Southern Business Men Take Million and Half in Stock From Banks

Charlotte, Nov. 17.—Word R. Wood, Arthur J. Draper, W. S. Lee, of Charlotte, B. E. Geer, of Greenville, S. C., and B. B. Gossett, of Anderson, S. C., have purchased \$1,500,000 worth of the stock of the Chadwick-Hoskins string of cotton mills, from the Guaranty Trust Company and the Liberty National Bank of New York, institutions which have owned this part of the total stock of the company, and at a meeting of the directors held in New York Wednesday, B. B. Gossett was elected president of the Chadwick-Hoskins Company, capitalized at \$3,000,000 and owning a total of 120,000 spindles.

Mr. Gossett will move to Charlotte within 30 days with his family to make this his future home, he will give up his other manufacturing connections in South Carolina with the exception of the Riverside Manufacturing Company at Anderson, of which he is president.

In addition to this position he is president and treasurer of The Torway Mills at Anderson, the Pendleton Cotton Mill at Pendleton, S. C., Cohasset Mill at Fingerville, secretary of the Pelham Mills at Pelham, S. C., a director in three other institutions of like character, and some months ago was elected president and active manager of The Mill at Pinola, S. C., by the bank creditors of that mill. These affiliations will necessarily cease, with the coming of Mr. Gossett to Charlotte.

Large real estate exchanges in adjoining city property and valuable farm lands were received today from the Charlotte Company transferred its big lot and new garage building at East Avenue to the McClung Realty Company for \$75,000.

Another deed recorded the transfer of 280 acres of land in Long Creek township from the McClung Realty Co. to the Charlotte Company. Price of the farm land was \$90,000.

Plans for organizing a stock company of farmers and business men to start a modern dairy and creamery in Charlotte have been furthered by appointment of organizing committee composed of R. E. McDowell, chairman, Frank A. Cochran, N. B. Harris, Rufus M. Johnston, C. B. Stowe, J. Paul Lucas and J. E. McIlwaine.

The committee is sending letters to farmers and dairymen who are considered likely to be interested in taking stock in the proposed creamery.

NEW ZEALAND PICKS UP HARDING'S MESSAGE TO NATIONS OF THE WORLD.

New York, Nov. 17.—A new world's record for long distance radio communication was made on November 13, according to the Radio Corporation of America, which announced today that President Harding's message addressed to the nations of the world was picked up in New Zealand, 10,000 miles away. The message was sent from the radio central at Rocky Point on Long Island.

Carson, who was in this class, was on motion of Rev. R. H. Willis, presiding elder of Elizabeth City district, located without his request Question 12, who are deacons of one year, was called by the Bishop and J. R. Edwards, J. Hasonah Harlow, D. A. Clark, E. C. Maness, J. C. Williams, W. R. Hesterly, E. C. Fox, B. H. Merritt, J. L. Smith, and W. B. Humble were advanced to the class of the fourth year.

The conference sent a message of consolation and love to Y. T. Ormond, who has for a number of years been the conference lay leader and who is seriously sick at his home in Kingston.

Support Anti-Beer Bill

The following resolution was unanimously passed by the conference: "Whereas by the unanimous consent, the United States Senate will take the final vote on the Willis Campbell anti-beer bill tomorrow; and whereas the North Carolina conference favors this legislation and that we request Senator Simmons to present this resolution to the Senate; and that we instruct the secretary to wire this information to the Senator."

Rev. H. R. Wilkinson, of Virginia; Dr. Sumnerell, of the local Presbyterian church; James Cannon, and Dr. R. L. Russell, one of the missionary secretaries of the church, were introduced to the conference.

Minutes question No. 1, "Who Are Admitted to the Church," was asked, and two young men, John Cleveland Cummings, of the Fayetteville district, and Chauncey Minger Ingram, were admitted on trial.

Greetings from the North Carolina Baptist convention now in session in Rocky Mount, were received in an answer to a similar resolution sent yesterday by the Methodists to the Baptists.

Rev. T. A. Sikes read the report of the board of education and it was referred to the Board of Christian Literature.

Rev. R. L. Russell addressed the conference in behalf of the missionary operations of the church.

Rev. S. E. Bagland was received into the conference from the Cumberland Presbyterian church.

China Put Situation Squarely Up To Japanese

(Continued From Page One.)

as it did in the naval question or decide to content itself with waiting until Chinese, Japanese and perhaps British petitions have been presented and then undertake the role of compromiser, seeking to promote agreement over the debated point. The question is unagitated, but there is every indication that at the present Mr. Hughes inclines to play the latter role.

Waiting for Other Fellow. In some cases there is something ridiculous about the Far East situation. Everybody is waiting for the other fellow to make the first move. China has been egged into making a move, but has contented her statement in such vague and general terms as to amount to no statement at all. Japan has dodged, or rather pushed the thing back by asking for a bill of particulars. So far the United States has not moved. Only American diplomacy would like to get China and Japan on record, but there are obvious difficulties which up to date have blocked the American desire.

All of which is another way of saying that the Far Eastern question is going to be settled by a process of lagging and lagging. China and Japan will have to make big concessions. Another of them, however, desire to concede anything until it knows what the maximum expected, is since obviously neither desires to give away anything that he does not have to.

If the Japanese and the Chinese are really fighting a "sure enough" battle then obviously the Japanese will promptly ask the Chinese what guarantees the Tokio government can give for the protection of the private property and lives provided Japanese troops are withdrawn, and then we shall have before us at once the whole question of difficulties and chaos in China. But it is still far from clear that either side desires to go to the bottom of the Far Eastern question since both have a common desire to get the "barbarian" out.

Golden Age of Press Agent. There are many resemblances between the present situation and that in Paris since the entrance here of the underground we are back in the golden age of the press agent. The main sources of news now are the official spokesmen of the several delegations, the unofficial spokesmen who give voice to what the Europeans call "difficult" declarations, and the more or less inspired press agents who give circulation to every sort of rumor, designed to hurt the other fellow's side and help of their own.

The result is necessarily a stream of contradictory and official comment, such as everyone who reads the Paris conference remembers as a characteristic output of each day's work. If for no other reason than that a long period of this press campaign might produce deplorable results it seems likely that those who are in control of the conference will seek to make events march rapidly. After all the conference began better than anybody has the possibility of achievement is larger than any one could have imagined some time ago, and after the most magnificent entrance on record what the responsible statesmen now consider most is a happy and quick exit.

To Repair Battleship. New York, Nov. 17.—The new superdreadnaught Maryland, which developed engine trouble after her second trial Monday of the New England coast, arrived today for repairs at the New York navy yard.

The length of her stay, navy oficers said, is indefinite.

of Kentucky, aptly termed the Newberry Ford campaign as a "race between a tin lizzie and a golden chariot." That the Democrats have been forced to resort to a filibuster in order to keep the Republicans from jumping through a resolution setting Newberry in a service rendered the country, for the people should be informed to what ends wealth will go to get a place in the greatest power in the country. It is evident that if there had not been vast sums spent in the Newberry campaign that he would never have had the chance to be known as "Senator" Newberry.

The trail of gold across his election is a threat to popular government.

Brevard Citizen Dies

J. P. Hays, a well known citizen of Brevard, was found dead in bed in a room at the Raleigh Hotel early this morning, the evidence being either from apoplexy or acute infection. Mr. Hays had often visited Washington and was known at the hotel. He was not seen about the place on Wednesday and the nursing a chambermaid reported that she had not been able to enter the room, although yesterday she had also tried, and no one answered her knock. Upon this information the door to the room was broken open and Mr. Hays was found dead in bed. It was recalled that on Tuesday he had eaten a hearty dinner and had gone to his room. His body was cool when found and the indications are that he died during Tuesday night and was dead when the chambermaid tried to get into his room on Wednesday. He is said to have been interested in the Transylvania railroad, now owned by the Southern. From letters found in his room it was learned that he had a friend here, J. H. Alsop, who was notified, and also that he has a sister-in-law, Mrs. M. C. Wilson, at Newsville, Pa., who was telegraphed. Mr. Hays is understood to have been between 60 and 65 years of age, and a widower. His body is now in charge of the coroner.

Two Postmasters Confirmed

Two more postmasters in North Carolina got new postmasters, the Senate this afternoon, confirming the nominations of President Harding. There has been much comment and agitation about one of these appointments, but after a long wait the position goes to Edward A. Simkins, with no opposition understood to have been offered when his name was presented to the Senate. The other confirmation was that of Miss Laura M. Cavin as postmaster at Kenansville.

in and the United States, is far too large. The British, in fact, would like to see the submarine abandoned entirely, but there are considerations of national defense which impel the American delegates to hold their ground. In the future the question is receiving the lively interest of all the delegates and when the committee meets to take up the detailed views of the live topics it may find before it a mass of data and argument that it will take weeks to assess.

JAPAN ACCEPTS CHINESE PROPOSALS AS A BASIS

Washington, Nov. 17.—By the Associated Press.—Japanese acceptance of the proposals of the Chinese delegation as the "basis of discussion in committee" by the Pacific and Far Eastern conference was announced today by Baron Kato, heading the Japanese group. The Baron said he had no objection to accepting the Chinese proposals in principle for that purpose.

It is understood that an important reason why Japan has asked for more time to study the Chinese document is that the plenipotentiaries at Washington are actively engaged in communicating with the home government in the opinion of Japanese here, that the vital matters raised in the Chinese proposals will be subject to serious deliberation by such Japanese institutions as the Genro or elder statesmen and the privy council as well as the cabinet. On such a program also it is believed probably
