

# FIGHT FOR HEALTH IN THE HOLY LAND

## Straus Tells Conference of Food Kitchen and Anti-Disease Efforts

London, July 5.—Nathan Straus, New York, told the International Zionist Conference here today that the Straus health bureau in Palestine had supplied a need that had been ignored for hundreds of years by a "criminally indifferent government" and that it had become a "stronghold in the life of the Holy Land." The bureau was established by Mr. Straus in 1912.

The only problem which took precedence over the health question was the feeding of the hungry for which he said he established a free soup kitchen in Jerusalem which up to now, has been feeding 700 to 1,000 persons daily. Members of committees returning from Palestine, he said, had told him that his soup kitchen was "the brightest spot in the Holy City." The health bureau, Mr. Straus said, was established to improve health conditions generally and particularly to eradicate malaria and trachoma, the two diseases which were endemic there. It was intended to serve all inhabitants of Palestine irrespective of creed, race or color and, since the Jews number less than one-sixth of the total population, its work had accrued largely to the benefit of non-Jews.

Mr. Straus reviewed the fight conducted against malaria by the health bureau in and around Jerusalem in 1916 and 1917, which he said "nipped the cholera epidemic in the bud." Clinics were opened in five districts and injections of anti-malaria lymph were given to all comers, while school children were inoculated by nurses sent by the health bureau into districts. In all 20,750 persons were given preventive injections against cholera. Typhus lymph also was prepared and administered.

More than 24,000 persons were examined to ascertain if they were affected with malaria and where the reaction was positive, quinine was given free of cost. The water in cisterns used for drinking purposes was examined and a museum of hygiene was established.

In combating trachoma, Mr. Straus said, the health bureau treated 44,574 cases and an attempt was made to examine the eyes of all children who could be reached so as to identify that disease which was prevalent in Palestine.

tine. A hospital for eye diseases was opened and the campaign was extended into the towns and colonies outside of Jerusalem, nurses being sent to various places. Aid was also given to refugees when the Jewish population was expelled from Jaffa. Mr. Straus said that the health bureau had proved its efficacy and that he hoped its services would increase and become greater in the rehabilitation of the Holy Land, a blessing to the people irrespective of race, color or religion.

## PERSHING IN MESSAGE TO WORLD WAR HEROES

Washington, D. C., July 5.—General John J. Pershing, former commander-in-chief of the American Expeditionary Forces, in an Independence Day message today to members of the American Legion and other former service men, said:

"The anniversary of our national independence brings to our minds and hearts the obligations that rest upon us as a people. The sublime conception of our forefathers created upon this continent a new nation founded upon human liberty, which they left for us to perpetuate and strengthen. The spirit of consecration that enabled them to overcome in this great cause should be invoked that we in turn may transmit to posterity the sacred principles from which they fought.

"To the men of the Legion whose blood and sacrifices have proven their de-

voices, we owe the deepest debt of gratitude, and it is to them that we look for constant inspiration that our efforts to maintain forever a country where all men shall be free and equal may be supported by the same patriotism that gave them the victory in the great war."

## AMENDMENT RELEASES MUCH ENEMY PROPERTY

Washington, D. C., July 5.—The amendment to the trading with the enemy act passed by the recent session of Congress authorizes the return of \$150,000,000 of enemy property, according to estimates of the alien property custodian's office. There will remain more than \$250,000,000 in seized property in the hands of that official.

Under the amendment, the "A. F. C." as the office is generally known in government circles, will release property of several American citizens who married foreign noblemen, property of the German embassy, enemy diplomats, all aliens who were interested, citizens of

new nations and states created by the treaty of peace, and women of allied or neutral countries who married enemy subjects. Americans who were held in Germany during the war and whose property here was taken over, may now recover title, no matter where they are resident. The amendment also extends the privilege of prosecuting claims against neutral nations on conditions that the enemy debtors to creditors in allied and some privilege is extended to American creditors by those nations holding enemy property.

There is to be no "informal return" of property by the alien property custodian under the new legislation, it was announced today. The procedure to be followed in securing possession of seized property involves formal application to the President, and filing of a claim on the A. P. C. After the application has been approved and returned, the attorney-general will issue an order for the release of the property at issue.
