PRESIDENT CHICAGO NATIONALS PLACED ON GUARD DUTY

Chicago, Aug. 4.—William Veech, president of the Chicago Nationals, today is doing guard duty in the riot zone of Chicago. Mr. Veech, who is a member of Company G, Second regiment I. R. M., of Hinsdale, a Chicago suburb, was notified to join his company last night, which was sent to the South Side to relieve one of the companies which has been on duty for several days.

"Talk is cheap," quoted the Wise Guy. "Thank God something is," replied the Simple Man, fervently.

CHARGE AGAINST JOHNSON BY MAYS

Bitter Ball Fight Developing Over Suspension and Fining of Player

New York, Aug. 4.—One of the bitterest internal fights in major league baseball has experienced its latest development today in the case of Carl Mays, New York American pitcher who was indefinitely suspended by President Ban Johnson of the American League for refusal to pay a fine. The Yankee club official not only took steps today to begin injunction proceedings against the league president to restrain him from preventing New York using the player, but also issued a statement in which it directly charged that Johnson is interested in the Cleveland club.

The statement issued by Lieutenant Colonel T. L. Houston, treasurer and half owner of the Yankees, follows: "The trouble is fundamental. We believe that the president of the American League is interested in the Cleveland club. We are not going to attempt to prove this but that is our belief, and we believe it is the conviction of every club owner in the American League. Until this carbuncle is removed there can be no health in our league."

It was stated by Col. Houston that the preliminary action would be to get out an injunction against Johnson and prevent him from interfering with the New York club's property rights.

Col. Houston said that every club in the American League except Philadelphia and St. Louis had made an offer to Boston for Pitcher Mays. Houston said he obtained this information from Harry Frazee, president of the Boston Americans. Houston named the definite propositions which were advanced by the various clubs for Mays. "Mr. Johnson says he is keeping Mays' suspension in force because of the protests of five other clubs," said Houston.

Mr. Johnson would not see press representatives today but issued a statement announcing that the special meeting of the American League called for tomorrow had been cancelled. The New York owners had informed Johnson that they would not attend the meeting.

MANY INFANT WONDERS REVEALED IN ENGLAND

London, July 19.—(Correspondence of The Associated Press.)—Infant prodigies are being discovered in England almost daily. Some connect this with the psychology of war. One of the youthful marvels is Pamela Bianco, a 13-year-old girl artist, whose drawings were given the place of honor in an exhibition at one of the principal London galleries. Critics dealt with them quite seriously, and said that the work was suggestive of Botticelli and some of the other old masters. Pamela is an Italian girl, who was born in England, and never had taken any drawing lessons.

Ronnie Routledge, four years old, little more than a baby, whose parents know nothing of music, has enjoyed six months of tuition on the violin. At the Grimsby College of Violinists recently he outranked forty-three competitors; most of them in the twenties, and scored 119 points in a possible 120. Professor Danton describes him as a miracle.

Little Bobbie Day, aged seven, of Brighton, son of a motor mechanic, has wonderful powers of clairvoyance, according to the Weekly Dispatch. Blindfolded he described a number of articles. These included a treasury note (giving its color, numbers and writing on the back), the color and texture of a piece of fabric he had never seen, the correct answer to a complicated sum in mental arithmetic and figures written down at random.

After five minutes test he complained of feeling "icy cold." "I just see little pictures, and I just say them," is Bobbie's explanation.

Arrested in Charlotte.

A member of the Raleigh police was yesterday sent to Charlotte to bring back Dinky McNeal, colored, arrested there on suspicion of his complicity in the theft of two cases of shoes from a Seaboard Air Line freight car. The chief of police has already made an arrest here, and others are expected to follow further investigation. Some of the shoes are yet missing.

Few people will take advice unless charged for it.

MAGNIFIED MEXICAN DEBT

Washington, Aug. 4.—Mexican newspapers reaching Washington contain long articles declaring that recent figures as to the Mexican public debt, published in the United States, are "wholly inaccurate." In this connection financial experts here said comparison of the unofficial figures published in this country with the figures given out by the Mexican Treasury Department show no great discrepancy.

The official Mexican figures as to the external loan debt of the country are \$143,472,000 with interest to the end of this month placed at \$43,000,000. The unofficial figures as recently published placed this total at \$173,400,000. The apparent difference, experts here said, is made up mostly by the \$30,000,000 of the Huerta loan, floated in France under authorization of the Mexican Congress, but repudiated by the Carranza government.

The internal loan debt of Mexico, according to the official statement, is \$69,337,000 and interest to June 30, of \$17,914,000. The unofficial report gave this debt as \$66,611,000 and interest of \$14,130,000.

Washington financial experts say the Mexican Treasury statement fails to account for all the guaranteed railroad indebtedness which the unofficial report figures at \$290,500,000; the obligations other than railroads which the Mexican government has guaranteed the chief of which is the farm loan banks' debts, which, with interest to June 30, totals \$31,500,000; the "infalsifiable" issue of paper money of which \$80,000,000 at ten cents United States currency is still outstanding making a total of \$8,000,000 more, or the \$20,000,000 which Carranza took as a "loan" from the banks of issue in Mexico City.

The fact that Mexico has paid no interest on her foreign debt since 1913 also is kept in the foreground by Washington experts who, for the State Department, are keeping a close watch on the financial condition of Mexico. Experts here also assert that the Mexican government has used the entire income of the railroads and express companies without accounting and with no admission of responsibility.
