

WARNING OF PRICE HAZARDS ON FLOUR

Wheat Director Sends Circular to Holders Of 42,000 Licenses In America

REDUCE COMMITMENTS HE SAYS IN LETTER

Finds Even Now Element Of Population That Wants To Practice Thrift Instead Of Extravagance, He Says; Grain Corp'n Not Now In Market For Wheat Or Flour

New York, Jan. 11.—Warning of price hazards which may confront wheat and flour holders after the withdrawal of government control when the activities of the Grain Corporation are brought to an end in June was contained in a circular sent out today by Julius H. Barnes, wheat director for the holders of the 42,000 licenses he has issued. Emphasis is placed by Mr. Barnes on the statement that the reduction of commitments to the minimum required for the conduct of necessary current business will be a wise commercial policy for the grain trade upon the termination of two years of official stabilization and in view of the present world consumption. There is even now an element of the population which has demonstrated a desire to practice thrift is evident from the reception given to the Grain Corporation's pure wheat flour which the government recently made available to the consumer at reduced prices, the wheat director states. He also predicts that thrift as a national characteristic "may become contagious as extravagance has been." At the same time he attributes recent price advances in certain grades of flour to "restricted transportation and extraordinary indifference to expenditures by a section of our people."

"There is no guide to point the way to commercial security," Mr. Barnes says. "Individual judgment must solve unusual problems, soon to be faced. The Grain Corporation's weekly reports of trade data will continue until June 1. Our total wheat crop exceeded that of 1918."

"Exports for the past six months are 33,000,000 bushels less than last year. Difficult finances abroad, forcing utmost curtailment of purchases, will continue. Present purchases, still to be shipped largely, supply foreign requirements for a considerable period. Cheaper rye will replace some wheat. The United States can apparently export 50,000,000 bushels of rye, against 35,000,000 bushels last year."

"With no immediate prospect of further purchases of flour by the Grain Corporation, it is fairer to ask the mills to discontinue their weekly offerings until we can advise some prospects of further purchases. The export-outlet is open to them individually without necessity for permits."

"Farmers, millers and dealers (outside of the Grain Corporation) own and are carrying 437,000,000 bushels of wheat, against 299,000,000 a year ago. Seriously ponder on this statement. After June 1 next the Grain Corporation authority to buy wheat at the guaranteed price expires, and thereafter the security of that basis is withdrawn. The fact that present prices largely rule over the government guarantee should not obstruct a study of conditions which may develop and at a time when that price assurance no longer exists. America's complex and delicate marketing structure must be preserved, and prepared to function when this agency retires."

"Mexico is fertile soil for soviet seeds to be sown in."

Carranza Not a Socialist.

The writer said Carranza was not a socialist but there was a good reason to be, a moderate policy of state socialism would have been put into practice if he had not been constantly menaced by the dastardly words of intervention."

"The reason for intervention in Mexico is fear of Bolshevism," the writer said. "The result of intervention—if it is attempted—will be revolution in the United States."

CONGRESS MUST BE CAREFUL TO AVOID ANOTHER LOAN NOW

Secretary Glass Warns Against Enlarged Expenditures Or Lower Taxes

TREASURY DEPARTMENT NOW PAYING ITS WAY

If Present Tax Level Is Retained And Expenditures Are Kept Down, All Will Be Smooth Sailing, According to His Report; Further Issues Of Certificates Necessary

Washington, Jan. 11.—Another liberty loan will be necessary if Congress embarks on "new fields of large expenditure or reduces the aggregate volume of taxes," Secretary Glass declared in a statement tonight setting forth in detail the government's financial condition. If the present tax level is retained and new expenditures are kept down the loan has come in the tide of government financing, the Secretary asserted.

Barring the Congressional action mentioned, Mr. Glass believed the Treasury would be able to pay its way from tax and war salvage receipts. Although further issues of Treasury certificates of indebtedness may be expected they will be redeemed from cash on hand rather than through the sale of new issues of certificates for the first time since late in 1917. The Treasury secretary directed attention to statements made early in September in which he expressed the opinion that the strain had lessened and that after January 1, the government's financial problems would be more easily solved.

As indicative of the progress made by the Treasury in solution of these problems Secretary Glass pointed to reductions between September 1 and January 1 in the nation's gross debt and in the two classes of certificates of indebtedness outstanding. The gross debt on September 1st, was \$26,596,701,648 and \$25,837,078,807 on January 1. Reduction in the floating debt unamortized Treasury certificates of indebtedness of \$622,053,250 has been made since September 1, leaving the total outstanding obligations of this nature at \$3,578,485,800 on January 1. A reduction of \$685,726,590 was reported for the same period in the outstanding so-called loan certificates, leaving \$1,326,961,000 of these yet to be funded.

The loan certificates outstanding January 1 were of issues maturing January 2, January 15, February 2, and February 16. All of these, the Secretary said, have been or will be paid out of cash on hand January 1, or from the proceeds of sales of tax certificates issued in anticipation of any one of four tax instalments due during the present year. Mr. Glass believed this indicates success for the Treasury's plan to avoid further large funding operations and for financing the unfunded portions of the war debt.

NO FORMAL ACTION TAKEN ON TREATY

Democratic Senators, However, Discuss Republican Counter-Proposals

REPUBLICANS AWAITING REPLY FROM DEMOCRATS

Leaders While Pleased With Concessions By "Mild Reservation" Republicans Assert That More Pronounced Spirit Of Compromise Must Be Shown Now

Washington, Jan. 11.—Democratic Senators today discussed the series of counter-proposals advanced yesterday by Republican Senators advocating ratification of the peace treaty which were in answer to the compromise reservations put forth several days previous by the group of Democrats led by Senator Kendrick, of Wyoming.

There were no formal meetings of the Democratic Senators during the day to take up the Republican counter-proposals, many of minority members desiring time to consider the counter-proposals before joining in any conference, of which the proposals would be the subject.

Senator Hitchcock, of Nebraska, leader of the administration forces, said he had not seen the Republican counter-proposals, but expressed sympathy with any movement having to do with bringing the two dominant factions together. Democratic leaders generally, while pleased with the concessions made by the "mild reservation" Republicans, asserted that a more pronounced spirit of compromise must be shown before any agreement could be reached. Some of the Democrats said that only the change in the Republican reservation program of last session providing that the Senate qualifications would not have to be adopted affirmatively by the other powers, met with their entire approval.

Republican Senators of the group advocating ratification awaited some reply from the Democrats before proceeding further with negotiations looking toward a compromise. The two compromise proposals were considered as having postponed the threatened calling up by Senator Underwood, Democrat, Alabama, of his resolution providing for a formal conciliation committee.

MOVIE THEATRE PLAN TO CAMPAIGN AGAINST UNREST

New York, Jan. 11.—A government campaign to combat the national unrest through the "movies" was launched here today at a meeting of prominent motion picture producers who were addressed by Franklin K. Lane, Secretary of the Interior. Mr. Lane, who will direct the campaign, explained that its purpose was to aid a solving government problems by inspiring the American people with fortitude and patriotism.

The campaign comes as a result of a request of the joint committees of the House and Senate made last December at Washington urging the motion picture men to take up such a work. The committee in charge of the campaign consists of Secretary Lane, chairman; Adolph Zukor, Lewis J. Salznick, Harry Crandall, William Brady and Major Raymond W. Pullman.

BUFORD REACHES KIEL WITH HER CARGO OF REDS

Kiel, Saturday, Jan. 10.—The American army transport Buford, under a strong guard, is lying two kilometers from the main Kiel docks in the repair basin. No one is allowed to go on board. The torpedo boat destroyer Bullard is accompanying the Soviet ark. The repairs to the damaged boilers of the transport will require at least two days, and the vessel is expected to resume the trip Monday. No announcement has been made concerning the Buford's destination.

basic principles of Democracy and to re-assert with vigor and emphasis its traditional belief in the ideals of righteousness and justice in the administration of government. The Republican spirit of braggadocho is utterly without foundation. It is based upon the assumption that an immense corruption fund and an insidious appeal to selfish interests will result in returning that party to power. It leaves out of consideration the appeal to principle which Democracy always makes, and which at this time will prove unusually efficacious. A party of principle can weather the storms of adversity and survive the onslaughts of the avaricious and time serving hordes, and look with confidence to the future. And that's the spirit of the Democratic party now as evidenced by the utterances of all the leaders of every phase of thought in the party.

"The defeat of 1918 augurs well for the success of 1920, since it furnishes a present opportunity to compare the splendid record of achievements of the Democratic party with the dismal failure of the Republican majority in Congress, with no record at all except one of unfulfilled promises. The Republican party faces this campaign bankrupt in leadership and insolvent as to issues. The Democrats of the nation are united, enthusiastic and aggressive, and the spirit of the Jackson Day meeting is the spirit of victory and the militant hosts of Democracy will gather from the nation in the Golden West on June 28 to name the next President of the United States and go forth with a determination to vouchsafe to the people of the United States another period of prosperity and development under the wise and beneficent administration of affairs by the Democratic party."

MRS. REID HAS 25-POUND GAIN

Says Health Has Been Completely Restored by Taking Tanlac.

"I was almost a complete nervous wreck when I started taking Tanlac, and it has not only completely restored my health but I have gained twenty-five pounds besides," said Mrs. C. H. Reid, 603 Chestnut street, Portsmouth, Va.; recently.

"For three years," she continued, "I was troubled with indigestion, nervousness, loss of sleep and headaches. My food soured on my stomach and formed gas that pressed up into my chest and throat and around my heart so that I would have awful smothering spells. I had nervous headaches and pains in my back and shoulders would almost drive me wild. I would get dizzy and nervous I would almost scream; I got weak to eighty-five pounds and was so weak I would just give out several times during the day."

"After trying everything else I knew of without getting any better, Tanlac gave me a splendid appetite and now I can eat anything and my digestion is perfect. I am not troubled at all with gas or palpitations, dizziness or smothering spells and I sleep soundly all night. Headaches, nervousness, pains in my back and shoulders are all gone and I never have that tired, worn out feeling any more." All Druggists sell Tanlac—adv.
