

POLICE WANT THIS NEGRO SLAYER FROM BEAUFORT

Another Man-Killer Dies From Effects of Privation While Evading Arrest

New Bern, Nov. 17.—The local police and county officials are tonight securing the city and surrounding section in search of Joe Taff, a Beaufort negro, who early this morning killed another colored man at the place. Taff is reported to have been seen near New Bern today.

James Morton, Jr., of Mayeville, is dead as the result of privation and starvation endured during several months of hiding in the swamps of Jones county, while officers all over this part of the State were searching for him on a murder charge. Morton came out hiding a few days ago, gave himself up and was placed in a local hospital to be treated. He failed to respond to treatment and death followed. His body was this afternoon sent to Mayeville for interment.

John Watson (colored), wanted for murder at Portsmouth, Va., is in the county jail here awaiting return to that city to be placed on trial. Watson was located and nabbed by the local police.

The body of S. B. French, a prominent resident of Jasper, who died at a local hospital last night, was this afternoon interred at his old home. The deceased was a prominent farmer and business man. He is survived by his wife and ten children.

Limit Coal Deliveries in Southern Region To Exclude Manufacturers

will be inconvenienced to some extent, according to manufacturers, by the order of the Regional Director of the Railroad Administration in Atlanta restricting the delivery of coal to the first five classes in the priority list since coal is essential for heating the buildings, for drying and other processes in producing the many war-time articles. Reports from Spartanburg and Greenville, S. C., centers of the textile industry in that State, declare that fully ninety per cent of their mills are dependent on coal and it is said that the large number of the mills in Greenville would be forced to close down if coal is cut off for five or six weeks.

MRS. LETTIE COTTON DIES AFTER LINGERING ILLNESS

After a lingering illness, Mrs. Lettie P. Cotton died yesterday at the home of Mr. S. R. Moore at Cary. She was 60 years old.

Widow of the late Dr. A. T. Cotton, she was the daughter of Sidney and Mary A. Page. She had been a member of the Baptist church since 18 years old and always attended services when able.

The funeral services will be conducted at 11 o'clock today at Morrisville by Dr. T. W. O'Kelley, pastor of the First Baptist church of this city.

Dry Bill Constitutional. Chicago, Nov. 17.—The liquor interests were given another setback today when Judge George A. Carpenter handed down a decision in the United States District Court which held that the war-time prohibition act and the Volstead enforcement act were constitutional. Judge Carpenter announced that Judge Lewis Fitzhugh, of Peoria, Ill., had concurred in the decision.

French Hold Elections. Paris, Nov. 17.—(By The Associated Press)—Complete returns of Sunday's elections for 404 seats in the chamber of deputies—almost two-thirds of the chamber—show that 229 new members have been elected. The extreme Socialists will have thirty-five seats, having won six and lost thirty-seven. It is noteworthy that the dissident Socialists who separated from the United Socialist party won six seats and lost none. The Independent Socialists won sixteen seats.

Sailor's Mind Deranged. Norfolk, Va., Nov. 17.—Naval Hospital surgeons in attendance on Harry Joseph Harley, enlisted fireman in the navy, who was found last Friday under a bungalow at the Hampton Roads base, in a semicomatose and actually on the verge of starvation declared today that the young man was the victim of mental derangement, and that it was probably due to shell shock received in France, while serving in the American army.

Ends Stubborn Coughs in a Hurry For real effectiveness, this old homemade remedy has no equal. Ready and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare, and really there is nothing better for coughs.

Into a pint bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, the full pint takes about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most tried remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "Pinex" with directions and don't accept anything else. Guaranteed to give you the relief you want or money in full. The Pinex Co., St. Wayne, Ind.

JUDGE BIGGS WINS IMPORTANT CASE

lent representations of high officials of the Southern Pacific Railroad.

222 Million Gallons. The oil experts estimate the lands to contain 250 million gallons of oil and at the time the suit was brought the lands in controversy were estimated to be worth twenty million dollars, but by reason of the advance in the price of oil and the drilling of fine wells on the adjacent lands, the value is probably much greater. Asked as to his connection with the case, Judge Biggs said that in 1915 the case was heard in the Federal District Court of California and decided in favor of the Government. The railroad appealed to the U. S. Circuit Court of Appeals and in May, 1918, that Court reversed the lower court, decided in favor of the railroad and dismissed the case, and the Government appealed to the Supreme Court, and that he was then retained to take charge of the appeal, prepare the brief and argue the case in the Supreme Court. He said his brief was about 250 pages—the record in the Supreme Court covered about 4000 printed pages.

Interest to Carolinians. The people of the State will be much interested in the Government's success in winning the noted case against the Southern Pacific, by reason of the fact that after the case had been lost by the Government the Attorney General secured the services of a North Carolina lawyer to handle the case, and by the further fact that the lands involved embrace what is known as Petroleum Naval Reserve No. 1, which lands the Secretary of the Navy has been making such a vigorous fight to hold that they might be preserved for the use of the Navy as a sufficient quantity of fuel for its gas-burning battleships and cruisers and other naval vessels.

Mr. Daniels was in the city yesterday and when informed of the decision he was highly gratified and said: "Great Value to Navy."

"The decision will be of great value to the Navy, particularly now that the price of oil has soared sky-high and all our new battleships and dreadnaughts and destroyers are all burners. We never doubted that the lands belonged to the Navy, but when the Circuit Court decided in favor of the Southern Pacific Railroad it was generally believed that the Navy had lost this valuable Naval Reserve. When Judge Biggs came into the case he spent several months in California, acquainted himself with all conditions, mastered the law relating to mineral lands, and prepared a brief, which eminent lawyers in Washington regarded as an able and conclusive argument.

Presented Strong Case. "I took the deepest interest in the case, and at the time of Judge Biggs' argument was in close touch with the able lawyers in the Department of Justice, some of whom declared that Judge Biggs had presented the case and emphasized the fraud in a manner that carried conviction to all who heard him. The decision today shows that the facts and the law which he pre-

sented are correct and that the Government has won the case."

ing, the leaders on both sides agree that very few will be accepted by the Senate. The thirteen committee reservations already adopted, together with one relating to the labor provisions and one to voting equality in the league, are expected to about tell the story of Senate qualifications.

Reservations Voted Down. The two final reservations on the committee program which were rejected today never had been pledged the support of the mild reservationists and on the roll-call they voted with the Democrats. The first of the proposals would have declared the unwillingness of the United States to assume any responsibility for the German overseas possessions which under the treaty are ceded to the big five powers pending establishment of the mandatory system. The vote on the proposal was 54 to 29, with Senators Reed, Missouri; Shields, Tennessee, and Walsh, Massachusetts, Democrats, voting for the proposal and the following Republicans joining the Democrats in opposition:

Colt, Rhode Island; Cummins, Iowa; Edge, New Jersey; Elkins, West Va.; Fernald, Maine; France, Maryland; Frothingyush, New Jersey; Hale, Maine; Jones, Washington; Kellogg, Minnesota;

Don't Experiment with Catarrh; It Often Leads to Dread Consumption

You Will Never Be Cured by Local Treatment With Sprays

Catarrh is a condition of the blood and can not be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results.

Phon-Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus Catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results in even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the Medical Department for expert advice as to how to treat your own case. The other committee proposal, rejected 66 to 36 was a blanket reservation by which the United States would exclude from league jurisdiction all questions affecting its honor and vital interests. It got three Democratic votes, Senators Reed, Shields and Gore, Oklahoma, supporting it, while the following Republicans voted against it: Colt, Cummins, Edge, Hale, Kellogg, Kenyon, McCumber, McNary, Nelson, Smoot, Sterling, Townsend, Warren,

Keyes, New Hampshire, and Leffroot, Wisconsin.

A reservation by Senator Owen, Democrat, Oklahoma, designed to assure self-government for Egypt was voted down 45 to 37, and another presented by him declaring the treaty was interpreted as perpetuating the principles of the armistice and the fourteen points went out by a viva voce vote. The former proposal got the votes of seven Democrats, Senators Owen, Gore, Reed, Shields, Walsh, Massachusetts; Phelps, California, and Chamberlain, Oregon. Eleven Republicans of the mild reservation group voted against it.
