Proper Thing Now Is To Peel Off Soiled Skispend Wisely. Those who abhor stinky, greasy, shiny, streaked complexions should religiously avoid creams, powders and rouges during the heated days. There's no need for them, anyway, since the virtues of macrolin wax have become known. No amount of perspiration will produce any evidence that you've been using the wax. As it is applied at bedtime and washed off in the morning, the complexion never looks like a make-up. Macrolin wax gradually takes off a bad complexion, instead of adding anything to make it worse. It has none of the disadvantages of cosmetics and accomplishes much more in keeping the complexion beautifully white, soft and youthful, free from freckles, pimples, blotches and other blemishes. Just get an ounce of it at your druggist's and see what a few days' treatment will do. Like cold cream.—(adv.)
