### REBUILDING WORLD THE SUPREME TASK

#### Secretary Glass Appeals To Country in Behalf of a Patriotism of Peace

Cincinnati, Ohio, April 21.—Secretary of the Treasury Carter Glass addressed the first public meeting of the present Victory Loan drive at Music Hall here tonight, telling of its purposes and needs. He was given a tremendous welcome, the hall being filled to overflowing.

Mr. Glass urged individual subscriptions and stated that it was the surest means in the world of "shooting to death the spirit of Bolshevism" and of impressing upon the people the supreme importance of good order in government.

**Secretary Had Busy Day.**  
The secretary arrived here early in the day and was continuously busy in connection with the loan drive. The Cincinnati committee having in charge the local campaign, as if inspired by his presence, speeded up its work, and had the pleasure of reporting to Mr. Glass personally that subscriptions totalling \$10,656,530, or over one-third of Cincinnati and Hamilton county's quota, had been pledged before noon. In his Music Hall address Mr. Glass said:

"A world is to be rebuilt. Should we timidly refuse it? Not for an hour, gentlemen. The enterprise should be started right away, here in Cincinnati, by the blast of your furnaces and the whirl of your mills and the din of a thousand essential industries. It should read, in healthy progression, to the uttermost parts of the land.

**Must Meet Obligations.**  
"The American people should supplement the patriotism of war by the patriotism of peace, and just as American soldiers on the fields of battle made notable conquests for liberty, so American business men in a different way and through different instrumentalities, should now give expression to their patriotism by promptly and cheerfully meeting the obligations of citizenship which exigently involve triumphs of peace easily comparable, in their ultimate consequences, to the greatest victories of war."

that the allies would be able to give the Germans more than a summary of their peace conditions at the first meeting at Versailles owing to the length of the document.

Talk of the German government sending merely "messengers" to Versailles to receive the peace treaty is discounted by official information received by Marshal Foch that the German delegation will consist of six high personages, headed by Count von Brockdorff-Rantzau, the foreign minister.

**New Treaty Provision.**  
A new provision of the peace treaty, intending to make impossible any attempts of the Germans to utilize outside forces to re-establish their military machine has been approved by the council of foreign ministers. This is prohibition of the sending by Germany of military instructors to foreign countries.

President Wilson conferred at length Monday with Baron Makino and Viscount Chinda of the Japanese peace delegation.

The general strike in Berlin has ended.

**Wants Organization Ordered Home.**  
To the Editor:—The 534th Engineers is a colored organization, officers and non-commissioned officers white. The officers and non-commissioned officers of this organization are men of professions, and trades; such as road builders, electrical engineers, automobile mechanics, construction engineers, concrete workers and bankers. Ninety-five per cent of the white men of this organization are from the State of North Carolina and ninety per cent of the colored troops of this organization are farm labor and are from the states of North Carolina and South Carolina and it is up to the State Highway Commission, contractors and farmers to urge upon the War Department the necessity of having this organization sent home immediately.

there to start work and to relieve the unemployment which is said to be at the bottom of much of the disorder in Germany. The council, it is said also will review regulations for German exports required to pay for food imports and probably will discuss the new economic situation created by the slackening of the blockade regulation as applied to Germany's neutral neighbors.

Shipments may be made freely after April 23 from the United States and associated countries when consigned to neutral control organizations such as the Netherlands overseas trust and the Swiss society of surveillance without the necessity of cabling applications back and forth across the Atlantic.

#### ITALIAN CRISIS OBSCURED BY INCIDENT WITH GERMANY.

Paris, April 21.—The Italian crisis in the negotiations with the Peace Conference was obscured for the moment by the incident over the German delegation to Versailles in which the Germans announced that they were sending delegates without plenipotentiary powers and the Council of Four promptly replied requiring delegates with full powers to sign the peace treaty. This incident was variously interpreted, the French and British view being that it was another effort to delay the settlement and to pave the way for a refusal to sign the treaty. The view taken by the American delegation of the incident however was less serious, it being believed that the Germans would promptly accede to the allied request and send the proper plenipotentiaries.

"They will do about anything we want them to do," said one of the American delegates today. "And if we want plenipotentiaries they will send them."

There was little doubt that the allied military and naval authorities had taken measures to meet the possible emergency of a failure to sign the treaty though it was said these measures were purely precautionary and without any expectation that there would be occasion to put them in operation.

#### SECRETARY LANE GUEST AT LYNCHBURG MEETING.

### CAROLINA WINS IN 15 INNING CONTEST

#### Presbyterians Put Up Stiff Fight For Honors in Baseball in Twin City

Winston-Salem, April 21.—Over two thousand witnessed a somewhat weird ball game here this afternoon between Carolina and Davidson College baseball teams, the contest running fifteen innings before the University boys were able to nose out a victory, the score being 4 to 3.

Both teams committed many sins of omission and commission, the Carolina errors count being overstocked, however. There were some beautiful plays during the long drawn out contest and both teams had numerous opportunities to win and the struggle in the first frame.

The outstanding features of weakness of the Presbyterians was in not having the batter with the proper punch with men on bases. On numerous occasions, with men on second and third, with only one man down, Davidson was unable to hit when hits would count for runs. Davidson was the first to get in the run column, their one tally resulting from a pass and a single to center which went for a three bagger when the fielder permitted the ball to get away from him in the second round. Carolina tied up the score with a home run drive over the left field fence by Robinson. He scored two more in the fourth on a single and three errors.

It was in the eighth go round that the Carolina infield went to pieces and permitted Davidson to score twice, without anything that resembled a hit. In the fifteenth frame a single by Joyner and a two bagger by Younts brought in the tally that proved the winner. Two errors and a walk allowed two Davidson men to perch on second and third with only one man down in her half of the first frame. The pitching by Clark for Davidson who went the entire route and the twisting of Joyner for Carolina were the outstanding features of the contest. The box score which follows tells its own story.

#### Women Find Clear Skin In Simple Laxative

A sense of false modesty often prevents women from admitting that many of their ills and disorders are due primarily to constipation.

But women who know themselves have learned that headache remedies and beautifiers only cover the trouble but do not dispel it.

What is needed is a remedy to move the bowels and stir up the torpid liver. An ever-increasing number of sensible women take a small dose of a combination of simple laxative herbs with peppin known as Dr. Caldwell's Syrup Pepsin and sold by druggists under that name.

It will cure a woman from the habitual use of headache remedies, skin lotions and similar makeups. Once the bowels are emptied and regulated, the headache and the pimples and blotches disappear. It is the rational, natural method.

A bottle of Syrup Pepsin lasts a family a long time, and all will find use for it from time to time. Thoughtful people are never without it in the house.

The druggist will refund your money if it fails to do as promised.

PRICE AS ALWAYS  
In spite of greatly increased laboratory costs due to the War, we have lowered the price of our Syrup Pepsin to 25¢ per bottle. The 5¢ bottle is still the same. It is the same Dr. Caldwell's Syrup Pepsin that has cured so many cases of "Bile," "Cure of Bile," "Cure of Bile," "Cure of Bile."

#### Germans To Send Six Ministers To Peace Conference

(Continued from Page One.)

may seek to begin with, without awaiting the action of the government at Weimar. The text of the treaty and difficult points as they arise would in the meantime be communicated to Weimar.

There is little expectation in competent conference circles that it will be possible to finish the discussions with the German delegates and have the treaty signed within a week from the date fixed for the first meeting. Indeed, the completion of the negotiations within such period was declared to be a physical impossibility.

**Similar Situation Before.**  
It may be recalled that the convocation of the Portsmouth Peace Conference was somewhat delayed by a similar point regarding the competence of the credentials of the Russian delegates. Russian officials stated after President Roosevelt's invitation to the conference had been accepted by the Emperor that delegates were being sent merely to learn on what basis Japan was prepared to enter into discussions and that a decision whether the nego-

tiations would be continued on such a basis would be taken at St. Petersburg and not by the Russian representatives at Portsmouth.

Japan immediately announced that she would not send plenipotentiaries except to meet with fully accredited plenipotentiaries authorities to negotiate peace, and after a second interview by the American Ambassador Georg. Von L. Meyer, with the Russian Emperor it was reluctantly declared that the plenipotentiaries would be plenipotentiaries.

A press representative, however, advised that a plenipotentiary was a representative fully empowered to do as he was told.

#### COUNCIL OF MINISTERS APPROVES NEW PROVISION.

Paris, April 21.—The council of foreign ministers today approved the proposed provision of the peace treaty intended to forestall any effort the Germans might make to re-establish a military machine by utilizing outside forces. The article prohibits the sending of German military instructors to foreign countries. It was referred to the drafting committee.

It was realized that, however, complete might be the restrictions upon Germany by the limitation of her forces and armament she still had in her power considerable forces that might be indirectly employed as already indicated by the despatch of German officers to Russia. It was pointed out that unless this practice was checked it would be possible for Germany to create a practicable force in Russia.

This menace has become particularly significant in view of reports of an alliance between Germany and Russia.

The ministers also approved two recommendations of the Supreme Economic Council. The first recommended that the Germans be requested to send as soon as possible to France technical experts on food, shipping raw materials, trade and communications with full powers to negotiate and expedite economic relations between Germany and the allied and associated powers.

The second recommended that an inter-allied commission be appointed to co-ordinate the administration of the economic, industrial and food questions in the occupied regions in order to bring these civilian functions under a single head and at the same time afford a channel of communication for the military authorities.
