Relieving is the most important at the present Royster's - Order Troops at Charlotte Now Before Lieutenant Governor

As the State capital of North Caro lina, Raleigh's interest in the strike situntion at Charlotte last night-jumped several degrees when the news came that Acting Governor O. Max Gardner was on his way from Morganton to Charlotte to take a hand in the crash there between capital and labor.

The Lieutenant Governor goes Charlotte for a conference with the officials minus the lieutenancy but vested with the full powers of the Chief Executive. GARDNER CAN RESCIND

Under the order of General Royster sent to Captain Shemwell last night, the entire six companies are to be relieved of duty in the Mecklenburg capital by six o'clock this evening. The demobilization might have begun last night under the terms of the order made by General Royster. Captain Shemwell, at the instance of Mayor McNinch, deferred issuing any entrainment orders until after the conference with the Acthours this morning.

If, as a result of the conference, the Lieutenant Governor de ides that the troops should remain in Charlotte "to preserve the peace," he will issue an order directing General Reyster rescind his order of yesterday afternoon. Then the situation would automatically pass from the control of the Adjutant General, where it was under the terms of the Bickett order, and shift to the Lieutenant Governor.

AMPUTATE COVENANT TO SAVE THE LEAGUE

Sentiment Expressed By French Deputy In the Course of Debate

Paris, Wednesday, Aug. 27.-The French deputies are watching with great interest the controversy going on in the United States Senate over the treaty, with unfavorable comments on the Senate's procrastination. One deputy, who heretofore has been a staunch supporter of the League of Nations, said: "If the League of Nations is the cause, then I say amputate the league covenant from the treaty, but for the sake of every body ratify the treaty."

Premier Clemenceau will speak last in the debate on the treaty unless drawn into the discussion. Louis Klotz the finance minister, Captain Andrew Tardieu, of the French peace mission, Louis Loucheur, minister of reconstruction, and Etienne Clementel, minister of com-

the government. From present indications the French have given up hope of prompt action by the American Senate and are looking to Italy's ratification early in September to put the treaty in force.

Montgomery Candidate Is "Entirely Satisfied" With Campaign

Charges Contained in Report By Committee to The Secretary of War

In two words which most every Amercan easily comprehends but seldom atters, ex-Congressman R. N. Page sums ip his campaign thus far for governor. "Entirely satisfied," says he, in answer to the same question that he has een hearing for the last six months.

Mr. Page has just about covered the State, from Kinston to Asheville any how, and finds nothing in the political situation to complain about. He isn't claiming the nomination yet, says he prefers to wait awhile to do that, but after a survey over the State finds himself without a kick to register. On the other hand, he is pleased.

The Montgomery county candidate ran in yesterday to meet with the farmers, who are here holding a convention. This morning he is going to Bailey, in Nash county, where he delivers an address. "Once I was not inclined to brag

about Montgomery," he said yesterday, but I feel differently about it now, for it has come to be one of the prosperous counties of the State.

"Of course various things have contributed to Montgomery's growth," Mr. Page continued, "but as I look back

over my twenty years' residence there, there is one factor which I am inclined to think was the most influential. That factor was the influence of the State College, or A. and M. as it was then. As soon as the agricultural college had gotten under way and a good sized number of our Montgomery boys had come to the college and gone back to Montgomery, I believe the movement for a richer and more productive coun-ty was under way. This had, I am sure, much to do with the development

of our county. "Yes, we raise a good deal of tobacco in Montgomery, but the county is also going strong on livestock. Many more cattle and hogs are being raised than ever before and this is helping us
