FORMER KAISER TO BE BROUGHT TO TRIAL

Paris, March 30.—(4 a. m.)—(By The Associated Press.)—The commission on responsibility for the war has decided: First—Solemnly to condemn the violation of neutrality and all the crimes committed by the Central Empires. Second—The appointment of an international tribunal to judge all those responsible, including the former German Kaiser.

London, March 29.—The allies have demanded the resignation of the Hungarian Soviet government, according to dispatches to the Exchange Telegraph Company by way of Berlin and Copenhagen. They demand the election of a national assembly under the supervision of allied troops.

Paris, March 29.—(By The Associated Press.)—The American commission received indirectly tonight a dispatch from Budapest reporting serious disorders there, with the looting of shops, the confiscation of personal property and the seizure of much silver plate belonging to the wealthier classes.

Paris, March 29.—(Havas.)—The Temps says today that military measures which it is reported will be taken to counteract the danger arising from the establishment of a Soviet government at Budapest are still under discussion by the allied governments.

MONROE DOCTRINE AMENDMENT IN HANDS OF COUNCIL OF FOUR

Paris, March 29.—(By The Associated Press.)—The American Monroe doctrine amendment to the covenant of the league of nations has been submitted to the council of four for final determination as to the course to be adopted concerning it.

SATURDAY'S MEETING OF COUNCIL OF FOUR

Paris, March 29.—(By The Associated Press.)—After most of the day in conference with the three premiers, President Wilson late this afternoon spent some time in a discussion with Thomas Lamont and Norman Davis, members of the supreme economic council and the financial advisers of the American delegation, discussing reparations. Several formulas are under consideration and such progress has been made as to justify the expectation that this subject will be finally disposed of Tuesday or Wednesday of the coming week. The council of four has also given fresh consideration to the question of the Sarre Valley, and it is believed that the council has virtually settled upon a plan to permit to retain political sovereignty while France would be given economic control of the mineral resources in that section for a limited time, supposedly based upon a time allowance for the settlement of indemnity.

COUNCIL OF FOUR GIVE L. ARNHOLD FOCH INSTRUCTIONS REGARDING LANDING TROOPS AT FORT DANZIG.

(By The Associated Press.) Paris, March 29.—President Wilson and the premiers, constituting the council of four, gave Marshal Foch instructions today regarding the situation at Danzig, where the Germans have refused to permit the landing of Polish troops. "The nature of the instructions will probably not be revealed until they are made known in Germany. "Since the conclusion of the armistice the entire situation in Posen, West Prussia, and Danzig has entirely changed." Offering the ports of Stettin, Koenigsberg, Memel, or Libau, the German government says that "all necessary facilities for the speediest possible landing and transit of General Halber's army to Poland will be provided." "From the standpoint of railroad facilities," the reply adds, "the routes from these cities lead more speedily to the goal without entailing interruption of shipments of foodstuffs to Poland." According to the Berlin Telegraph all parties in the Weimar National Assembly, including the independent socialists, approved the government's reply to the entente note. The German newspapers generally support the government's position. The socialist Vorwaerts, for instance, says that "the German government has recently sent to the entente powers that it is not only inhuman but foolish to treat defeated opponents as slaves upon whom any humiliation can be imposed." The Berlin Tages Zeitung says the spirit of the note shows the desire of the entente absolutely to crush Germany, while the Telegraph likens the demand for the methods with which every arrogant mailed fist policy inaugurates the realization of its predatory plans.

OPponents LEAGUE IN BAD COMPANY

Manchester Guardian Points Out That Bolsheviks Oppose All Nations

London, March 29.—Commenting upon the opposition to the league of nations, the Manchester Guardian says it is perhaps not realized by opponents of the scheme that the most formidable opposition to it, the fundamental opposition of principle, comes precisely from the quarter and the party to which they themselves are most irreconcilably opposed. "A league of nations," the Guardian continues, "based on national fellowship and co-operation may appear to them an unattainable ideal, which therefore is to be derided and attacked as standing in the way of the more practical arrangements of frankly self-gratifying nationalism resting on force." In Bad Company. "But the extremists of the other camp object to the league not because it allows too little to the conception of national interest or rights, but because it recognizes the nation at all. To the Bolshevik the nation is nothing. He has no interest in it or regard for it. He would abolish national boundaries altogether and find his millennium not in the co-operation of nations, but in the destruction of nationality; not in the prevention of war, but in making class war; not in the freedom of separate peoples, but in their subjection to a particular social order. "That is perhaps the logical alternative to a league of nations such as is now our purpose to establish. But it is a disastrous alternative. Let us see that the true ideals suffer nothing throughout default."

NEW GODDARD ROCKET POWERFUL ENGINE OF WAR

Developed in Special Laboratory But Armistice Stopped Its Use in War Worcester, Mass., March 29.—Dr. Robert H. Goddard, professor of physics at Clark College, setting under the patronage of the United States War Department, the Smithsonian Institute, Clark University and Worcester Polytechnic Institute, has invented a new rocket that is reported to be a terrible engine of war, with an altitude range of 70 miles straight up into the air and a distance range of at least 200 miles. The rocket has been developed in a special laboratory at Worcester Tech, and the signing of the armistice prevented its being put to actual use in warfare against the Germans. The Goddard rocket is propelled by a perfected gas engine installed in the lower part of the shell, the explosions that generate the power coming from cartridges that are fed into the chamber by a clock-like time device. The rocket does not require a cannon to start it on its flight, the journey beginning from any point where a man can get. The feature of the rocket is in the head where a chamber is filled to contain either high explosives or gas.

Transport Scranton Disabled.

Washington, March 29.—Radio dispatches to the Navy Department today said the army transport Scranton, eastbound without troops on board, was disabled about 900 miles east of New York as the result of damage to her rudder. The steamer El Sol was reported as standing by.

RADICAL DEPARTURE FROM PRE-WAR ESTABLISHMENT

"One Army" Organization Absorbs Regulars, National Guard, National Army

(By The Associated Press.) Washington, March 29.—Orders made public today by General March, chief of staff, provide for the organization of the regular army at a peace strength of 509,000 officers and men under plans that are a radical departure from the pre-war establishment. The effect is to carry into the peace time establishment the "one army" organization which absorbed regulars, national guard and national army during the war into the army of the United States. This is accomplished by perpetuating in the permanent establishment the numerical designations, names, special insignia, war histories and traditions and where possible, the commissioned personnel of the divisions, regiments and other units which have particularly brilliant war records. This project is furthered by assigning to each of the fourteen regular divisions to be organized, the number and approximately the same home areas as one of the war divisions. The new division, in each case, will be recruited exclusively from that area, which is an adaptation of the system long employed in continental armies. 42d Becomes Cavalry Division. A feature of the plan is the assignment of the forty-second division, which will succeed the famous Rainbow division of war time, to become the cavalry division of the new army. It will be recruited from all parts of the country as will be the seven regular divisions retained and which are now part of the army of occupation. Each of the seven regular divisions now in France also is assigned to a home camp as a permanent base and will be sent to that camp when withdrawn from Europe. Pending further legislation, the plans being followed call for the organization of one held artillery of five corps. The first and second corps are now composed of the first to seventh divisions, now overseas, and the others will be formed at home when the new divisions have been organized. The peace strength basis of an infantry division to which these units will be recruited is 16,853 officers and men. The forty-second, the cavalry division, will have a peace strength of 15,978. War-Time Officers as Commanders. One project still under discussion in connection with the localization of the divisions is that of offering to officers of the war-time divisions commissions in the new regular units. This would enable the War Department to take into the regular service some general officers of national guard origin, it is understood, to command substantially the same units they commanded in France. New Designations of Army. The following list shows the new

PROHIBITION GUN MEN ARE IN DANGER

Richmond, Va., March 29.—Fearful for the safety of the four prohibition agents charged with the murder of two alleged bootleggers on the Valley turnpike, Commonwealth Attorney C. E. Williams, of Shenandoah county has written Chief of Police Sherry, of Richmond, to arrest the men and hold them until such time as he could prove their innocence. The letter expresses fear that the men will need extraordinary protection when they are returned to Winchester for preliminary hearing which is now being arranged for. Harry F. Sweet, former Richmond policeman, C. W. Hall, J. H. Sullivan, and W. H. Danlavy are the men charged with shooting Raymond Shackelford, aged 35, and Lawrence Hudson, aged 15, both of Petersburg. Shackelford died immediately after being shot while Hudson died in a Winchester hospital Friday afternoon.

ELKS MEETING IN NEW ORLEANS CLOSSES

New Orleans, March 29.—With the initiation in the French opera house tonight of 2,200 candidates the second day of "Three Big Days in Elksdom," held under the auspices of New Orleans lodge No. 30, Benevolent and Protective Order of Elks came to an end. The celebration is in honor of the local lodge attaining, as the result of the recent national membership campaign, leadership of all lodges in the United States. The new home of the local lodge will be dedicated tomorrow, bringing the celebration to a close. Members of the order from practically every State in the union are in attendance.

Increased Wages of Employees Made It Necessary, P.-M. General Says

TEXT OF POSTMASTER GEN. BURLESON'S ORDER

Schedule For Domestic Commercial and Other Rates Effective April First

Washington, March 29.—Increase of 20 per cent in domestic telegraph rates, effective April 1, were announced today by Postmaster General Burleson. The increase was agreed upon at a meeting of the Federal Wire Board and was made necessary, Mr. Burleson's announcement said, to meet "the increased cost of operation, occasioned by wage increases now in effect, made during the past year." Mr. Burleson added that the advance would be "barely sufficient" for this purpose. The order affects both government and commercial messages, but it was announced that there would be no increase in special press rates for newspapers or in charges for special wires leased by press associations and newspapers. Under the order, however, commercial and government leased wires will be charged for at an advance of 20 per cent over existing rates, whether such wires be furnished by a telegraph or a telephone system under government control. Text of Burleson's Order. Mr. Burleson's order follows: "The following schedule for domestic commercial telegraph rates shall be effective from April 1, 1919, and continue until otherwise ordered.
