On that day a torped from an Austrian submarine sank his ship in the Mediterrancan off the coas of Spain. But Duffy would not lower the American fing at the order of the

submarine's commander. The captain was not at all dismayed by his experience, and he said that he would take out another vessel just as soon as he could get one. He has made several trips to Archangel during the war, and submarines do not scare him a bit.

"The Chemung went down with her flag flying," said the esptain. "We were out from New York with a general cargo and off the Spanish coast in the Mediterranean when the submarine camalong. GERMANY IS TURNING

Discusses Foreign Affairs With Chairman of Senate Committee On International Relations; Not Believed That He Sought Action From Congress

(By the Associated Press) Washington, Jan. 1 .- President Wilson late today went to the capitol and foreign affairs with Senator Stone chairman of the Fereign Relations Committee. Their talk covered & wide range, but it is understood that much of the time was devoted to the situation growing out of the unfavorable entente reply to the peace proposals of the central powers, which the President had been studying during the day. Aside from transmitting the entente ote to Germany and her allies, the United States will take no further formal-netion in the peace movement at least until the entente governments have replied to the communication of Presideut Wilson addressed to them. If the

note to the Teutonic nations had been forwarded tonight the State Department did not disclose the fact, although it had been officially stated that it would be dispatched as soon as checking for

errors in cable transmission could be completed. Hope For Peace Not Increased. Cable reports from Paris announcing that the entente answer to President Wilson had been prepared and work be the same in effect as that to the belligerents did not increase hope here for a favorable outcome of the negotia-tions. It is known that the German emhassy believes that unless the note to President Wilson opens the door for a urther advance by its government, the war will go on another year at least.

So far as could be learned the President, during his visit today to Senator Stone, sought no action from congress relating to the peace movement. After-wards, however, it was learned that administration leaders in the Senate were preparing to sound sentiment on reso-

effort upon which the entire manhood force of the nation which can be spared spent an hour discussing the country's from the front and their regular of cupations is being concentrated under First Quartermaster Von Ludendorf's universal labor service law.

Counting four months before the probable renewal of the world war in full vigor on all fronts, these figures mean a new immense supply of cannon of all calibres from field guns up to the gigantic howitzers, to meet the ad-mittedly gigantic effort which the en-tents allies are expected to make in this the third year of Kitchener's prophecy to turn the scale of the war.

Along with these guns the German factories are turning out correspondingly stupendous quantities of ame ion, and the production of machine guns, each of which virtually repla a platoon of men, has been placed or scale far beyond that of the past yo The campaign of 1917 will, it is ready evident, be fought as a wide tension and development of the Som

battle, with even a heavier concen tion of artillery over a far wider front and with lines literally bristing with machine guns. Confidence that the static opponents will be unable to freek through this wall of steel and fire is not only expressed by the higher com-manders, but also is manifested right down into the ranks of the common copie.

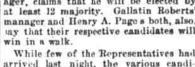

To produce great masses of war mate rial thousands of skilled men have been brought and are being brought back from the front and placed in the Krupp and other munition factories. Dietary experts declare, however, that the present ration is entirely adequate to support life and maintain working vigor, except in the case of those oc-cupied in heavy work, for whom special provision is now being made under the appeal of Field Marshal Von Hindenburg, chief of the general staff, to the rural population for contributions. It is maintained that while life within the blockade may possibly become in-creasingly unpleasant, the military ef-ficiency of Germany will not be diminished. In foreign affairs the New Year, of course, dawns under a sign of peace overtures. The entente's official reply WIK thereto has not yet been received, but little expectation is entertained here that it will be favorable or that, even assisted by the United States and other neutrals, the peace movement will for the present have tangible results.
