

GEORGIA SUFFERS FROM BOLL WEEVIL

Sampson County Natives Bring Back Stories of Wonderful Progress.

Clinton, Aug. 22.—Mr. Nathan D. Deaning, who went South twenty-five years ago to work turpentine, but who now is a farmer, located sixty miles West of Savannah, was in Clinton Wednesday for the first time in twenty years. Mr. Deaning, discouraged by the havoc wrought by the boll weevil, is considering returning to his old home where he still owns a farm. He says that the farmers of his section have practically quit growing long staple cotton, as the weevil is much more ruinous in its effects upon that variety than upon the short staple. He predicts that the spread of the pest to the seashore of Georgia and South Carolina means the practical obliteration of the Sea Island variety.

Another home-comer is Mr. D. A. Autry, a prosperous citizen of Moultrie, Ga. Mr. Autry, like so many young men of the last quarter of the nineteenth century, followed the turpentine industry to the South. Thirty-seven years ago, Mr. Autry went to South Carolina, where he got his start and acquired a wife. Thence, he trekked to South Georgia, where he grew up with the country. Autryville, Ga., is named for him and there he owns valuable farming interests; while he resides in the flourishing town of Moultrie and superintends his naval stores interests.

Mr. Autry is enthusiastic about his town and county, accounting his section the garden spot of Georgia. He says that the boll weevil has practically killed the long staple cotton industry, and seriously affected the growth of the short staple, but that the county is far more prosperous than before the pest came, as the people have developed a more diversified agriculture. Several years ago the Moultrie people created a \$100,000 packing plant, which they had to enlarge by half; that after three years Swift took it over and now the plant represents probably a million dollars' capitalization. Peanuts are the main dependence for fattening the hogs.

The visitor states that this county, which when he went there had only four thousand inhabitants, has voted a half million dollars for building hard-surfaced roads and expects this amount to be duplicated by the National government. The experience with hard-surfaced roads has proven unsatisfactory.

Will Build Warehouse.
A meeting of the subscribers to the stock of the Sampson County Cotton Warehouse Company and interested farmers are called to meet in Clinton Saturday, August 23, for the purpose of completing the organization. Messrs. Ivey and Gattis, the former of Carey, and the latter of Raleigh, have been soliciting the stock. It is expected that they will have secured the required amount by the meeting, and that the contract for the erection of the warehouse will be signed.

EVERY WOMAN WANTS A CLEAR SMOOTH COMPLEXION

A Skin With the Tint of Youth — Free From Pimples, Freckles or Other Blemishes.

Happy is the woman with a beautiful skin. There is no joy like that which comes from knowing that you look your best. When you meet people, the first thing they do is to look at your face. First impressions are lasting. If you have a smooth, velvety skin, free from blemishes and pimples, you need never fear the impression you make on all you meet, for a woman with a pretty complexion always appears charming.

Some women are endowed by nature with a clear, smooth skin; others, not so fortunate can acquire it by the use of the popular Black and White Beauty Treatment, which consists of Ointment and Soap.

Those who suffer the embarrassment of a dark, sallow or muddy complexion, pimples, tan, sunburn, freckles or other skin blemishes, just cleanse the skin with warm water and Black and White Soap; at bedtime apply Black and White Ointment according to directions given in each package. The next morning, wash the skin with Black and White Soap, and repeat the treatment for a few nights or until the desired results have been secured. It's safe, simple and as delightful to use as other cosmetics.

Both Black and White Ointment and Soap can be bought from any good drug store at the package, or the manufacturers will send it to you postpaid upon receipt of the price. Free sample and literature can be had by writing Black and White, Box 913, Memphis, Tenn.—(Adv.)

BLACK-WHITE OINTMENT Brightens the skin

houses will be let immediately, with a view of having at least one unit of it in readiness for the storage of cotton when the season opens. The amount of stock is limited to \$100 to each subscriber. This limitation has made the raising of the capital more difficult, but has served to enlist the interest of a much greater number of people than would have been secured if the amount had been unlimited.

A county institute, or summer school, for teachers is being held at Salemburg, and about fifty teachers are enrolled. The instructors, in addition to Superintendent Isley, are Miss Struthers, of Columbus county; Miss Hyman, of Halifax, and Miss Landon, of this county, the latter having recently been chosen a supervisor of rural schools, and having taken a special course at the recent summer session of the University.

Still another home-comer is Mr. Everett Peterson, a prominent young business man of Savannah, who, with his interesting young family, came through by automobile, and is visiting his mother, Mrs. Maggie Peterson, in the lower part of the county.

Beautiful White Lake.
White Lake is a popular resort for Clinton people, scarcely a day passing without a party leaving for that most beautiful of inland waters. It is only a matter of time when White Lake will be nationally known. A good road from Clinton to Elizabethtown by way of the lake will do much to heighten its popularity, while an electric railway from Elizabethtown should quickly put the resort on the map as a Pinehurst or Southern Pines. Every characteristic that makes the Moore county resorts popular exists at White Lake, in addition to the unexcelled beauty of the lake itself.

ANXIOUS TO HAVE BODIES RETURNED

(Continued From Page One.)

charged from the army. He left here this afternoon for Raleigh, where he will visit his parents, Attorney General and Mrs. James S. Manning. Major Manning quit his law practice in Kingston to answer the call of the colors. He is well known at the University of North Carolina, where some years ago he participated in the manifold activities of college life.

The ingenuity of former Judge George Rountree, of Wilmington, outwits even the iron-clad ruling of the United States Shipping Board, when he obviates an objection of John Barton Payne when he declined to name a steel vessel at Wilmington "Pembroke" in deference to a policy of not naming any ships after individuals. The former Wilmington judge has discovered that there is a village in Robeson county named "Pembroke" and he inquires of Senator Simmons why not designate the vessel after this village. Thus far the Shipping Board has made no answer.

Secures Passport To England.
Thomas Croke, of Nazareth, Wake

county, has obtained a passport to go on a business mission to England, sailing from New York City August 26. He will be away from America for 30 days or more. Mr. Croke goes abroad in the interest of the Wake county Catholic school for boys, and his specific duty will be to complete arrangements for the acceptance of Allied war orphans. Mr. Croke is interested in the Catholic orphanage at Nazareth.

William Hammond, former clerk of the Superior Court of Randolph county, was in Washington today for conference with the chairman of the Farm Loan Board. Mr. Hammond is an agent of the board in North Carolina, among his duties being to pass upon the merits of applications for Federal loans to farmers.

Telegrams to Frank Hampton, secretary to Senator Simmons, indicated that railway labor in Rocky Mount was considerably agitated over the letter written by a Rocky Mount business man. No one can reasonably blame Mr. Hampton for the views expressed in the letter since he was only the receiver of the protest and the letter was made public as would any other correspondence of a public nature drifting into the office of Senator Simmons.

Carolinians in Washington.
W. A. Lucas, of Wilson, was here today representing the interest of some people in his section whose War Insurance and allowance have been permitted

to lapse by the War Risk Insurance Bureau.
Commander David W. Bagley, of North Carolina, has been detached from duty in the Bureau of Navigation of the Navy Department and assigned for service as naval attaché at the United States Legation at The Hague.

A marriage license was issued in Washington today to Robert S. Roper, of Dysartville, N. C., and Miss Georgia R. Padgett, of Washington.
Mrs. Margaret Monteiro Berry is spending the summer months at her country home Overton in Brady Hills, Md., having closed her apartments at the Farragut. Her nephew, William D. Carmichael, Jr., of Durham, N. C., is her guest for the summer. Mr. Carmichael left the aviation corps in January and resumed his collegiate course at the University of North Carolina, which had been interrupted by his war service.

Destroyer Marcus Launched.
San Francisco, Cal., Aug. 22.—The destroyer Marcus was launched at the Union plant of the Bethlehem Shipbuilding Corporation here today. She was the fifty-third destroyer to be launched here.

DISAPPEARS FROM HOME HE HASN'T COME BACK

Life Weaves Tangled Web In Elizabeth City, One Principal Is Gone

Elizabeth City, Aug. 22.—Mr. John H. Bolick, a man of about 45 years of age, who came here something like six months ago from the upper part of the State, and was employed in one of the hosiery mills of the city, left his home about two o'clock Tuesday afternoon and has not been heard from since. He disappeared in the same piece of woods in which Daniel Lee Jones was shot from ambush less than two years ago.

It is generally believed that Bolick is dead, either by his own hand or that of an enemy.

The Bolick family consists of a wife and three children, all girls, the eldest about eighteen years of age. Bolick gave this daughter his keys, his pocket-

\$10.00 REWARD

Will be paid to anyone who can give any information as to the whereabouts of Harry Lee, white man; height about six feet; weight about 175 pounds. Has black hair, ruddy complexion and blue eyes. This man is not guilty of any crime, but his people offer the above reward, as he has not been heard of since August 14, 1919, when he left Benson. When last seen he wore a gray coat, striped trousers and a straw hat. Notify

Benson, N. C., Route No. 1.

book and all the money he had when he left home telling her that he would be back by supper.
Bolick was in police court on the morning of the day of his disappearance as a witness, when Police Officer Grandison Phelps and Ed. Spruill were before the recorder for a statutory offense. The case was dismissed, the women involved were Mrs. John Bolick and Ethel Little, a young woman boarder in the Bolick home, both of whom had left town.
Officer G. Phelps has also left town

since the trial. He had been on vacation and his time was up, but he did not report for duty.

This tangled web of sinister circumstance accounts for the belief that John Bolick did not leave home Tuesday afternoon with the intention of returning.

Many a girl after visiting a drug store appears in the pink of condition.

The ocean has its uses; therefore poets are wrong in calling it a watery waste.

In Your Cotton Alleys
Plant after last working of cotton crop. Ready when cotton is picked. For grazing hay and soil building. Saves a season.

With Oats and Rye
Makes very best feed. Will double your yield and build your soil. Vetch stubble turned under is equal to 700 lbs. of good grade fertilizer per acre.

The Best Paying Crop
4 or 5 crops per year without cultivation. Grows several years without re-seeding. Wonderful land builder.

Inoculate the Seed With **NITRA-germ** and be Sure of a Good Stand

It enables you to grow these crops where you failed before. Improves your crop and land. Costs \$2.00 per acre delivered.

Write for FREE book No. 4-B Address NITRA Germ, Savannah, Ga.

Warning!

TODAY is the Last Day

You can get for some time your measure taken by the master tape line man, Mr. J. Thomas Townsend. Come early and avoid the rush.

These days have been busy days. There is a reason—**The values are right. They fit right. They are absolutely guaranteed.**

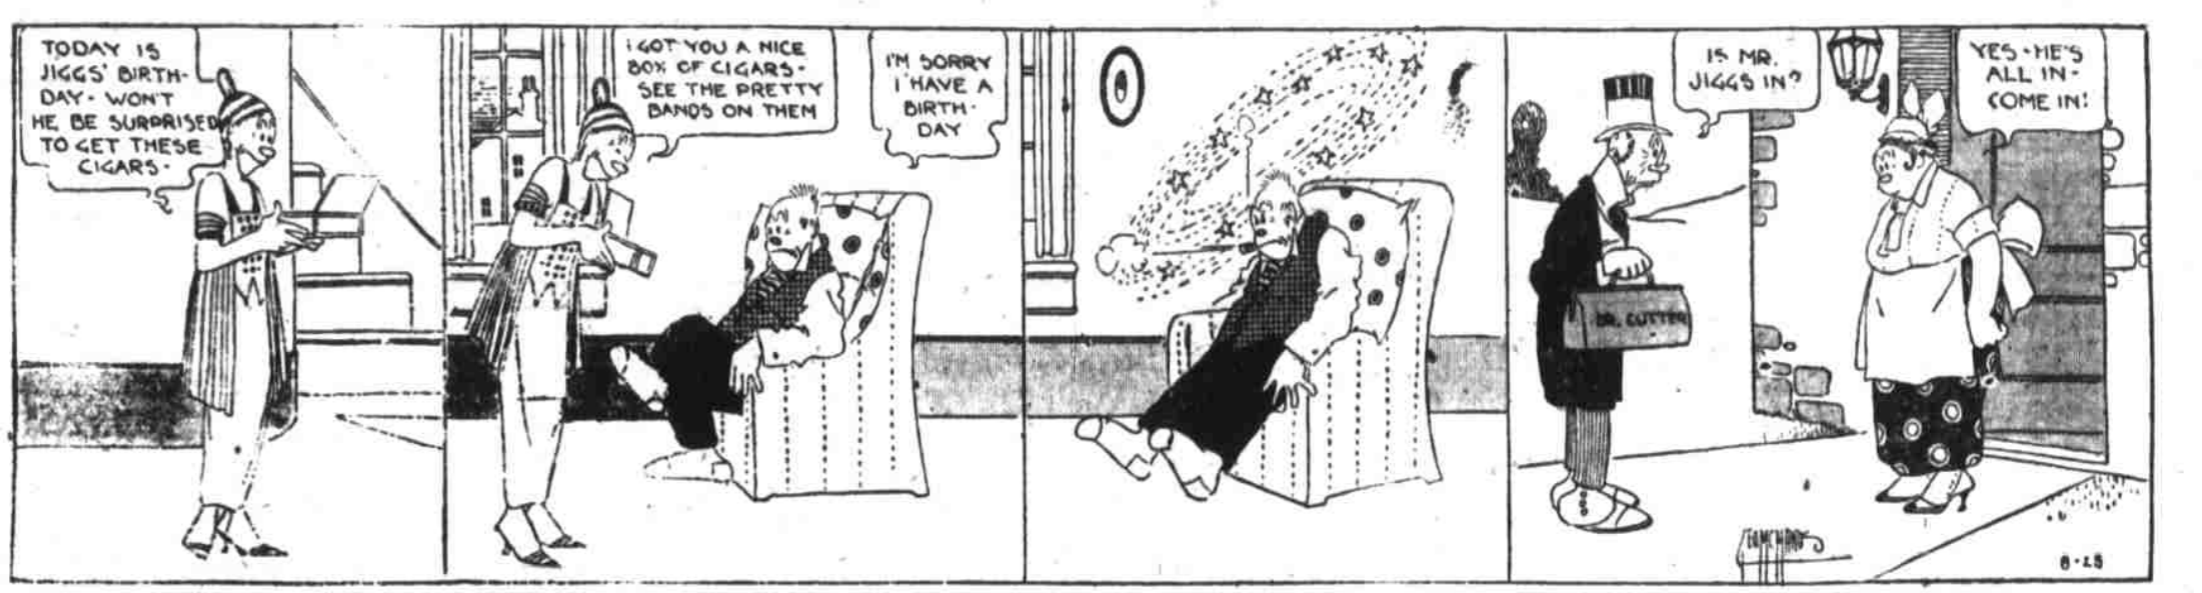

"COME AND SEE" Is All We Ask.

The shape is made in, not ironed in and they keep on fitting. If you have worn one of Boone's suits, made by the "needle masters" you know, if you haven't you'll find what you've been looking for today at Boone's.
