stances of Capture of Two Americans In Mexico

Washington, May 26.—Investigation was ordered by the State Department to-day of the circumstances attending the kidnaping of two Americans in Mexico. The American consul at Chihuahua was instructed to conduct the inquiry and there were indications no representaan government unless the investigation develops that the men were seized by others than forces of Francisco Villa. It was assumed, however, the Americans were carried off at Villa's orders as a part of his tactics to extort tribute from

the mining companies.

Homer C. Carr, one of the captives, is a mining engineer employed by the American Smelting and Refining company, who went to Mexico from New York City. The identity of the other prisoner was uncertain. The consular report gave the name as "MacDonald." records of the department show two men of that name, both mining engineers, in Mexico, one of them in the Parral district near Jiminez. There also is M. C. Donald, of Vernon, Texas, went to Mexico to work in the oil

Concern over the safety of the Americans was less than that manifested by revolutionary agents here over the remption of the warfare waged between Mexico for so many years. To the revo-lutionary agents, refusal of Villa to accept terms of co-operation and the conequent necessity of renewing military operations against him have meant a delay in the recognition of their govern-ment either by the United States or any of the other great powers.

No efforts have been made by the new government officials to secure recogni-tion and it is believed here that none will be made until some indication is received from the United States government that such action would receive favorable attention.

"Information which I deem correct party for 'nominations, either for county or State offices, there will be no voting in the primary by Republicertified, under the primary law, as nominess of the party for the general election in November. This being the case, an inference arises that the negroes are registering for the purthe Democratic candidates in the primary. Persons well informed upon the subject tell me that there are not to exceed twenty-five-bone-fide negro Democratic voters in the city. It is hardly to be believed that this number of cratwhile Republicans, should suddenly have been seized with Demo-eratic inclinations without enticement. Can it be that any friend of a Democratic candidate has so far forsaken the principles andtraditions of the Demogratic party as to encourage the entrance into the coming primary of these negroes?

There's Real Relief In Every

Bottle Prescription

These who have used Piqugh's Prescription C-2223 say there is satisfying relief in every bottle—that they were benefited by this treatment after all other rheumatic remedies had failed.

When you buy a bottle Prescription C-2223 it is like having a specialist in your home, because this reliable rheumatic treatment was originated and used by a successful physician for years in his private greatice. With this knowledge of drugs and experience in testing the results of his medicine it is to be expected that his prescription—now known and sold as Prescription C-2223—should be a dependable treatment for rheumatism, gout, scintics, lumbage and neuralgic conditions. The chemists that make Prescription C-2223 are so sure that you will get relief from your suffering that they will refund the price of two \$1.60 bottles if you are not satisfied with the results, previded that you take the medicine according to directions.

Before taking Prescription C-2223 it is very necessary to stimulate the liver and regulate the bowels. Take a cathartic especially prepared for this purpose—2223 Liver Pills.
