

PRESENTS WILSON GOT FROM EUROPE

President Makes Public List of Donations To Satisfy The Republicans

SENATORS MADE MUCH ADD ABOUT NOTHING

Secretary Tumulty Answers Requests For Information, Giving Full and Complete List of Articles Given To President and To Mrs. Wilson From All Sources

Washington, Oct. 6.—Acting upon the express direction of the President and Mrs. Wilson, Secretary Tumulty today made public a statement containing an itemized list of presents received by them while in Europe.

Mr. Tumulty's statement follows: "While on his western trip the President's attention was called to the resolution of Representative Rodenberg, of Illinois, and the statements of Senators Penrose and Sherman in regard to gifts received by the President and Mrs. Wilson while they were in Europe."

"Senator Sherman indicated the basis of the various stories touching this matter when he said: 'Creak-room gossip laid the value of these gifts at half a million dollars.' Senator Penrose said he had been informed the Presidential party 'brought back to this country presents from crowned heads and foreign governments amounting to several million dollars.'"

"Here are the facts: "Outside of a considerable number of small gifts, such as books, walking sticks, an old silver dish found in the ruins of Louvain, war souvenirs made by soldiers or out of war material, and numerous medals struck off in his honor, the following are the only important gifts received by the President in Europe: "In England—Photograph of the King and Queen of England. "A book relating to Windsor Castle. "The freedom of the City of London, presented by the Lord Mayor at Guild Hall. "In Italy—A water-color picture, on bronze enamel, presented by the Queen of Italy. "A bronze figure presented at the Capitol in Rome (a gift from the people). "A figure of 'Italia Victoria' sent to the train at Genoa, either by a school or by the citizens of Genoa. "A set of books from the citizens of Genoa. "A mosaic presented by the Pope. "A bronze figure presented by a body of students. "The President also received numerous honorary degrees from nearly all of the countries of Europe, and many resolutions of respect and gratitude. "Knowing that there is a constitutional prohibition against the President receiving gifts from foreign rulers or states, the President after consulting the Secretary of State, was preparing a list of the presents he intended to ask the permission of Congress to retain, just before he started on his western trip. "In addition to the gifts received by the President the following tokens were presented to Mrs. Wilson while she was in Europe: "In France: "A pin of Parisian enamel with tiny diamond chips, presented in Hotel de Ville by the city of Paris. "Linen hand-embroidered lunch set (small cloth and dozen napkins) in a case, presented through Madame Poincaré and Madame Pichon by the working women of France. "In Belgium: "A small medal by Cardinal Mercier. "A Belgian lace table cover, presented by the queen. "A complete set of the 'Libra Belgique' (the paper published during the German occupation), presented by the king, in leather folder. "In Italy: "A reproduction of the 'Wolf and Romulus and Remus' in gold, presented by the people through private subscription. "A piece of lace in leather case, presented by Signor Orlando in behalf of his colleagues. "A small reproduction in silver of a pitcher found in the ruins of Pompeii. "In making this statement, I am acting upon the express direction of the President and Mrs. Wilson."

TURKISH PROBLEM CAUSES TROUBLE AT CONFERENCE

Press Considers That Asia Minor Has Escaped Control of Constantinople

Paris, Oct. 6.—(By the Associated Press.)—The new situation in Turkey which has arisen through the resignation of the cabinet is regarded in French circles as confronting the peace conference with another grave and urgent problem. The downfall of the government is attributed to the occupation of Konieh by Nationalist forces under Mustafa Kemal, who according to some estimates, has 200,000 men.

The press generally considers that Asia Minor has entirely escaped from the control of Constantinople and that the young Turks are regaining the upper hand. Some of the newspapers point out that there is no force available to deal with the refractory elements; others ask whether the entente powers are sufficiently united and inclined to the necessary powerful intervention. French official circles direct attention to the fact that Djemal Pasha, the new War Minister, is the political ally of Mustafa Kemal, and the French generally are of the opinion that the change in the cabinet may result in stabilizing the government and extending its authority over greater territory. The sultan's decree, according to the version received by the French authorities, outlines a policy which appears to embody an endeavor to reach an understanding with the Nationalists.

The Strong Withstand the Heat of Summer Better Than the Weak

Old people who are feeble and young people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking GROVE'S TASTELESS CHILL TONIC. It purifies and enriches the blood and builds up the whole system. You can soon feel its strengthening, invigorating effect. 60c.—Adv.

Tense Situation In Steel Strike Calls Out Troops

(Continued from Page One.)

service, the order stated, he would be held "pending further investigation." "This latter provision was taken to mean that discharged soldiers wearing their army uniforms in the city would be held in custody. "Steel plants throughout the district continued to operate today with varying forces of men at work. As on previous days, plant officials claimed that many additional men had reported for work but strike leaders asserted that only a few unskilled workers had gone back. "After an investigation following the arrest of a negro on a charge of carrying a weapon, C. E. Huber, assistant postmaster at Gary, declared today that many firearms were reaching negroes at Gary through the mails. He expressed the belief that post office authorities could not refuse delivery of the arms after they once had been placed in the mail. "Wants Cotton Labeled. "Washington, Oct. 6.—Baling of ball or machine cotton without being marked with such words would be prohibited under a resolution introduced today by Representative Green, Republican, of Massachusetts. A penalty of \$200 is imposed for violations of the resolution. "Around the World Derby. "New York, Oct. 6.—The Aero Club of America and the Aerial League of America today announced the appointment of a commission to arrange for the first aerial derby around the world to be held in 1920.

BOTH CLUBS SUFFER SLUMP IN BATTING

Reds Are Hitting For 213 Compared With Mark of 190 By Chicago

Chicago, Ill., Oct. 6.—Both the Cincinnati and Chicago clubs suffered a slump in their batting today as a result of the great pitching duel between Williams, the star Southpaw, and Eller, Moran's great right-hander. The former held the National League championship to four hits while the American League representatives gathered only three off Eller. Tonight the clubs are separated by twenty-three points, with the advantage in favor of the National League club. Cincinnati is hitting for a club average of 2.13, compared with a mark of .190 made by the Chicago club. Four men on the Moran aggregation are above the select "300" mark. They are Reuther, with his perfect score of 1.00; Wings and Fisher with .90; and Eller with .833.

On the Sox aggregation four men are hitting in the select crowd but none has a perfect average. McMillan leads with a mark of .900, while Joe Jackson, the mighty slugger of the American, is batting .816. Senk has an average of .508, while Weaver is just under the wire with .300. The National League club has made thirty hits in 141 times at bat, while its rival has gathered 29 in 153 times at bat.

ELLER'S WORK STANDS OUT AS BIG FEATURE

Cincy Twirler Pitches Forty-six Strikes; Williams Gets Across 43 Strikes

Chicago, Ill., Oct. 6.—"Hod" Eller's sensational pitching for Cincinnati in today's game of the world series stood out clearly in the pitching analysis. After his two-base hit had paved the way for his team's four runs in the sixth inning, he took chances with the Chicago batsmen, but in the first five sessions he was using his best brand of shots, hops and benders on every occasion. Of the forty-six strikes which Eller pitched, 26 came in the first five innings and half of that number were recorded in the second and third, when he struck out six successive batsmen. In the third inning Leibold was the only Sox player to touch the ball, and his best was a high foul into the upper tier of the grandstand for a strike. While Eller's work was unusual, Williams pitched a fine brand of ball, and had a creditable record. He had forty-three strikes in eight innings, and only 28 balls, a performance which was far ahead of his exhibition at Cincinnati in the second game of the series. In spite of the theory that time is money, most of the strikers demand more money for less time.

NATIONAL AUTO. THEFT LAW PASSED

(Continued from Page One.)

ing for information concerning exports of sugar. The Senator says he is informed there is a ample supply of sugar in Canada, which is now selling at sixteen cents per pound retail. He inquires whether the product of American refineries other than sugar in bond brought in to be refined especially for foreign countries is being exported from the United States. Senator Simmons has asked immediate attention and reply to his telegram. Meanwhile, Representative Edward W. Fox today received telegrams from Selma, North Carolina, saying that large quantities of fruit are going to waste in that locality because of the lack of sugar for canning and preserving. Mr. Fox, too, has protested to the coalition board. Godwin Gets Passport. Representative Hannibal L. Godwin today took initial steps to obtain a passport for Mrs. William C. Lee, wife of Lieutenant Lee, of Dunn, who is still with the American expeditionary forces in France. The War Department has now lifted restrictions regarding the issuance of passports to men in foreign service, and Mrs. Lee will probably soon join her husband in France. The request for the passport was made by Eugene T. Lee, postmaster at Dunn, a brother of the army officer.

Representative Fox called at the Post-office Department today to examine the records in the Louisville postoffice site row. This wrangle, as reported in previous dispatches, concerns whether the postoffice shall be moved from a building owned by G. W. Ford to that owned by J. M. Allen. The Postoffice Department promised a final answer in the controversy within a day or two. Fish Scrap Price Too Low. A large delegation of manufacturers of fish products of the eastern coast of North Carolina, came to Washington today to protest against proposed Federal regulation of the price paid for "fish scrap," which is used in making fertilizer. The Department of Agriculture has tentatively suggested a price of \$3.75 "per unit of ammonia," as this product is sold, whereas the fishermen say they are now getting \$7 "per unit of ammonia" and are losing money.

The delegation from North Carolina, which joined other delegations of fish manufacturers from Maine to the Gulf, includes: William M. Webb, C. S. Wallace, J. C. Taylor, J. A. Guthrie, M. S. Lee, and T. G. Taylor, of Morehead City; E. J. Willis, W. A. Mace and Mr. Donne, of Bogue Sound; Albert Marks and W. B. Blades, of New Bern. Fish Scrap Industry. Mr. Webb, who was formerly Secretary to Representative Brinson, but is now in the fish business, asserted that in Carteret county alone about eight hundred men would be thrown out of work if the "fish scrap" price is lowered to \$3.75. The factories presented today balance sheets showing that many of them are making no money at the present price and are operating at a temporary loss hoping that fall business will recoup their losses. Suggested action by the Department of Agriculture is under the food control act giving prices fixing powers to the government. The thing mainly at issue is the price of fertilizer to the farmers, but the fertilizer folks today seemed to agree with the North Carolina fishermen that they were not making large profits on "fish scrap" at the present rate.

OUR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy. Any druggist can supply you with Zemo, which generally overcomes skin disease. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 25c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins. The E. W. Ross Co., Cleveland, O.

ONLY A POWERFUL MEDICINE WILL END RHEUMATISM

It matters not whether you have had agonizing rheumatic pains for 20 years or distressing twinges for 20 weeks, Rheumatism is mighty and powerful enough to help drive rheumatic poisons from your body and abolish all misery, or the cost, small as it is, will be cheerfully refunded. Druggists everywhere are authorized to sell Rheuma on a no-cure-no-pay basis. It's absolutely harmless and after taking the small dose as directed once a day for two days you should know that at last you have obtained a remedy that will conquer Rheumatism. For over ten years throughout America Rheuma has been prescribed and has relieved thousands from misery. King-Crowell Drug Co., will supply you and guarantee money refunded if not satisfactory.—(Adv.)

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble. Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment. Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease. If cathartic or laxative is needed take Hood's Pills. Purely vegetable.—(Adv.)

The thing mainly at issue is the price of fertilizer to the farmers, but the fertilizer folks today seemed to agree with the North Carolina fishermen that they were not making large profits on "fish scrap" at the present rate. The hearings are being conducted by a department board headed by Milton Whitney, chief of the Bureau of Soils. The delegation will remain over for a day although an immediate decision is not expected. Closing down of the fish products factories along the Eastern coast of the State is predicted by Mr. Webb and others if the price of this fertilizer ingredient is lowered.
