Dissents From Legislative Senate Committee Rejects Recomendations of Chairman Stanley

Only Two Members of Trust Investigating Committee in Complete Accord With Chairman Stanley Mr. Littleton Summarizes His Position in Matter.

Washington, July 23 .- Representative Martin W. Littleton, of New York, member of the democratic majority of the house steel trust investigating committee, formally presented his views to the commattee dissenting from the legislative recommendations of Chairman Stanley. He agreed to sign the Stanley report with many reserva-

That left but two other members of the committee of nine in complete accord with him. They are repre-sentative Beall, of Texas, and Mc-Gillicuddy, of Maine.

Mr. Littleton's views, to which much publicity has been given, favor principally a joint body of the sen-ate and house to study the trust question and the exclusion from inter-state commerce of corporations in restraint of trade.

in restraint of trade.

He declines to support the proposed bill to put upon a corporation the burden of proving it is "reasonable" restraint of trade. Such a bill, Mr. Littleton says, would preserve "the chief fault of the Sherman law which is the policy of a belated attack after a concern has gone up instead of proving any means of prevention."

Regarding the future, Mr. Little-ton says: "The real vice in the treat-ment of the problem heretofore has been the attempt to legislate solely against the result or effect of a series of acts, instead of specifically defining and prohibiting these acts."

Against Bourne Plan. Senator Gardner, of Maine, launch ed an attack on the measure declarit would cost more to operate Bourne parcels post plan the first year than it would require to buy out the express companies.

## Bug is Latest Hot Weather Pest.

ing of the physicians at several of bugs have already driven patients to those institutions for treatment. Annie Roney, of No. 1532 Naudian street, is the latest victim of the new summer pest and the surgeons at the Polyclinic Hospital found the bug alive, snuggled close to the ear drum, stinging the sensitive organ as it pleased and causing the child excruciating pain.

When an applicator was inserted the insect refused to budge and all attempts to dislodge it were futile. Finally Dr. Laferty, the house surgeon, thought of a practical method and holding an incandescent bulb close to the girl's ear for about fifteen minutes made it so hot for the bug that it crawled out of its own

## MAY INQUIRE INTO THE "BEEF TRUST"

Washington, July 23.-Immediate inquiry into the existence and ramifications of the "beef trust" was virtually agreed upon today by the house judiclary committee with the reservation that there might be an obstacle if the senate took up the impeachment proceedings against Archbald.

#### RAILROAD PRESIDENT STATES HIS POSITION.

New York, July 23 .- At the arbitration commission's meeting this morning to determine the merits of the wage controversy between the railroads and the engineers, B. A. Worthington, president of the Chi-cago and Alton, completed his ex-planation of the statistical tables offered by the railroads to controvert the engineers' claim for an increase estimated at \$11,500,000.

# Good Roads Provision In P. O. Bill

Washington, July 23.—The appropriation bill, shorn of the good roads provision proposed by the house, and embracing the revised parcels post system, with changes based on zones of distance, was reported to the senate today by the postoffice committee. The total ap-propriations proposed by the bill are above those of the house measure which carried approximately two hundred and sixty million dollars.

One of the principal increases is in the pay of railroads for transport-ing mails, the senate committee added more than two and a half million

dollars In striking out the Shackleford good roads feature, providing for federal improvement of highways, the senate committee recommends an investigation by a special com-mission of three senators and three representatives.

The parcels post section is radi-cally different from that incorporated in the house bill, which provided a flat rate postage for all distances. The senate provision is that of the Bourne bill, slightly modified. Mr. Bourne recommended that third and fourth-class mail matter be combined for parcels post service, but the bill makes parcels post apply only to fourth-class matter.

#### MAKING BIG FILL ACROSS ROCKY BRANCH.

People interested in the construction of Raleigh's new railway will find it at a particularly striking stage if they go out to the west side of Boylan Heights, as a big fill is being made across Rocky branch, the other end of the fill being on the land of the Central Hospital for the Insane. Concrete and steel work will be done at the crossing of this stream, which some times rises to a considerable height. The road will be graded alongside the Caraleigh branch of the South ern railway, which for years has been used by the old Raleigh & Southport, and at the Caraleigh Phosphate Mills the new line will cross Walnut creek, a little distance to the right of the old one and be very much straighter and get lighter grade at the same time.

#### DETECTIVES PAID ELEVEN THOUSAND

Bristol, Tenn., July 23.-The man hunters who have been searching for Sidna Allen and Wesley Edwards since the Hillsville court room tragedy, March 14, last, have demanded and received a settlement from the state of Virginia for their services. W. G. Baldwin, chief of the de-

tectives, has been to Richmond to confer with Governor Mann, and it is reported that a settlement has been reached by which the state pays the detectives \$11,000 in fees for their services.

For weeks the detectives scoured

the mountains of Carroll county at great cost, raiding numerous houses, watching the movements of individuals, searching caves, and doing all things else that are done by the suc-cessful man-hunt. Bases of operation were established and maintained at heavy cost. Sidna Edwards was the first of the gang to surrender. Claude Swanson Allen sur-rendered at the point of a gun, and Friel Allen surrendered at his father's home, where he had returned, ill and hungry after roaming through the mountains for many

days.
But Sidna Allen and Wesley Edards are still at large, and despite inquiries made in every part of the country, no definite clue seems to have been obtained. The fugitives have been reported from almost every part of the country, but in spite this, many of the residents of Carroll county are firm in the belief that the two men so much wanted are still in hiding in the mountains

The Soldiers' Home is always an interesting place to visit, yet very few Raleigh people go there. All the buildings have been repainted and present an extremely attractive appearance. In the hospital there are much fewer of the veterans than usual, but this is because death has been so busy at the home. During the first half of the year already forty of the inmates of the home have died; thirty-seven are in the hospital and the others in their quarters. This is a tremendous death-rate, but it is due to the fact that the average age of the inmates is over seventy-five years. It means

New York, July 23 .- The gunmen wanted for the murder of the gamb-ler Rosenthal are beginning to fall into the police nets. Harry Vallon, one of the five notorious gangsters in the murder car on the night of the tragedy, surrendered to the authorities today and within ten days the whole gang will be rounded up, according to Police Commissioner Dougherty.

Several prominent citizens have offered to pay for a private investi-gation of the question whether the police partnership with gamblers led to Rosenthal's slaying. Commissioner Dougherty remarked significantly to District Attorney Whitman: guess we know who is back of the killing."

The surrender of Vallon, it is be-ieved, will be followed by the voluntary appearance of the other gangsters. Besides Vallon there are Harry Herqitz, known as "Gib, the Blood," "Dage Frank," "Lefty" Louie and "Whitey" Lewis.

#### The Third Degree.

The authorities have arranged to give Vallon the third degree this afternoon, hoping that he might disclose the whereabouts of his pals. Commissioner Dougherty believes that from some of the gunmen he will be able to obtain a confession that will shed light on the recent doings of those "higher up."
