majority and minority Hoth agreed that the dismissal of Elliott and Morehouse on technical charges was "over discipline."

The conduct of Assistant Secre tary Hays of the Agriculture Department, whose relations with for mer drainage engineer J. O. Wright were the subject of especial atten tion by the committee, was declared in a majority report presented by Chairman Moss, Democrat, to have been not in harmony "with proper standards of official propriety if not official rectitude." The minority report made by Rep. Sloan, of Nebraska, Republican, asserted on the oth-er hand that the "unstable" majority conclusions were "more of a charge against the mental capacity and honesty of the committee members" than against Assistant Secre tary Hays.

The majority report was signed by Chairman Moss and Representative Flood, of Arkansas and Doughton, of North Carolina, Democrats. The minority report was signed by Representative Sloan, of Nebraska, who stated that Representative Higgins, of Connecticut, and Madden of Illinois, approved it. All are Republicans. Many features of the Agri-Evans. culture Department's work in con-nection with the Everglades were attacked by the Democratic report. which arraigned the Department as vascillating and Engineer Wright as having been "on familiar terms with real estate promoters and speculators.'

No real criticism of Secretary Wilson was contained in the majority report, the burden of criticism being laid on Assistant Secretary Hays. The minority report, on the other hand, acquitted the latter of the entered the sixth week with no proscharges that he "despised all restraint and attempted to capitalize object to the grading system of payhis official position and draw quick ment. The strike thus far has cost dividend from official opportunity."

ing Larger Profits From Their Yields.

Washington, Aug. 19 .- Tobacco planters throughout the United States should be making larger profts than they do, according to partment of Agriculture officials who have been studying the quesion. In spite of the fact that they receive about \$100,000,000 a year or their average crop of 1,000,000, 000 pounds their net profits should be more, say the officials.

improper cultural methods keep the product down to one-third of what it should be, they declare. In the Connecticut valley, where the solls are maintained in a high state of fertility, yields of 2,000 pounds yield is scarcely one-third of this. The one crop system, instead of rolation, is one of the impropert cultural methods, it is said, which is responsible for this condition.

The use of unadapted varieties or strains of tobaccó, damage insects and diseases and imperfect profits to the farmer. The department has been aiming during the past few years, it was said, to introduce improved methods of planting and culture.

Meeting of Moose Convention.

Kansas City, Aug. 19 .- Twentyourth annual convention of the loyal order of Moose with delegates from all parts of the United States assembled here today. The convention continues all week. A lively contest for supreme officers will be made, Mobile, Cincinnati and Winnipeg seek the next convention.

Officer Slays' Family and Himself.

Eastbourne, Eng. Aug. 19 .--- Captain Hicks Murray, an officer tached to the Gordon Highlanders, last night shot and killed his two young daughters, severely wounded his wife and then suicided. The officer became suddenly insane. After the shooting the house was mysterifire at 2:30 p. m. The gas plant ously burned. Murray left a note and the new Corbett Auto factor, saying he had been hopelessly ruined.
