

CENTER FIGHT ON REED IN MISSOURI

Democratic State Convention Must Pass On His Appointment As Delegate

Joplin, Mo., April 22.—The League of Nations covenant and the stand of United States Senator James A. Reed, of Missouri, league opponent, loomed tonight as the principal issue before the Democratic state convention which convened here today to elect delegates to the National convention and adopt a state platform.

Another issue was brought forward late today when Frank H. Harris, of Bella, candidate for the Democratic nomination for governor announced he had filed with the committee on resolutions proposed action favoring an amendment of the Volstead prohibition enforcement act to permit the manufacture of beer and light wines.

The first open movement in the Reed controversy came this afternoon when the fifth district delegates (Kansas City and Jackson county) in caucus selected Senator Reed and Joseph Shannon to be district delegates to the National convention at San Francisco.

The caucus also adopted a resolution declaring that the delegates were "elected with freedom of action on the platform to be presented to the National convention any resolution by this state convention to the contrary notwithstanding."

Under convention rules all district selections must be approved by the convention.

Senate Convicts Former Premier of French Nation

(Continued from Page One.) in a fortress is another sentence which may be pronounced tomorrow when the high court convenes. It was the consensus of opinion that the sentence would be light and that the 28 months which Caillaux has spent in jail and a sanitarium would be taken into consideration.

Attorneys Disconsolate. The former Premier's attorneys were disconsolate over the verdict and rushed in an automobile to the Neuilly sanitarium to inform M. Caillaux of the verdict. The defendant had remained in the sanitarium through the day's sitting. Before they started away, however, M. Moutet said to the Associated Press: "M. Caillaux was convicted not for what he has done, but for what he might do were he allowed to go free."

Prior to this M. Moutet had said, in expressing his conviction that the Senate would end espionage circumstances and that the sentence would be light: "The length of the sentence does not matter. The fact that there is a sentence at all means the defeat of liberty of thought." It seems probable M. Caillaux will be condemned to pay the costs of the trial, amounting to more than \$500,000. Among these is a bill for investigation in the United States, which is one of the prominent items, M. Moro-Glaffieri, of Caillaux's counsel, saying it would reach \$300,000.

INCREASING INTEREST IN REVIVAL AT FIRST BAPTIST

Preaching By Dr. T. W. O'Kellely and Song Service Led By Dr. Peacock

Growing interest is being manifested in the series of revival services that began in the First Baptist church Sunday with the pastor, Dr. T. W. O'Kellely, in the pulpit and the large chorus choir, under the direction of Dr. Peacock, head of Shaw University. Attendance at each service has been large and numerous additions have been received to the church membership.

Last night Dr. O'Kellely delivered an unusually strong sermon, speaking from the text, "Therefore we ought to give more earnest heed to the things we have heard, lest happily we drift away." "We know how ignorant we are of the things that vitally concern us," he declared, "we long for some one to lead us by the hand, in order that we might walk in the ways that are right. God knows just the path that is right and best for us. He speaks to us because he loves us, and when God speaks, we ought to listen. It is in our interest that He speaks, because He wants what is best for us."

"The well being of every soul depends upon his heed of God's message. If we dare to disobey, we suffer. It has not gone well with any soul that ever lived to go contrary to God's law. It is to make it well with our own souls to follow His teachings, for every promise that He has made has been fulfilled. God has summed up His love for us in one final message, the life of His only begotten Son. Then we should give heed more earnestly to the words of this message. There is no gospel save that He has given through His son. Jesus gives us a revelation of God, and when we come face to face with Him we see God. There is no hope for salvation but by turning to Jesus. "Someone has said that we have just enough religion to make us miserable, but if we would listen to him then our pathway would brighten up and we would find glory beaming over us inspired by his love. The word of God, spoken through the Son, is his last word, and if men drift away from Him there is no hope."

GERMANS MAKE CHANGES IN THEIR LAST REPLIES

Paris, April 22.—According to the Havas correspondent at San Remo, two of the three notes received by the Italian premier, Signor Nitti from the German delegation differ somewhat from those summarized in previous dispatches. The second note states that Germany is ready to withdraw her supplementary troops from the Ruhr region but desires to retain there the 18,000 men and batteries authorized by the decision of the allies on August 8, 1919. The third note asserts Germany's willingness to disband her local militias, through representing this operation as difficult.

No allusion is made to the dissolution of other militarized police organizations and volunteer civil guards. The supreme council, the correspondent says will consider on Friday or Saturday the response to be made to the three notes.

FINAL NOTICE TO TAX-PAYERS. If your State and county taxes for 1919 are not paid on or before May 1, 1920, you can not vote in the primary or election this year. I am now levying and garnishing on all persons who have not paid their taxes for 1919, and if you are caught by a levy or garnishee and have the cost to pay you have no one to blame but yourself, as the taxes are long past due and I have been as lenient as long as I can be, but the time has come when I am compelled to collect the taxes and I hope that all will come and settle so as to avoid the necessity of my collecting their taxes by stress.

FEDERAL JUDGE SCORES DEPARTMENT OF JUSTICE

Condemns Deportation of Radicals Without First Giving Them Trial

Boston, April 22.—In granting writs of habeas corpus to 13 alien radicals who have been ordered deported as undesirable, Judge George W. Anderson in United States district court today declared that the roundup of alleged radicals by Department of Justice and immigration agents "seems to have been carried out on the theory of hang first and try afterwards."

The writs were made returnable next Saturday at which time, the court announced, bail of the 13 persons involved will be reduced from amounts now \$10,000 in some cases to \$500 each.

The court's expression of opinion regarding the roundup of last January came during the testimony of Ivan Hryachuk, who was arrested at a communist meeting here. It developed that although Hryachuk was arrested on January 8, the warrant for his detention was issued by telegraph on January 15. "I wish you would show me one case in which the Department of Justice has the authority to arrest persons and hold them for two weeks without warrants," said Judge Anderson. "A more lawless proceeding is hard to conceive. Talk about Americanization—what we need is Americanization of those who carry on such proceedings. I can hardly sit on the bench as an American citizen and restrain my indignation, I view with horror such proceedings as this."
