

ONE MERE MAN WITH SEVEN LIVE WIVES

Combination Drummer, Evangelist And Y. M. C. A. Secretary Confesses

GOES TO PRISON AND WILL TAKE UP REFORM WORK

Charles Hugh Wilson, Son of a Scotch Minister, And His Many Interesting Marital Adventures And Desertions Of Women Whom He Deceived

(By The Associated Press.)

New York, Aug. 16.—Convicted of bigamy on his confession that he has seven living wives, one of whom he married twice, Charles Hugh Wilson, 48 year old, former Y. M. C. A. secretary, evangelist and traveling salesman, was sentenced Friday to three years and six months in Sing Sing prison where, he announced, he will take up prison reform work. Judge Wadhams told the prisoner he would have given him five years, the maximum sentence, but deducted 18 months, the period spent by Wilson in a Wisconsin penitentiary for a larceny which another man afterwards confessed to having committed.

Wilson commenced his matrimonial career on January 22, 1909, when he married Elizabeth May Stanton, of Davenport, Iowa. After three children were born he left her and in July, 1908, married May Bailey at Wytheville, Va. In less than a year he embarked on his third venture at Decatur, Ala., where he married Ethel C. Moore in March, 1909. Four years later he was united to Louise Davis at Detroit, and a year afterwards he went through a second ceremony with Miss Davis at Pittsburgh. The following year he sought a New York bride and was married to Caroline K. Norris. He tried Philadelphia next and took Wilhelmina C. Jaggard of that city, for his sixth bride in August, 1915. His final venture was in New York, where he married Fay Jeanette Ziff, in November, 1916.

According to a report by the Parkhurst Society, to which his last wife appealed after he deserted her, Wilson was born at Bernesville, Mo., and is the son of a Scotch Methodist minister. He served as a Y. M. C. A. physical instructor or secretary at Sedalia, Mo., Davenport, Iowa, Kansas City, Mo., Knoxville, Tenn., and Burlington, Vt.

Wine Swimming Championship. Riverton, N. J., Aug. 16.—Eugene T. Belden, a sailor of the Great Lakes Naval Training school, furnished one

of the biggest surprises of the season when he won the ten-mile national swimming championship in the Delaware river late today, setting a new record for the event. His time was 1 hour, 50 minutes and 13 seconds. He defeated 28 men, among them some of the best swimmers in America.

FARMERS' RIGHT TO DO COLLECTIVE BARGAINING

Washington, D. C., Aug. 16.—Farmers throughout the country were appealed to by the national board of farm organizations to protest by petition and ballot against "the unfair and un-American methods being used against farm organizations engaged in the collective sale of their products." Congress and State legislatures were called upon to clarify the purpose of the anti-trust laws in order that the "farmer shall have the right by unmistakable terms to do collective bargaining in accord with the original intent of the law."

The immediate cause of the protest, it was said, was the arrest on August ninth of seven farmers acting as representatives of the Ohio farmers cooperative milk company in the sale of milk to consumers in Cleveland. The only "offense" committed by these farmers, the statement said, was that of "collective bargaining," as they made no attempt to secure inordinate profits through price agreements.

OFFICERS DISCOVER QUANTITY OF WHISKEY

Wilson, Aug. 16.—Wednesday afternoon Sheriff B. E. Howard and Deputy John Mercer unearthed a fifteen-gallon keg containing about twelve gallons of fine distilled corn whiskey. It was locked in a tobacco barn guarded by a dog, on the plantation of Mr. Isaac Williamson, about four miles south of Wilson, and Sheriff Howard is of the opinion that it was placed there by "city bootleggers."

Thursday night between 11 and 12 o'clock a package on the plantation of ex-Mayor E. F. Killebrew, near the County Home, containing the crop from eleven acres of tobacco went up in smoke. The origin of the fire is undetermined but the supposition is that it was the work of a fire bug. Loss \$3,000; no insurance.

When the news reached Wilson Wednesday morning from Washington that it is not unlawful for North Carolina farmers to manufacture and sell cider many tillers of the soil were in Wilson. They hurried home, brought to light cider presses and began to shake trees for the fruit.

Noted Speakers Secured. Asheville, Aug. 16.—The Southern Baptist Assembly at Ridgecrest has been very fortunate in securing for its speakers some of the most noted

ministers in the country. The list is headed during the coming week by Dr. Clarence Dixon, of London, England, who speaks to the Baptists three days, Tuesday to Thursday, inclusive. Dr. Dixon was a former pastor of the First Baptist church of this city. Other speakers of note who will address the large gathering at the Baptist assembly grounds within the next few days are President Dement, of New Orleans, who speaks tomorrow morning to the assembly, and Dr. A. T. Robertson, of Louisville, Ky., who speaks Monday night.

It is easier for a girl to believe a man who tells her she is pretty than it is for him to tell her.

The barber belongs to a shaving set. When a sailor falls out of his ship he feels as if he were all in.

'KOZAK MAN' AROUSES WIDE INTEREST HERE

SCORES FADS IN HEALTH MATTERS

Freaky Ideas of Diet Are Cause of Much Trouble, Says Kozak Man

ABUSE OF STOMACH LEADS TO MANY ILLS

Person Who Gets Stomach Out of Order Drags Through Existence Only Half Alive, and is Often Tempted to Try Foolish Notions of Diet Which Do Much More Harm Than Good.

Another assailant of the "fasting-cure" advocated by many so-called dietitians, has developed in the person of the "Kozak Man," the original western character who has been creating so much comment in Raleigh by his common sense health theories. A continuous stream of callers at the Tucker Building Pharmacy, where he is making his headquarters in Raleigh kept him busy yesterday afternoon and late in the night, but he found time for the following statement. He said:

"The human body is naturally healthy. It should be considered as a strong, well balanced machine, and run intelligently, but all these health fads are pure nonsense. Such attempts to interfere with the natural functions only throw the whole machine out of gear. This craze for fasting, 'no breakfast' fads and the like are apt to bring upon the experimenter the worst curse which can fall upon him—stomach trouble.

Disease Begins in Stomach.
"It is well known a physician and health students that nearly all disease begins with a deranged digestion, and the reason for this is simple. Food is of no use to the body until it has been assimilated by the blood, and if digestion is not good the food is turned into poison instead of nourishment by the stomach. That is the reason that an illness begun by neglecting simple indigestion often runs into rheumatism, nervous and blood diseases, catarrhal troubles, ulcers of the stomach, finally death.

"A person suffering in this way usually drags through existence half alive, never quite comfortable, tormented by headaches, as pains and uncertain appetite. In this state he falls into all sorts of health fads and freak notions, which only make the matter worse, when a little plain, common sense treatment would put everything right and give the body a chance to be as splendidly healthy as it is intended to be.

Reason for Kozak Success.
"The wonderful success of the Kozak treatment is due entirely to the fact that the treatment is based on the most advanced discoveries of medical science. It is only reasonable to believe that the combined intelligence of men of science who have each devoted a lifetime to the study of human ailments is more apt to bring successful results than the mere theories of people who usually know nothing of the science of medicine and chemistry."

SCIENCE CONQUERS ILLS OF STOMACH

Digestive Diseases Are Most Dangerous Enemy of the Southern People

"Stomach trouble is the commonest and most dangerous complaint of the Southern people today."

That was the statement made yesterday by the "Kozak man," an original character from the west, who is meeting the people of Raleigh daily at the Tucker Building Pharmacy, Fayetteville and Martin streets. The "Kozak Man" continued:

"It is a surprising fact, yet one generally admitted by the medical profession, that most of the common diseases have their origin in disorder of the stomach, intestines or catarrh. Catarrh of the stomach causes all sorts of havoc. "The delicate mucous membrane lining of the stomach becomes coated with catarrhal secretions and food cannot digest. Instead it ferments—literally rots—and forms gas which belches up in the throat and causes intense pains in the stomach and abdomen after eating.

"Constipation invariably results from stomach trouble and this in turn causes piles, oftentimes, and usually wrecks the entire nervous system. The person who in the beginning had nothing but stomach trouble now becomes extremely nervous, is subject to fits of temper, cannot sleep, has irregular appetite and attacks of headache and mental depression. Even the eyesight often becomes affected. Spots before the eyes and dim vision are often symptoms of this dreaded stomach trouble. So-called kidney and liver complaints can also be traced to the one central cause—stomach trouble.

"These are all common-enough facts, yet it is lamentably true that are a thousands of persons right here in Raleigh who are suffering from troubles arising in the way I have described, and who have been doctoring for years in all kinds of ways and who could find health at once if they would see after the real cause and remove it."
"The person I came to Raleigh to reach is the one who is in this half-sick condition. The man or woman who feels tired and droopy, all run down, who is not sick enough to take to bed, yet whose every waking day is a nightmare of dull, weary, weakness and pain. To that person I say: 'There is hope—hope of better health, hope of a happier life, hope of success in business life and social affairs.'—Adv.

ENJOYS WELCOME BY RALEIGH FOLK

Says Local People Give Him Encouragement For Big Success

MANY CAROLINIANS USING TREATMENT

Genial Westerner Says He Will Soon Publish Testimonials of Local People Who Are Now Taking New Medicine for Upbuilding of Run-Down and Half-Sick People With Bad Stomachs.

Many North Carolina people are now taking the famous Kozak treatment for stomach trouble and kindred ills, although the new remedy was first introduced here barely ten days ago. All during last week and late Saturday night a continuous stream of people called to meet the noted "Kozak Man" at his headquarters at the Tucker Building Pharmacy in Raleigh. While most of these visitors came principally just to inquire about the new medicine, most of them went away with a package under their arm after talking with the genial westerner. Many mail inquiries also poured in to the Tucker Building Pharmacy and of course these received prompt attention.

The "Kozak Man," in an interview, said: "I am very well pleased with my reception in Raleigh. I am frank to admit that my first week here has been more encouraging even than my first week in the big city of Norfolk, Virginia. Actually, I have had more callers and more letters of inquiry here than I did there the first week.

"It will take a few weeks more, however, for the people of North Carolina really to 'wake up' to what a truly remarkable medicine I am introducing. You can't blame people for being cautious about trying any new medical treatment because there have been so many things placed on the market for which all sorts of claims were made that the people have naturally become skeptical.

"But just you wait until I begin publishing the testimonials of some of the prominent Raleigh people who are now using Kozak! I know what it is going to do for them, and I know that after a few weeks' use of Kozak they will come back to me with the same wonderful statements about the medicine that the people of Virginia did.

"Kozak gets such splendid results because it is the very latest word in treatments for the stomach. Not every person who has stomach trouble knows it, however. People have what they think are liver troubles, kidney troubles, or nervousness, or palpitation of the heart, or general weakness, etc., but in ninety-five out of a hundred cases the whole trouble disappears soon after they begin taking the Kozak treatment. Kozak is not only a digestant, but a splendid tonic treatment for run-down folks. People who have been dragging through life all worn out, 'just half sick' as they express it, are astonished at the new vigor and vim that is theirs as soon as they begin to use this modern new medicine.

"On this page today, I am publishing some of my ideas about stomach trouble and health matters. Read them. If my theories sound reasonable to you, why not give this new medicine, which has helped thousands, a trial? Remember, you take no risk, because I positively guarantee that the full Kozak treatment will give you satisfaction or you get your money back."

Housewife More Victim of Conditions Than Smart Set Leader
Novel theories about modern social conditions and the cause for them were advanced yesterday by the "Kozak Man" who is now in Raleigh for the avowed purpose of revealing many little-known but common sense facts about health matters. He said:

"Modern social life is a tremendous tax on the vitality of the nation. The woman of that splendid physique of our pioneer days who was the mother of the nation is fast disappearing from our recollection. The woman of today is an anemic, sickly, always tired and exhausted type. She lacks in life, verve and healthy ambition.
Housewife Worst Victim.
"I claim that the woman of moderate means—the wife of the business man, artisan, clerk or working man—has just as many social responsibilities of the kind that tell on her health as the pampered woman of fashion. The fact that she has housework to do and perhaps children to look after tends to make her life the harder.
"Women come to me who are suffering from all kinds of diseases—so they think—but in reality they don't know what is the matter. They have headaches and dizzy spells and scores of them think they have nervous prostration. They suffer from gas on the stomach, foul breath, constipation, kidney and liver trouble and a hundred of other complaints.
Food Rots in Stomach.
"The fact is that their stomachs are impoverished as a result of their mode of life. They eat too much, too irregularly and do not take healthful outdoor exercise as nature demands. The digestive organs are stuffed up, clogged and can't work. The food lies heavy on the stomach, sours and—it's harsh to say but it's true—it literally rots. Gases form and poison is pumped into the blood. All kinds of diseases, of course, are bound to follow.
"This new Kozak treatment is designed to tone up the digestive organs, cause proper assimilation of food and in nine cases out of ten restore a run down, half sick, anemic person to the full bloom of health in four to eight weeks. I am here to meet the people of Raleigh face to face and prove my theories to them.

CRIME A DISEASE, IS HIS ODD THEORY

Morality Hinges on Mentality, and Mentality on the Health

INDIGESTION WARPS MENTAL ATTITUDE

Says Chronic Troubles of Kidneys, Liver, Bowels and the Nerves Can be Traced to Stomach Trouble and That They Disappear When Uprooted by Kozak Treatment For the Stomach.

Is crime a disease? Does morality hinge on mentality and is a man or woman good or wicked according to his health? The "Kozak Man," who is fast becoming the talk of Raleigh with his new health theories asserts that poor digestion and its attendant ills upsets anyone and is more than sufficient cause for the morose, sullen, mental condition of the average criminal.

While meeting his usual round of callers who come to him seeking a way out of their half-sick condition, he said: "I believe that ninety-five per cent of all ill health is caused by stomach trouble. And I believe the stomach affects the mind and that the condition of a man's thinking apparatus controls his conduct as a citizen. Experts on criminology prove by statistics that practically all crimes are committed by individuals of a weak mentality and poorly nourished bodies. Medical records show that a disordered mental attitude results from a disordered nervous system.

"A man doesn't have to eat too little to have a poorly nourished body. A poorly nourished body is far more apt to result from eating too much. A man stuffs himself with rich food, fails to take exercise as nature intended, and then gets doped, droopy, tired and half-sick. He wonders why. Women are the same way. It is as simple as A B C. "With such a mass of food in his stomach this poor, overworked part of the body has an overload, won't work and he gets no good from his food. It does him actual harm.

"He has had dreams which shows it is affecting his nerves and brain. He gets a warped view of everything. We all know the dyspeptic is a grouch. The whole world seems to be against him. If this has been going on for years, he is pretty sure to get off the track, become morose, sullen and finally a criminal."
"I came here to Raleigh just to introduce a treatment that I know will put a stomach in a normal, healthy condition in from four to six weeks. I have talked with people taking it until I know positively what it will do. Not one person out of twenty knew what they were troubled with. By actual observation I know chronic troubles of kidneys, liver, bowels, nerves, etc., can be traced to the stomach and when you get right down to the cause and uproot it with the Kozak Treatment you get on the road to recovery.

"I also know that this Kozak Treatment tones up the digestive apparatus of people who use it because they tell me so. We know that people with good digestion are seldom sick, for with digestion working properly health comes and disease vanishes."

SOCIAL PACE TAX ON RACE VITALITY

Housewife More Victim of Conditions Than Smart Set Leader

Novel theories about modern social conditions and the cause for them were advanced yesterday by the "Kozak Man" who is now in Raleigh for the avowed purpose of revealing many little-known but common sense facts about health matters. He said:

"Modern social life is a tremendous tax on the vitality of the nation. The woman of that splendid physique of our pioneer days who was the mother of the nation is fast disappearing from our recollection. NUXATED IRON

Helps Make Strong, Sturdy Men and Beautiful, Healthy Women

3,000,000 People Use It Annually As a Tonic, Strength and Blood-builder

MAKE THIS TEST

If you are not well or strong you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people, who were ailing all the while, have most astonishingly increased their strength and endurance in 2 weeks' time in many instances.

Manufacturers' Note: Nuxated Iron which is prescribed and recommended by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older iron tonic products it is easily assimilated and does not injure the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

It Is Pleasing to Observe the Higher Tone

and higher ideals of business life throughout the United States through the individual work of some one man here and there, who sets a new pace to his city or his village.

The quality of the man has much to do with the quality of his store, just the same as the character and conduct of the doctor or the lawyer makes his clientele and affects his success.

The people recognize good quality and are not satisfied with old-time cross roads stocks and storekeeping, or the indifferent attention given.

The teachers, preachers, physicians, bank directors and legislators will "lose out," to use a political term, if they fail to give a full quality of service wherever they are located.

The public has the right to demand it.

This store work shows greater efficiency in several directions.

Come in, see our store, try our service, you will find it "Just a Little Different," "Just a Little Better."
