The past week saw three different contenders occupying the top round.
Raleigh pulled Winston-Salem off of

Raleigh, the only club in the circuit to play its full quota of six games last week, had an even break. Two of the shires wins were registered with Hughes on the mound. Hughes has been going it a wonderful clip for the past three weeks, four of his last five starts having been shut outs. The only had day ha has had was Wednesday of week before last when he relieved Heimach in Greenaboro. Higgins recorded the other win, by taking the second start in Durham flaturday and Heimach and Allen were credited with one loss each during the week. After winning two from the Twins, the Capitals split even with Durkam.

High Point, who also split even, had the lightest week of any club in the league, playing only two games. Both games were played with the Twins. The Manufacturers also played to a five-inning tie with Greensboro Friday. Scenasboro and Durham each won more yames than they lost, while Winston-laiem and Danville both lost by the name margin. Greensboro won two of its three starts with Durham, playing no other games during the week. Durham rallied from its disastrous series with the Patriots, by virtue of its two straight victories from Raleigh. The Twins after losing two to Danville and breaking even with High Point, won the anly game played with Danville. Danville played only three times, breaking even with Raleigh and losing to Wintron-Salem.

This week Raleigh and High Point This week Raleigh and High Point play each other for the first four days of the week. Either club could, by winning the entire series put itself in a commanding position and at the same time virtually throw their opponents out of the race. Such an outcome is highly improbable but if his pitchers sontinue their good work, Ward should cop three of the four. The Capitals will come home again Friday for two games with Durham.

hoosted his average last week to 343. Munson, the other 300 hitter dropped two points to 303. Munson and Dorsey have now scored 70 runs each. It is the first time during the senson that Mun-son's superiority in this department has been questioned. Heimach boosted his average slightly during the week, as did Hefter, but on the whole opposing pitchers had the best of the argument, and batting averages suffered, though the club work remains at 244.

Editor News and Observer:

I have just finished reading the "suffrage edition" of the News and Observer of even date, Under a two column headline I am informed that the death rate in countries having suffrage is decidedly lower than in countries which have not accepted "ballets for both." This status of affairs is interesting but I would appreciate your giving your renders the figures as to the birth rate in the suffrage countries as com-pared with the anti-suffrage communi-ties—North Carolina for instance.

As a subscriber in good standing of your paper I respectfully submit that it would be much better to relegate the columns and columns of suffrage propaganda you publish daily into one section or edition of the paper so that those of us who prefer legitimate news may find it without searching throughout the entire paper. This, of course, is merely a suggestion and I offer it at face value. The duty of a newspaper, as I under-stand it, is to furnish all of the news without prejudice to anybody. As one subscriber I want both suffrage and anti-suffrage happenings when it is legitimate but I am not interested in
