

NEW RULES FOR SOUTHERN LEAGUE

Delay in Fixing Schedule Because New Orleans Has Complaint

Atlanta, Ga., Feb. 23.—Plans for the 1920 baseball season of the Southern Association were practically completed at the annual spring meeting of the league here today.

The directors, delayed in meeting until the afternoon, spent their time in revision of rules and thrashing out the question of adopting a playing schedule this year. It was considered possible that before the night was over, one of the two tentative schedules might be adopted, but President A. J. Heinemann, of the New Orleans club, was reported to have a protest on hand against the number of Sunday dates given his club.

Decisions made today, as announced by C. S. Parker, acting secretary follow:

Adoption of the major league revisions in playing and scoring rules with the exception that the penalty for illegal delivery in pitching as defined in the rules would be a "ball" if runners are on base or a "ball" if no base is occupied. The Southern already had outlawed the "pit ball."

Raising of the price of grand stand seats to seventy-five cents, which includes war tax.

Allowing players two dollars a day for meals while the club is on the road instead of \$1.75 provided last year.

Fixing the guarantee to visiting clubs when rain interferes at fifty dollars a day.

Old People Who Are Feeble and Children Who Are Pale and Weak Would be greatly benefited by the General Strengthening Tonic Effect of **GRONOV'S TASTELESS CHILL TONIC**. It builds up the blood and builds up the whole system. A General Strengthening Tonic for Adults and Children. 60c.—Adv.

WILSON FARMER GETS A SHAVE IN CROWDED SHOP

Wilson, Feb. 23.—Saturday afternoon a farmer entered a Wilson barber shop and on taking in the situation found all of the chairs full and a long line waiting for the tonsorial artist to call "next." Seeing no chance for a quick "scrape" and having a long way to go he resorted to strategy. Placing his hands on his hips he slumped up and down the shop muttering: "This du will kill me yet; I should have taken my wife's advice and remained in bed longer." Then rapidly he sneezed, three times—ker-cho-cho! Ker-cho-ah-h!!! The crowd rushed out and four chairs were emptied of men "half raked over." Turning to the few who remained he remarked: "Gentlemen, I am thankful to say that neither myself or family have had the greud malady."

DUBLIN CITIZENS MUST STAY IN AFTER MIDNIGHT

Dublin, Saturday, Feb. 21.—Friday's decree stipulating that after February 23 all persons in the Dublin metropolitan district must remain indoors between midnight and five o'clock a. m. was entirely unexpected, the government some months ago having by proclamation taken power to apply it.

Fixing the hour at midnight will cause minimum interference with normal life in Dublin, which has few night entertainments and goes to bed early, but it will affect a large class of night workers, who are alarmed at the announcement that virtually no one except clergymen, doctors and nurses, will get the necessary permits to be out of doors between the hours mentioned.

When applied to for permits today, the police said they had nothing to do with their distribution and that the whole matter was in the hands of the military.

The order creates an interesting puzzle for the new corporation as nearly all city cleaning is done at night. A cleansing committee will consider this phase of the situation at a special meeting Monday.

DAY STUDENTS WILL BE ALLOWED TO RETURN TO PEACE NEXT WEEK

Since the health conditions at Peace Institute have been so favorable during the epidemic, the quarantines will be continued in order that the same conditions may still prevail. The school has had no cases of influenza this year.

The day students will be allowed to return next week.

Veteran Educator Better

Asheville, Feb. 23.—Col. Robert Bingham, head of Bingham Military School, who has been ill at his residence at the school, at Bingham Heights for several days, is reported as being some better. Col. Bingham, who is 81 years of age, having been born September 5, 1839, at Hillsboro, is believed to be suffering mainly from the infirmities due to old age.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pain, no griping, no injury to the gums or danger from acid foods—they stimulate the liver and bowels.

Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they clear clouded brain and perk up the spirits. 50c and 25c a box.

EPIDEMIC'S GRIP ON STATE WEAKENS

Only 729 Cases Reported To State Board From State, 17 From Raleigh

Influenza is releasing its grip on Raleigh and North Carolina, 729 new cases being reported from the various counties and 17 from Raleigh yesterday, with one death.

The Raleigh emergency hospital in the High School was abandoned yesterday and the five still too ill for discharge were transferred to Rex Hospital. In the meantime the High School will be put in shape for the reception of students and the resumption of school work Wednesday. The public schools resumed, after the forced vacation, Monday.

A committee composed of three members, probably Mayor T. B. Eldridge, representing the city; Major J. J. Bernard, representing the county commissioners, and Major William Joyner, representing the Red Cross, will be assigned the task of winding up the affairs of the Emergency Hospital. It is requested that all those who have bills against the hospital turn them in this week or they will be ignored. It is estimated that the hospital cost approximately \$1,200.

New cases of influenza reported to the State Board of Health yesterday from the various counties, with the deaths follow: Alamance, 12; Chatham, 99; Durham, 182; Franklin, 6 with 1 death; Harnett, 25; Henderson, 2; Johnston, 161; Lee, 20, with 1 death; Lenoir, 29; Montgomery, 3; Perquimans, 1; Sampson, 26; Wake, 12; Washington, 23; Watauga, 5; Yancey, 8.

Reports from cities follow: Greensboro, 2 with 1 death; Wilmington, 4 deaths; Raleigh, 17 with 1 death; Goldsboro, 4 deaths.

BRITISH WIVES AS CHATTELS.

Judge Denies Claim For Damages From Co-respondent.

London, Feb. 23.—British women awake today to the fact that, under the law of the land, they still are virtually the absolute "property" of their husbands.

Justice McCardie, one of the few judges in England, having the power to grant divorces, disclosed this situation in a decision denying claims for damages sought by a woman from a co-respondent. As a result feminists are enraged and already have started a campaign to bring about alterations in the law.

The decision held that no British woman could collect damages from a co-respondent for the loss of a husband's affections because a wife does not have the same right to her husband's services as he has to the wife's. The justice stated that the law does not permit punitive damages for misconduct, but compensation for the loss of the services of the wife.

Proud Parade.

New York, Feb. 23.—Forty survivors of the "Yanps" volunteer firemen who fought fires half a century ago, held their last parade today to lay a wreath on Washington's monument in Union Square. Their average age was 78, but they were reluctant to admit their marching days were over as they seized for the last time the rope which dragged their antiquated fire engine, the pride of the department in 1842.

"I am frightfully despondent," said the magazine illustrator. "I can't do any work at all." "Aren't you doing any drawing?" asked the sympathetic friend. "I haven't drawn anything but a sober breath for months," replied the

BENSON URGES EXPANSION FOR THE AMERICAN NAVY

Chicago, Ill., Feb. 23.—America's future naval policy must be one of expansion and increased efficiency, Admiral William S. Benson, recently retired from the navy and at present head of the Shipping Board, declared in an address tonight.

The strengthening of the navy was not for aggression, he said, but to further the cause of commerce and to maintain America's status among the nations of the world.

"Our navy must equal in size and navy in the world, and from the standpoint of efficiency must be even better," Admiral Benson said. "I favor a close alliance between this country's commercial interests and the navy, for in times of peace it is the function of the navy to facilitate foreign commerce."

Asheville Keeps Ban On.

Asheville, Feb. 23.—There seems to be little likelihood of the ban being lifted in Asheville during this week, according to statements made last night by the health officials. In the first place it is stated that a fare up from the large crowds which gathered in the streets here on Friday, to greet Gen. J. J. Pershing, will not make its appearance before Tuesday, if it comes, and there seems to be small chance of the number of cases getting down to normal before another week, even if no flare up comes.

WASHINGTON'S MEMORY HONORED BY BRITONS

Prominent Englishmen Join Americans in Toasting Father of His Country

London, Feb. 23.—Three hundred prominent Britons and Americans, as guests of the Lord Mayor of London, this afternoon toasted Washington as "one of the heroes of the British race," and acclaimed love of justice, freedom, humanity and peace as common bonds uniting the two peoples.

The occasion was a luncheon commemorating the first American president's birthday anniversary and marking the first of a series of functions in connection with the ter-centenary of the Mayflower's sailing.

Vicount Brien, the former British ambassador to the United States, proposing the toast, "Success to the ter-centenary Celebrations," said the celebration would be celebrated in America

This Is Better Than Laxatives

One NR Tablet Each Night For A Week Will Cure Your Constipation and Make Constant Dosing Unnecessary. Try It.

Poor digestion and assimilation mean a poorly nourished body and low vitality. Poor assimilation may be caused by indigestion, fermentation, putrefaction and the formation of poisonous gases which are absorbed by the blood and carried through the body.

The result is weakness, headaches, dizziness, coated tongue, inactive liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, sallow complexion, pimples, skin disease, and often times serious illness.

Ordinary laxatives, purges and cathartics—sulfate, pills, calomel and the like—may relieve for a few hours, but real, lasting benefit can only come through use of medicine that tones up and strengthens the digestive as well as the eliminative organs.

Get a 25c box of Nature's Remedy (NR Tablets) and take one tablet each night for a week. Relief will follow the very first dose, but a few days will elapse before you feel and realize the fullest benefit. When you get straightened out and feel just right again you need not take medicine every day—an occasional NR Tablet will then keep your system in good condition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well.

Nature's Remedy (NR Tablets) are sold, guaranteed and recommended by your druggist.

and Holland, and he hoped it would be celebrated no less heartily in England. He declared that the two nations must stand for their common ideals in peace as they have in war, and called attention to the fact that "the problems of peace are harder than those of war times."

Lord Burnham, in seconding this toast, affirmed: "What we need is understanding, not only of the eye and mind, but above all, of the soul."

The Mayflower's manifest, he added, represented the greatest cargo of "concentrated essence of world power in the world's history." He declared that the re-establishment of the old Washington home at Sulgrave Manor would be the erection of "a temple to the future of mankind."

The American ambassador, John W. Davis, in responding, said there was no reason why Britons and Americans everywhere may not "again re-dedicate themselves to the perpetuation of the ideals for which Washington stood." Of all the mad, misguided men in the world today, declared the ambassador, he is most mad and misguided who would cast the apple of discord between the two English-speaking nations.

Lord Reading proposed "The Memory of Washington and the Friendship of the British and American Peoples." He characterized Washington as "the man who defeated us and one of the best men we ever produced."

May Ask Congress To Investigate The Oteen Hospital

(Continued From Page One.)

they were overworked and poorly fed until Head Nurse Miss Chicone, or Sheehan, came and did what she could to better conditions. One trouble was that most of the detachment men ought to have been discharged long ago and were so dissatisfied that naturally many of them were disinclined to work as orderlies though many did fine work, thus making the nurses work doubly hard. I do hope that you will insist on a thorough examination being made and everything done to alleviate the sufferings of these poor men. In your examination don't fail to look into the treatment of the sick nurses.
