

Six Hundred Armed Men in Charlotte Patrol Streets To Prevent More Disorder

(Continued from Page One.)

men and women, it was stated by union men tonight, to secure satisfaction. It was pointed out that it is within the realm of possibility for the brotherhood to take such action that Charlotte will be absolutely cut off from food and fuel until a satisfactory settlement of the situation here is reached. They may cause a Federal investigation being responsible for the trouble, or to take court action.

Opposed to Violence.

"We are not in favor of violence, do not counsel it and are absolutely opposed to it," said Mr. Goble last night. On the other hand, the odium which is directed against the textile workers for their share in the riot is being overwhelmingly laid in Charlotte today at Marvin Ritch, who was their attorney and organizer. Demands that Ritch leave town and almost threats against him are commonly heard.

President Taylor Talks.

"Ninety-five per cent of the thinking people of Charlotte are with us heart and soul in this fight," said President Taylor this afternoon, reviewing the position of the corporation in the matter of recognition of the union, and maintaining that to fight the demand to the end is necessary for the maintenance of industrial liberty. "It's all because I have carried my case to the people. They understood the facts when the strike came. Instead of jumping to the side of strikers, as is almost always the case, they placed their faith in the Power Company. I have held nothing back from the public. Deeming that the public has a right to know, I have from day to day acquainted the people with the progress of the situation through advertisements, which have been regularly paid for."

Mayor McNinch Under Fire.

Criticism for the extent of difficulties of Tuesday morning is being aimed in no little measure at Mayor Frank McNinch and the city authorities for the soft methods used in handling the inception of the trouble Monday, when the strike breaking cars made their first appearance. Thousands of people, cotton mill workers by the hundreds flocked to Tryon street and in the square surged around the cars, hurling missiles through the windows and severely injuring T. H. Drum, assistant superintendent street railway. If a sterner hand had been used against the disorders then it is claimed the events of this morning would not have occurred.

Georgia Governor Says Association is Dangerous.

(By Staff Correspondent.) Charlotte, Aug. 26.—Ex-Governor Joe Brown, of Georgia, yesterday wired President Taylor a sweeping indictment of the Amalgamated Association, the record of which he gave in his own State. "Whenever this association moves across our country its trail is stained with blood," he said. "Its personality is anarchic, defiant of State and all national laws and ruthless in committing murder alike upon non-union laborers and upon the innocent public."

At Grocers—Always in sealed tins—whole, ground or pulverized.

It is an act of true friendship toward China, or a mere political move to defeat the treaty? If its sponsors now fall to come forward and openly pledge that if Japan is driven out of this treaty then the United States will proceed single handed and alone to drive Japan out of China—will renew this world war and send our soldiers into the Orient to fight for her, then by this act they are betraying China with a false kiss.

Would Humiliate Japan.

"By this amendment," continued Senator McCumber, "you make it almost impossible for Japan to comply with her own agreement with China without suffering humiliation and by sacrificing the respect and natural pride of her people. By this amendment a third power—whom the opponents of the league insist should never interfere with the affairs of the Eastern Hemisphere—proceeds to set aside a compact entered into between two nations of the Eastern Hemisphere in which we were in no way connected and performing this act with an arrogance and white action would ever submit to so long as it had a drop

of blood left to shed for its national honor.

INQUEST OVER DEAD MAN WILL START THURSDAY.

Charlotte, Aug. 26.—With 200 militiamen and 300 armed citizens on guard duty, quiet prevailed in Charlotte tonight. Post mortem examinations were held this afternoon over the bodies of the three men killed in last night's riots, a special coroner having been appointed for this duty, and investigations of their deaths, under direction of Special Coroner Cobb, will be continued tomorrow. He said the inquests will be held Thursday.

Twelve of the thirteen men wounded in the riots at the car bars are patients at hospitals tonight, with three of them perhaps fatally wounded. The death of one, Will Hammond, shot through the spine, was expected momentarily.

The high tension that prevailed throughout the day influenced Mayor McNinch to withhold permission for an attempt to resume street car service, though officials of the Southern Public Utilities Company announced their willingness to start the cars when city officials will permit. Several civic and commercial organizations today adopted resolutions calling upon the city officials to restore order, and the Charlotte Automobile Trade Association declared that resumption of the car service is essential to that end.

Republicans Now Propose Another Sweeping Change in Provisions of Treaty

(Continued from Page One.) No statement was forthcoming early tonight from Mayor McNinch, who has remained at his office since the attack on the car bars. In response to urgent calls from the mayor, Adjutant General Royster ordered North Carolina Guardsmen here from Statesville, Lincolnton, Winston-Salem and Lexington. The first contingent of troops arrived about 8:30 o'clock this morning and the Winston-Salem company, the last to arrive, reported at midday. Beginning immediately after the outbreak, Mayor McNinch swore in special officers throughout the day. No forecast was available tonight of a time for the second attempt to restore car service.

The only arrest made during the day was that of John Wilson, whose brother, Olem Wilson, was knocked down at the car bar and taken to a hospital early Monday night. It was John Wilson, the police allege, whose remarks to Chief of Police Orr and his alleged firing of a pistol precipitated the string of about 100 shots resulting in practically all the casualties recorded during the strike, which began August 10.

McCumber Asks Senate to Overrule Committee Action.

Washington, Aug. 26.—Asking the Senate to overrule the Foreign Relations Committee Shantung amendment to the peace treaty, Senator McCumber, of North Dakota, the only Republican member who voted against it, asserted that the Republican majority in taking this action were endeavoring to drive "a poisoned dagger" into the peace treaty and place the United States in the position of a "big bully."

Sends Dagger into Treaty.

"Why did the majority of this committee pause in the midst of their hearings to make this particular amendment," he continued, "and then proceed with the usual leisure to lay out dates for further hearings which will consume a week or so more? The purpose is apparent. It is to signify to the country that the Senate is hostile to the treaty. It is to put Japan in a position where she cannot without an appearance of being coerced, do what she has promised to do. It is to create trouble between this country and Japan and thereby send the first dagger into the body of the treaty."

Disposition Kenilworth Unsettled.

On direct inquiry, Maj. Gen. M. W. Ireland today informed Hubert Martin, private secretary to Senator Overman, that Kenilworth Inn, of Asheville, would be abandoned by the War Department as an army hospital. General Ireland stated, however, that he understood that the United States public

Health service would convert Kenilworth into a sanatorium.

Surgeon General Rupert Blue, of the public health service, is out of the city and the report that the Asheville hospital is to be transferred into a public health station could not be confirmed. Dr. Blue will return to Washington tomorrow, the supposition being advanced in the office of Senator Overman that Surgeon General Blue was in Asheville investigating the merits of Kenilworth Inn as a prospective sanatorium.

Order Passport Issued.

Mrs. Albert New, wife of Rev. Albert New, rector of the Episcopal church of Waynesville, is temporarily forbidden passage from England to the United States. She is a British subject and the American ambassador would not approve her passport for return to the United States. The State Department, however, upon the presentation of the North Carolina Senator, today cabled the American representative that the restrictions be lifted and that she be permitted to make the voyage uninterrupted. Mrs. New is on a visit to her son, who was in overseas service.

Put on Stable Basis.

To put the business of cotton warehousing on a stable basis and provide receipts for cotton that are negotiable at any bank has long been the aim of persons interested in cotton, and under the amended United States cotton warehouse act this is likely to be realized. That is the opinion of men in the Bureau of Markets, United States department of agriculture, who are charged with issuing Federal warehouse licenses. The warehouse act has just been amended so as to permit the acceptance of personal bonds from warehouse men and to permit the issuance of negotiable receipts, when requested by the depositors of cotton in the warehouse, without stating the grade of the cotton. The grade must be stated, however, unless the request to omit it is made. Warehouse men desiring to take advantage of the opportunity extended should apply to the Bureau of Markets at Washington for the application forms.

FIGURES FARMER IS LOSING MONEY

(Continued from Page One.)

deductions are at least interesting when he says: "You can easily see that at the present prices of produce that farmers cannot begin to support themselves and family, nor even exist. Senator Simmons, do you realize the enormous profits that the cotton mills are making? I was talking with a mill man some weeks ago, and he told me that they could make the yarn inside the mill for 4 1-2 cents per pound.

Big Profit for Mills.

"It is true there is little outside expense, but I should think that it would cost half as much again to make the yarn as it would to weave the sheeting. We will figure that it cost ten cents to put it into sheeting and that the cotton cost 25 cents a pound, making a total of 35 cents a pound for sheeting. I was in a certain store the other day and they had just received a lot of sheeting direct from the mill, sold to them by the mill man himself (no middle man's profit). I happened to know the cost mark of this firm, also the head clerk told me that this sheeting cost them 25 1-2 cents per yard first cost. I weighed 32 yards of this sheeting and it weighed 7 1-2 pounds, which would make it cost \$9 per pound. We will subtract 35 cents from what it cost to make the sheeting and we will have a net profit of 74 cents per pound. Should it cost more, even 45 cents, to get it into sheeting, we will have a net profit of 65 cents per pound."

To Drive Out Malaria.

And Build Up The System Take The Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out the malaria, the Iron builds up the system. 60 cents—Adv.

LEXINGTON HOME GUARD CALLED TO CHARLOTTE.

Lexington, Aug. 26.—Company 13, Home Guard, Militia Reserve, the local home guard organization, was called to Charlotte this morning about 4 o'clock by Adjutant General Royster in response to a call from Mayor McNinch, of Charlotte, following the exchange of about a hundred shots between the policemen and the crowd, which resulted in the death of a number of people, some reports having it two and others as high as ten.

Constipated?

If so, you can obtain sure relief by taking RAMON'S LIVER PILLS

Coker-Lawton SWEET FEEDS

Keep Him Healthy Strong Vigorous Common-sense—economical feeds for all stock. Saves 25 per cent. grain. Cheaper than whole grain. Easier fed. Easily obtained. Near at hand and can ship promptly. A full supply always ready. Better balanced ration. Contains food for every part of the animal. Makes and keeps them strong, healthy, active, vigorous. Manufactured by experts who know the necessities of a good feed. For your stock's sake ask your dealer for it, or write Coker-Lawton Food Co., HARTSVILLE, S. C.

Adopt Committee's Program.

Richmond, Va., Aug. 26.—By a vote of 9 to 6 the Senate Finance Committee tonight on motion of Senator J. P. Buchanan, adopted all the features of the subcommittee program, with the exception of the increase on public ser-

vice corporations and on coal mines which will come up for consideration tomorrow morning.

No, Maude, dear; water can't run uphill. A crack in the back couldn't possibly develop into water on the brain.

One Day's Test Proves NR Best

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver. It must be plain to any sensible person who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or prevented. This fact also explains why sufferers from indigestion, also suffer more or less from headaches, dizziness and constipation.
