yet. Every effort is being made to have the affair between the commissioners and the auditor settled without any appreciable disorder.

In submitting his resignation to the commissioners, Mr. Wiggs stated: "In view of the demands made upon me by my business at home, I have decided that I can no longer consistently serve in my present capacity. I regret to be forced to sever my most pleasant relations both official and socially with the Board of Commissioners and the other county officers, but feel that my first duty is at home."

When I first took charge of the road work four years ago, we had forty-four mules and sixty oxen, whereas we now have seventy-eight mules and one hundred and thirty-three oxen. Also, we have added three nice, new steel cars for housing our oxen, two light cars for the road force, and six large tents for men and mules. I believe we can say that we have the best and most sanitary camps to be found in the State, and I believe we can depend upon the Superintendent of Health to bear out this statement.

Since I have been supervisor of roads, I have not had a better set of supervisors under me than at the present time. They are men that the county should be proud of.

As to what has been accomplished, I think it is sufficient to say that it is

NORTH CAROLINA PEOPLE OF STOMACH REMEDY

Sufferers Find Swift Relief by Use of Remarkable Remedy.

Stomach sufferers in the Southeast and, in fact, all over the country have found remarkable and efficient results from the use of Iyer's Wonderful Remedy. Many have taken this remedy and tell today of the benefit they received. Its effects consequently—the first dose convinces. Here is what two Carolina folks have written: W. B. DAVENPORT, Parker, N. C. "For years I have suffered from a disease which puzzles doctors. I heard of your remedy and one bottle gave me relief. Your treatment has about cured me."

J. E. BIRWIN, Winston-Salem, N. C.—"I am satisfied through personal use of the powers of your remedy. You have saved my life. My wife's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments, but as much and whatever you like. No more distress after eating, pressure of gas in the stomach and aching heart. Get one bottle of your drug and now and try it on an absolute guarantee—if not satisfied money will be returned.—Adv.

my opinion the roads of the county are generally speaking—now in better condition than they have ever been before. True, during the excessive wet weather this winter, some of our roads were practically impassable, but the recent dry weather has made them really the best roads we have; and my experience is that roads built as these have been made the most durable ones in the long run. I am also proud of the good bridges we have built. We have built seven large steel bridges, installed six large concrete culverts, which will be serviceable indefinitely. Considerable the present good condition of the roads and our splendid equipment for building new roads and repairing them, it is my judgment that we are in position to prosecute the work with even better results than heretofore. I am glad to say that Mr. Miller is a man whom I think is thoroughly capable of furthering the work which has been begun and I gladly extend to him my best wishes as my successor.

Road Work For April. The report of the road work for April, which the road engineer, yesterday turned over to the commissioners is as follows: "Camp No. 1 is located on the Swetville road at Williams' crossing. It has finished the road from Sifton Banker to Williams' crossing, has worked the road from Fowler to Rapp's Mill by T. B. Crowder's place, and is now on the road leading back to Raleigh near Poplar Springs church. Altogether it has worked about four and one-half miles of road. It has ten mules, one road machine, one horse, and twenty-four men.

"Camp No. 2 is located in Little River township—Wakefield—and has finished the road from Wendell to Zebulon. It has put in five fifteen-inch pipes and three twenty-four inch pipes. It has graveled the road from W. H. Chambliss, Jr.'s to Macason Creek, and the Tarboro road from Millard Chambliss' back to the Fanny High place, one mile; also, it has built a sixty-foot bridge across Moccasin Creek at the Jim Bunn ford. It is now working on the bridge on Little River (Strickland's bridge) near Zebulon.

"Camp No. 3 is located in Little River township near Zebulon. It has rounded up the road from Lena Liles to the Morpas Bridge, and has worked something like twenty-eight miles of road this month. Also, it has put in two bridges. It has six mules, one road machine, one convict and two hired men.

"Camp No. 4 is located near the County Hospital for the Louisiana road, working on the road. This camp has been doing some heavy grading, it has worked something like one-half mile and graveled about one-fourth of a mile. It has twelve mules, one road machine, and twenty-nine men. This camp has had several cases of smallpox during the last month, but I believe they are most of them able to go back to work now.

"Camp No. 5 is located in Little River township near Zebulon. It has rounded up the road from Lena Liles to the Morpas Bridge, and has worked something like twenty-eight miles of road this month. Also, it has put in two bridges. It has six mules, one road machine, one convict and two hired men.

"Camp No. 6 is located at Holly Springs. This camp has finished the road from Nemo by Norris' Mill to near Holly Springs, and also graveled a mile or more on the Holly Springs to Apex road. It has eight mules, one road machine and fifteen convicts.

"Camp No. 7 is located in Barton's Creek township. It has finished up the roads in New Light township, and is now working the roads in Barton's Creek township. It has worked thirty-three miles of road. It has six mules, one road machine, one convict and three hired men.

"Camp No. 8 is a repair force, and is located in New Light township near Furness' place. It has graveled something like three miles of road. It has thirteen convicts and six mules. This Camp No. 9 is a machine force, and is located in Marks Creek township near Shotwell. It has rounded up the roads around Knightdale and Bethlehem, working something like twenty-five miles of road. It has one road machine, six mules, and three hired men.

By the fumigation of incoming vessels in the port of New York it is estimated that \$0,009 rats are killed annually.

SECRETARIES TO ORGANIZE HERE

Officers of Trade Bodies Will Be Guests of Raleigh at Meeting on May 18.

The Commercial Secretaries of North Carolina will meet in Raleigh on May 18 for the purpose of perfecting an organization. Heretofore several efforts have been made on the part of secretaries of Chambers of Commerce or Board of Trade in the State to organize but failure has attended the efforts.

The Secretary of the Raleigh Chamber of Commerce is bent on this organization and has labored ceaselessly to bring it about. Programs for the session to be held here on May 18 are being sent to all the commercial secretaries in the State from the office of the Raleigh Chamber. It reads as follows: 11:30 a. m.—Registration, Chamber of Commerce. 12:00 n.—Automobile Ride over City. 1:00 p. m.—Luncheon, Yarbrough. Address of Welcome—Mr. Alexander Cobb, President Raleigh Chamber of Commerce.

Response—Mr. Roger Derby, President Sand Hill Board of Trade. "How Can We Link" Rural Sections with Cities Julian S. Miller, Greater Charlotte Club. Discussion—"How Can the Manufacturers of North Carolina Increase Their Output?" E. Reaman, Goldsboro Chamber of Commerce.

Discussion—"Our Port and What It Means to North Carolina." H. B. Branch, Wilmington Chamber of Commerce. Discussion—"Commercial Organization Advertising." J. C. Forester, Greensboro Chamber of Commerce. Discussion—"Conventions, Their Cost and Their Value." R. Buckner, Asheville Board of Trade.

Discussion—"The Value of an Official Organ." Open Discussion. Questions. Moore's mill. It has ten mules, one road machine and twenty men.

"Camp No. 3 is in White Oak township near Apex, finishing up the road from Apex to Cary. It has worked and graveled something like one and one-half miles of road. It has twelve mules, one road machine and twenty-nine men. This camp has a little experience with a run-a-way this week. Three of our men made a dash for liberty while at the gravel pit; namely, Junius Green, Jesse Howard and Harvey Day. They did not stop upon being demanded by the guards to do so, and were fired upon, Junius Green being hit in the back, left arm and hip. Finally they made their escape to the woods. With the ready assistance of the people in the neighborhood, the woods was surrounded and all three men captured.

"Camp No. 4 is located near the County Hospital for the Louisiana road, working on the road. This camp has been doing some heavy grading, it has worked something like one-half mile and graveled about one-fourth of a mile. It has twelve mules, one road machine, and twenty-nine men. This camp has had several cases of smallpox during the last month, but I believe they are most of them able to go back to work now.

BROUGHT BACK NATURAL HEALTH

The Facts About an Interesting Case of Serious Female Trouble Benefitted by the Use of Cardui.

Walnut Cove, N. C.—Mrs. E. A. Rothrock of this town, says: "About two years ago I was in very bad health for three or four months. At this time I had a serious female trouble, which lasted severely for nine weeks. I got awfully weak and could scarcely go, and my doctor said I ought to be in bed."

My two sisters, who had used Cardui with good results and who now use it as a tonic recommended it highly to me, saying it is a fine medicine. I felt if I lived I must have something to help me, and as other medicines had failed to relieve me, I thought I would try Cardui, the woman's tonic. At this time I was almost sick and bonny."

I seemed to improve after the use of the second bottle of Cardui. The trouble stopped, I suffered less pain, and began to get back my strength and being sent to all the commercial secretaries in the State from the office of the Raleigh Chamber. It reads as follows: 11:30 a. m.—Registration, Chamber of Commerce. 12:00 n.—Automobile Ride over City. 1:00 p. m.—Luncheon, Yarbrough. Address of Welcome—Mr. Alexander Cobb, President Raleigh Chamber of Commerce.

TO CHARGE JURIES ON CHILD LABOR

Commissioner of Labor Send Letter to Judges of North Carolina.

Judge Frank Daniels, who is holding court in Wake county, has received from the Department of Labor and Printing, a letter with copies of the child labor laws, requesting him to call attention to these laws in charges to juries, and likewise to turn over copies of them to solicitors.

The letter further expressed the opinion that few of the child labor laws are ever enforced, but adds the hope that if the Judges of the State will call attention to the laws and the need of enforcing them in this State then prosecutions under them will be looked for.

It was intimated in the letter that every Judge on the bench in North Carolina has received one of these letters and that likewise every factory has received copies of the laws, indicating that so far as the law allows the authority, the Department of Labor is doing everything in its power to secure the enforcement of the labor laws.

Seven appeals were argued in the Supreme Court yesterday from the Seventeenth Judicial District. Opinions on a number of cases argued last week before the court will be handed down today.

The cases argued yesterday were as follows: H. L. Hallman v. Southern Railway Co., from Catawba, argued by A. A. Whittener, Jr., for the plaintiff, and S. J. Ervin, Jr., for the defendant. Lawrence et al v. B. F. Eller et al, submitted under rule twelve by T. A. Love and J. W. Ragland for the plaintiff and L. D. Love for the defendant. Blue Ridge Interurban Railway Company v. Interurban Co. of Henderson, argued by Smith and Shipman, Tillett & Guthrie for the plaintiff and Slaton & Rector, Charles French, Michael Schenck and J. W. Keenan for the defense.

W. L. Mace, Administrator v. Carolina Mineral Company and Sebe Mitchell, from Mitchell. Argued by

Why use inert highly perfumed talcum or powdered soap stant that makes your face look like glass, when you can get AMMEN'S TOILET POWDER that is beneficial to the skin and makes you look natural? AMMEN'S POWDER is the best for the skin and prevents irritation of the great glands. 25 cents at first class drug stores.

Word also comes that the county commissioners at Northampton county has taken the same step, and appropriated \$400 with which to start a six weeks' campaign.

Edgecombe has also made partial provision for such free treatment of her people and it is expected that additional funds will be forthcoming from various sources in that county shortly.

In these campaigns the counties will provide for the local expenses of the dispensaries which will probably not exceed three to four hundred dollars for a six weeks' campaign. The State Board of Health will furnish the anti-typhoid vaccine, the literature and digget and assist at the various dispensaries. During such a campaign from 5,000 to 10,000 people in each county will in all probability avail themselves of the treatment which will bring the cost per person treated for the county down to from five to ten cents apiece.

The efficiency of the treatment may be judged when it is remembered that in the army the typhoid rate was reduced to about one two-hundredths of what it was before vaccination was employed. Furthermore it is safe, almost painless, causes no open sore and very little discomfort.

The amount of gold taken from the ground in July last in Rhodesia went ahead of all previous records.

ELKAY'S Straw Hat Cleaner

10c Per Package

No need to buy a new straw hat. Buy a box of Elkay's Straw Hat Cleaner and get out your old last summer's straw. You can make a new one of it, as far as looks go.

KING-CROWELL DRUG CO.

The Retail Store.

Charles E. Green, John C. McElree and J. W. Pless for the plaintiff and Black & Wilson, W. C. Newland and S. J. Ervin for the defense. A. L. Shuford v. C. D. Brady, of Catawba, Council and Youns for the plaintiff submitted under rule 12. Calvin Carver v. Carolina Clinchfield and Ohio Ry. of Rutherford, McBrayer & McBrayer and A. Gallant for the plaintiff and Pless & Wilson, J. J. McLaughlin, and F. D. Hamrick, J. A. Rousseau v. Clarence Call of Wilson, argued by Frank D. Hackett for the plaintiff and W. D. Barber for the defense. Petroleum has been installed as fuel in Chile's great nitrate works at a saving of more than 30 per cent of the cost of coal.
