

TROOPS ADVANCE ON PRUSSIAN CAPITAL

Plunder and Shooting Accompany Strike By Socialists at Magdeburg

Copenhagen, April 8.—(By The Associated Press.)—Plundering and shooting, attendant upon the general strike proclaimed by the independent and majority socialists among the workmen at Magdeburg, capital of Prussian Saxony, are reported in despatches from that city.

The warehouses containing the food reserves for the coming week were stormed and partly destroyed and the reserves looted, the damages exceeding 400,000 marks.

The police station also was stormed with the intention of releasing the prisoners in it, but the rioters were repulsed. Many persons were wounded.

Government troops are advancing on the town and conflicts are anticipated. Large portions of the garrison have joined the insurgents and it is reported that a quantity of arms has been distributed to the workmen and former soldiers.

The general strike was declared over the heads of the men's leaders. Eight thousand workmen attended a meeting this morning in the Dom-Platz and resolved that the strike should continue until the release of former Deputy Brandes, who was arrested yesterday.

PULL TOGETHER FOR BETTER BUSINESS

(Continued from Page One.)

Chile come to a real understanding and each realizes the good one can do the other, "then will come the closer business relationship, and a solid bond of friendship," Senator Eliodoro Yanez, former minister of foreign relations and member of the Hague court of arbitration, said today to an audience of men prominent in commercial affairs of New Orleans. Mr. Yanez spoke at luncheon tendered the Chilean financial embassy of which he is chairman.

Other member of the embassy touring the United States in an effort to promote closer commercial relationship between the two republics are Juan Enrique Tocornal, former minister of foreign affairs, and Augusto Villanueva, Chilean banker.

Mr. Yanez, who also is editor of La Nacion, of Santiago, declared the recently inaugurated South American service of the Associated Press filled a long-felt want in South American newspaper offices and gave the members of the Associated Press an opportunity to serve their readers with intelligently edited, authentic dispatches concerning happenings throughout the world. "Many people of the United States," he said, "do not realize what splendid papers we have in South America. The Associated Press has made them more valuable."

The visitors today were taken on a sight-seeing trip of the harbor.

"The Chilean exporters must see the harbor, then they will realize how important it is to serve the Mississippi Valley, through the port of New Orleans," Senator Yanez stated.

Because of the receipt of invitations from nearly 20 cities in the Mississippi Valley several conferences were necessary before an itinerary could be arranged, which included Birmingham, Chattanooga and Atlanta.

Senator Yanez, with the women members of the party, will leave here tomorrow for Washington.

FONTAIN TO START FLIGHT ACROSS THE ATLANTIC

Goes To Cape Verde Islands Whence He Expects To Begin Trip Across

(By The Associated Press.)

Versailles, April 8.—Lieutenant Jean Pierre Fontain started on a flight today to Casablanca, Morocco, from which town he will proceed to Dakar, in the French colony of Senegal, and thence to the Cape Verde Islands, with the intention of attempting a flight across the Atlantic from the islands. He is accompanied by Mechanician Philibert Cahouet.

A dispatch from London under date of March 18 said that according to reports from Paris Lieut. Fontain left Villacoublay for Dakar on March 16, but was compelled to land southeast of Blois because of a cracked cylinder. He planned a flight from Dakar to Pernambuco, Brazil. The distance from the Cape Verde Islands to Pernambuco is 1,616 miles.

Facts That Prove That a Decreased Production of Cotton is Desirable at All Times and Particularly This Season---

- ☐ The average production of cotton for the world is approximately 22,000,000 bales. Of this the United States produces two-thirds. Relatively the Southern cotton planter is most affected by the supply of cotton in the markets of the world.
- ☐ The 1918 crop of cotton in the United States was approximately 11,700,000 bales. The United States consumes 6,600,000 bales, leaving a surplus of 5,100,000 bales for export.
- ☐ Other cotton countries report a surplus of 3,180,000 bales, so that at present there is a world surplus of about 8,280,000 bales of cotton.
- ☐ Total exports from the United States for 1918 crop, up to the present time, are approximately 2,000,000 bales, and even if exports should increase rapidly, which is not indicated at the present time, there will still be more than 3,000,000 bales to carry over to the 1919 crop. With a large acreage during the coming season the world will be swamped under an excessive oversupply of cotton.
- ☐ Thirty-seven million acres were planted in cotton in the United States in 1918 and a poor season cut the crop fully 2,000,000 bales. Two-thirds of last year's acreage planted to cotton, with a favorable season, and properly cultivated, will approximate last year's crop. The same acreage will probably bring the South a crop that will mean distress and bankruptcy. That a small crop brings more net money than a large one is shown in the following table:

Year	Value of Cotton Crop, lint, only	Acreage	Bales	Average yield lint, per acre	Average farm price cents
1910	820,407,000	Average {	13,033,235	181.1	12.2
1911	687,888,000				
1912	817,055,000				
1913	862,708,000				
1914	549,036,000				
1915	631,460,000				
1916	1,122,295,000				
1917	1,566,198,000				
1918	37,000,000				

A Small Crop Insures Big Money

10 Bales at 10 Cents a Pound Will Bring \$500.00
5 Bales at 30 Cents a Pound Will Bring \$750.00

Now it is up to the FARMER, the BANKER, the MERCHANT whether the South will produce a cotton crop that will swamp the markets of the world and leave us all borrowing and buying feed and foodstuffs or by reducing cotton acreage, at least one-third, give us a cotton crop that will sell and food and feedstuffs that will sustain and prosper us at home. **COTTON IS ADVANCING NOW—DON'T BE A "SUCKER" AND SWALLOW THE "BAIT."**
