

CUMBERLAND WILL BUILD WAREHOUSE

Co-Operative Undertaking in Fayetteville To Promote Growing of Tobacco

Fayetteville, August 8.—A movement for the establishment of a co-operative marketing warehouse to take care of the rapidly growing acreage of tobacco being grown in Cumberland county is taking shape here. The move is initiated by W. J. Brockington, county farm demonstration agent, and has the backing of substantial business men. Mr. Brockington is spending a week's vacation in South Carolina and on his return the plan will be vigorously pushed.

Several hundred farmers in Cumberland are now growing tobacco, according to Mr. Brockington, and the cultivation of the weed would be taken up by many others if they had a nearby market. The present high cost of putting up such a building as would be required is more than offset by the high price which tobacco is bringing, say the promoters of the co-operative project. The warehouse should be built now in order to give the new planters ample time to prepare for the growing of the weed next year.

The advantages of tobacco growing which will be presented to those asked to enter the plan are, firstly: the central location of the Fayetteville market; the considerable income for the grower at a time when he has little else to market; the fact that the greater part of the work and marketing is done during a period when the farmer has a relaxation from the cultivation of his other crops; the increased value given farming lands, sometimes as high as 50 or even 100 per cent; and the addition of another money crop besides cotton as a safeguard against the coming of the boll weevil.

Private George W. Ward, Company D, 119th Infantry, 30th Division, whose home is in this city, has been awarded the Distinguished Conduct Medal by the British government. The citation conveying the award is signed by James G. Harbord, chief of staff of the A. E. F., by command of General Pershing. "This soldier," says the citation, "showed exceptional bravery and devotion to duty by working his way down along the Hindenburg line, in the attack of his regiment in the Bellecote area, on September 29th, 1918, and killing with his bayonet nine of the enemy. Although wounded, he later charged a machine gun post and killed the gunner with his bayonet. He was continuing his advance when again wounded and so severely that he had to be taken to the rear." Private Ward had previously been awarded the Distinguished Service Cross by the United States Army. He is the youngest son of Thomas Ward, of Fayetteville.

CONFIRMATION COLOMBIAN TREATY AGAIN DELAYED

Washington, Aug. 8.—Aroused by a governmental decree nationalizing the petroleum resources in Colombia, the Senate Foreign Relations Committee decided today to withhold its approval of the pending Colombian treaty until some definite assurance has been given for the protection of American interests in the Southern republic. The decree, a copy of which was laid before the committee by the State Department, invokes governmental declaration of 1929, holding that all mining properties in Colombia belong to the republic "in fee simple," and proceeds to set up an intricate system for exploitation of petroleum lands under government permit.

Pointing out that there are heavy American oil interests in Colombia, committee members at today's meeting expressed a fear that the decree might develop a confiscation of foreign property paralleling the conditions in Mexico. A sub-committee was appointed, headed by Senator Fall, Republican, of New Mexico, to take the situation under advisement.

Ulster Will "Prepare." Belfast, Aug. 8.—(By The Associated Press.)—After an address in which Sir Edward Carson, leader of the Ulster Unionists, told the Ulster Unionist Council that it was "necessary for Ulster to be prepared to prevent any encroachments on its liberties," it was decided today to revive the Ulster political clubs which have been abandoned during the war, and celebrate Covenant Day September 28, with a speech-making campaign led by Sir Edward Carson.

Knocked Bilbo Down. Jackson, Miss., Aug. 8.—Walter Dent, Assistant Attorney General of Mississippi, today knocked Gov. Theodore Bilbo down in a fist fight in the office of the Secretary of State. Joseph Foster, who with other officers, separated the men.

Some People Are Miserable, Half Sick, Tired All the Time

They Do Not Know What Is the Matter, and Their Physician Cannot Name the Disease.

There are just lots and lots of people who are sick—genuinely sick—yet who manage to drag through their work day after day. They do not know what is the matter with them and their physician cannot name the disease—that miserable, "used all the time" ailment.

In most cases, the real cause of this state of poor health is that the blood is clogged with uric acid and the bowels, kidneys and other organs are not acting properly. A reliable blood tonic is necessary.

Prescription C-2223 is a blood purifier of unusual merit. It is supplied ready prepared in a concentrated form and is to be taken in small doses. It not only cleanses and sweeps out of the blood the impurities that are causing ill health, but tones up the system.

Prescription C-2223 contains no mercury, opium, morphine, alcohol or strychnine; it was originally the prescription of a prominent physician, used in his practice in the treatment of disorders of the bowels and half sick, get a \$1.00 bottle of Prescription C-2223 from your nearest drug store, or the C-2223 Laboratory, 1000 North 10th Street, Philadelphia, Pa. Write for a bottle on receipt of price. Clip and mail this advertisement for free literature.

NO GOVT OWNERSHIP FOR WILMINGTON CHAMBER

Commercial Body Resolves At Length for Return of Railroads To Owners

Wilmington, Aug. 8.—The Wilmington Chamber of Commerce today adopted resolutions opposing the brotherhood plan to take over the railroads on the ground that individual enterprise has built them and made them the most efficient to the world and their securities are held by a greater number of people than those in any other industry, because abuses in management are now strictly regulated by government, because the proposal tends toward class distinctions and undermines democratic institutions, because nationalization of the roads would mean a political machine that would destroy equality of citizens, because such an addition to the public debt would impair the credit of the government and depress securities bought by patriotic citizens during the Liberty Bond campaigns, and because the proposal would revolutionize the country's industries and create class privileges.

The right of workers to adequate compensation and a voice in working conditions is cheerfully conceded; congressional representatives are called on speedily to return the roads to their owners with necessary safeguards and enact legislation to provide requisite service, adequate wages, fair rates and reasonable returns to railroad security owners.

THREE TWIN CITY STORES ENTERED BY BURGLARS

Winston-Salem, Aug. 8.—Three dry goods stores in the business district were broken into last night and clothing, etc., valued at \$1,000 or more, stolen. Entrance in each case was effected through a window. The officers have no clues.

Oscar O. Efrid has accepted a professorship in the law school of the University of North Carolina. He will graduate in law at Harvard University September 1, where he is a member of the special class formed of Harvard law students recently discharged from the army.

M. Gilbert Petree, son of ex-Sheriff and Mrs. R. J. Petree, of Stokes county, returned home a few days ago from China, where he spent two years instructing the natives in growing and curing tobacco. Mr. Petree says it is necessary to go armed in China as a protection against bandits. He declares that he witnessed the beheading of 13 bandits at one time during his stay in China.

Held For Killing Neighbor.

Asheville, Aug. 8.—Sherman Owens and two sons are being held without bail in the Brevard, Transylvania county jail, charged with killing Wisdom Patterson, a neighbor, following an altercation caused by some of the stock of the Owens' farmers running on the land in charge of Patterson. One of the Owens boys is charged with having fatally shot the Patterson man.

JUDGE STACY ADHERES TO HIS ORIGINAL DECISION

Court Is Still of Opinion That Railroad Stock Owners Must Pay Tax

Wilmington, Aug. 8.—Judge W. P. Stacy today again handed down an opinion in the rehearing of the argument, that the individual shareholders in the Atlantic Coast Line must pay the tax assessed against their holding by the Corporation Commission. After his former decision to this effect equaled for the shareholders, C. W. Tillet, of Charlotte, and J. O. Carr, of Wilmington, filed additional briefs and asked that the case be re-opened for further argument.

VALUABLE ADDITIONS MADE TO LIBRARY OF COLLEGE

Trinity College, Durham, Aug. 8.—Dr. Dred Peacock, of High Point, N. C., a trustee of the College, notified President Few several days ago that Mr. and Mrs. K. B. Terry of High Point, had made it possible for Trinity College to come into possession of the valuable library of the late Prof. A. H. Heitman, who was for many years a professor in the college. To Mr. and Mrs. Terry and the other members of Professor Heitman's family the college is grateful for this gift, which is priced both for its intrinsic value and for reasons of sentiment.

Another recent valued gift to the library is a large collection of pamphlets and magazines presented by Mrs. T. D. Jones, of Durham. This is one of many gifts by Mrs. Jones, who with her family has long been intimately connected with the College. Mrs. Jones is a sister of the late Jas. H. Southgate, who was for many years chairman of the board of trustees.

Ice Plant Is Sold.

(Special to the News and Observer.) Elizabeth City, Aug. 8.—The Elizabeth City Crystal Ice and Coal Company changed hands this morning. The plant is now in charge of E. C. Conger, of Edenton, and the Crystal Ice and Coal Company has been purchased outright by Mr. Conger and a number of business associates. The deal, which has been on for about sixty days, was consummated yesterday.

There is a report which seems reliable but which lacks official confirmation that these associates are W. O. Gaither and C. E. Fugh. The price paid has not been given out, but it is generally understood that the amount was upwards of one hundred thousand dollars.

CONCORD HOLDS BIGGEST CELEBRATION IN HISTORY

Judge J. C. Pritchard, of Asheville, Made Address at Home-Coming Exercises

Concord, Aug. 8.—Concord today had the biggest celebration in her history. Twenty-five thousand people were here. Arviator Westlake, of Asheville, gave two beautiful exhibitions. Parade was three miles long and very fine. Locke Mill got first prize on commercial float, Niblack second; D. A. B. first and Red Cross second on community floats. Eleven knights in big tournament and W. A. Foll was first, E. V. Caldwell second, Doc Brown third prize. The barbecue was great, three thousand soldiers partaking. Lieutenant Hartsell introduced Judge Pritchard to the audience. He made a fine speech of an hour and a half on reconstruction issues, being frequently applauded. He made a patriotic speech, profoundly American. He said there is more patriotism in the South than anywhere else, and paid a great tribute to the soldiers. The great day passed off without a jar or accident.

MIDDLESEX DEFEATS BAILEY

Middlesex, Aug. 8.—Middlesex easily defeated Bailey on the local diamond this afternoon, 10 to 2, which would have been a shut-out except for costly errors by the locals. The features of the game were a running catch by "Bill" Bianette and the pitching of "Doc" Lewis for the locals.

There are devices to close a door, but none to keep it open that won't ruin a carpet.

Widows and splinters naturally oppose men who do not propose.

If you would retain your friends don't make them envy you.
