A LIFETIME OF JOY.

A lifetime of joy, dear,—it's always comin' long; You know it by the music that is ringing from his song; hear it in the valleys, you hear it

on the hills,— 'round you thrills!

Keep the joy-bells ringing when it seems the time of sighs, and you'll see the bright lights shining rom the windows of the skies! Joy to meet and greet you where the

sweetest roses throng,up for song!

HOME REMEDY For All Pain A. K. Tablets Obtainable At All Drug NEW HOSPITAL FOR COLORED PEOPLE

Movement Started in Durham for The Erection of a \$50,-000 Institution

> News and Observer Bureau, First National Bank Building.

Durham, Feb. 16,-Plans were inaugurated here this afternoon for erect ing a \$50,000 hospital for the solored of the State. The hospital will probably be the most pretentious of the sort in the South for negroes. The man-sion and estate of the late A. H. Stokes, brother-in-law of Benjamin N. Duke, were purchased yesterday and the Dur-ham Loan and Trust Company made trutees for the leading colored citizens of the city. The purchase price was \$8,500 for the site of four acres. The ocation is just outside of the corporate limits and to the south of the city. Dr. A. M. Moore, John Merrick, C. Spaulding, Prof. W. G. Pearson, J.

M. Avery and other wealthy colored citizens of Durham are identified with the undertaking. The statement of the opes and plans as outlined by a leadng capitalist of Durham a.e described n the following write-up:

"The transfer yestehray of the Stokes mansion and grounds to the Durham Loan and Trust Co., trustees for certain leading colored citizens, marks the beginning of a movement for the estab lishment at Durham of the greatest 34 to 11.
hospital for colored people in the South, Ref and possibly in the entire country. The stokes property consists of .. complete square of land, comprising four acres, thickly set with beautiful oaks, well sodded with grass and laid out in beau-tiful drices. The large, spacious residence and attractive grounds were the pride and glory of the late A. H. Stokes, one of the builders of Durham.

"The present Lincoln Hospital was built sixteen years ago, through the generous donations of Messrs. J. B. and B. N. Duke. At the time of its creetion it was a great step for the adeanvement of the colored people of the city and county of Durham and, during its sixteen years of usefulness it has done wonders to alleviate the burdens ment. of sickness of the colored people. Owing to the great increase in the population of Durham and the increased use of the hospital by the colored people the accommodations at the Lincoln Hospital have become entirely inadequate Today it is crowded to the limit, and sick people are suffering unnecessarily. For several years its board of trustees has been considering the enlargement of its buildings in order to meet the constantly increasing requirements of the colored people. On account of the erowded condition of the buildings around the hospital and the poor means of transportation to the hospital it was quickly realized that a new and larger site must be secured.

"The new hospital for the colored peo ple, on a proper site, is one of the great pressing needs of Durham, and it is believed that our large-minded people, both white and colored, will face the situation bravely and raise sufficient funds for making the great new hos-pital a reality. Already a number of our liberal minded people have gladly expressed their desire to contribute to the fund. A subscription for \$1,000 from one of our public-spirited citizens has already been secured for the new hospital, and assurances have come from many other sources that other large subscriptions will come in quickly as steps can be taken to or

ganize a campaign to raise funds. "The greater Lincoln Hospital idea strikes close to the hearts of the peo-Mrs. E. C. Hilyer won the first prize, ple of Durham, both white and colored, and in the near future we can look for ward to the realization of our hopes in this direction. The great new Lincoln Hospital will do for the colored people of Durham county and vicinity what the great Watts Hospital is doing for the white people.

handed down from Mt. Sinai, "Thoushalt not steal." "In this day we cannot steal from Madison to help the rotten Democracy of Buncombe," he

It was not a political question, but an economic one," said Senator Me-Nider, who argued along this line and favored the bill.

Senator Justice, as a member from the Tenth District; resented the aspersions that had been east of the Democrats of Buncombe who, he declared, were the salt of the earth. He saw no reason for the change and he believed that it would bankrupt Madison county. Senator Jones concluded the debate

and urged the passage of the hill and declared that these Democrats that wanted to get out of the Republican county of Madison should be allowed to do so. Referring to the scriptural quotation, he declared it had heard that even the devil could quote scripture.

Critics of Newspapers Unable to Specify Those They Think Influenced

SOME ARE INCREDULOUS

Ouite a Few, However, Believe That a Cabal of Newspapers Are Trying To Hurry This Country Into War With Germany; Senator Stone One of Those So Holding

News and Observer Bureau, any meal with milk orcream, 406 District National Bank Building. By H. E. C. BRYANT. (Special Leased Wire.)

Washington, Feb. 16.—Representatives Moore and Calloway, who have charged on the floor of the House that newspapers of America are subsidized to promote the war spirit in this country, refused today to give the names of any papers or representatives of papers said to be controlled or influenced to color eports from the war zone in Europe. Mr. Moore said that he repeated what

Mr. Calloway inserted in the Record under leave to print, and thinks it is up to the Democratic leaders to thorize an investigation so that the facts can be brought out.

"I want the Democrats to inquire into the serious allegation made by Mr. Cal-loway, one of their number," said Mr. Moore. "An investigation should begin on that side of the House, I do not blame The World for wanting the truth -the names of the papers. I am an old newspaper man and know that this charge should be cleared up."

Mr. Calloway refused to name a single one of the 25 newspapers that he said were influenced to color news about the war in Europe and to promote the war spirit in the United States. He said that his informant cannot be named until he has the protection of a com mittee of Congress. He said he would furnish the name of the man who told him to an investigating committee but not to any newspaper.

The story that Mr. Calloway dignified by embodying it in his remarks in the Congressional Record has been floating about Washington for a year or longer. Little navy advocates of Congress have told it in committee rooms and cloak rooms. All efforts to get the names of the papers said to be guilty of selling out have failed. The story is not be lieved by many Congressmen.

Majority Leader Kitchin just before he became leader, said that he would not yield to the munitions factories or ship-building plants and the war-mad press, and vote for a large navy program. He said privately that many of the papers advocating expensive preparedness measures were evidently dominated by the munitions interests.

Other Congressmen have had like stories. Mr. Calloway was the first to make anything like specific charges. He said he would ask for an investigation but he goes out March 4, and could not follow it up. Representative Tavenner, of Illinois,

admitted today that he had been asked to introduce a resolution calling for investigation of the papers. "It was suggested to me by some one," said Mr. Tavenner, "that I should include in my resolution to investigate munitions makers, appropriation for

the investigation of charges to that effect that 25 newspapers have been deliberately bought-that their editorial spinion had been bought and paid for by munitions makers. However, my experience as a newspaper man on various large city newspapers makes me neredulous. I do not intend to offer such a resolution unless some more definite information is produced. I cannot believe that such a thing has taken

Senator Stone joined the critics of the press today. During the discussion of the "spy" bills in the Senate today he said he wanted Congress to take measures to prevent the press from making false statements intended to nfluence the American government in he present crisis.

"A cabal of great newspapers," he as erted, "is trying to force the United States into war with one of the belligerents. I believe that a man who makes false statement in the press for the sake of unduly influencing the conduct of the government, is a public enemy."

Congressmen made the following

Altho ugh, of tourse, I have no proof of this being done as a result of a subsidy by foreign interests. I think it is indisputable that the newspapers are carrying headlines which are calculated to inflame the people, and which are not justified by the news itself. As proof, I would analyze almost any copy of a metropolitan paper, which would show that the news is being colored."

Meyer London, New York: charges that the press of the nation has been bought by foreign gold and lucre is a bad symptom of national hysteria. I don't believe that it is true. One can explain the pro-ally tone of the American newspapers by the ties of race, literatures and institutions that bind us to England, and in a less degree to France. What I do object to in the newspapers is the attitude assumed by editors of dictating to members of Congress what they shall say and do. But this is not a question of venality."

Representative Doughton: "It is the general impression that newspapers are coloring the news which they print. I think this is indisputable. I have no evidence, however, of any conspiracy on the part of war munition interests to buy the press in order to carry on a propaganda to involve the country in
