NEW PRESIDENT HAS ARRIVED

Dr. George J. Ramsey of Kentucky Head of Peace Institute Here

A SPLENDID EDUCATOR

Was for Many Years Connected With Leading Institutions in Kentucky. Coming Here from Central University, Where He Was Professor of Education—Fall Term to Begin Next Thursday With Fine Prospects.

Dr. George J. Ramsey, for six years professor of education in the Central University of Kentucky, arrived in the city today to accept the presidency of Peace Institute, tendered him some time ago. He succeeds Dr. W. McC. White, pastor of the First Presbyterian church, who was chosen by the trustees last spring pending the thorough reorganization of the college under the auspices of the synod. Dr. White now becomes vice-president. It will be good news to the many friends of this splendid old institution to learn that Dr. Henry Jerome Stockard will continue as professor of English.

The new president, while a stranger to many of the laity in this state; is well and favorably known among the educators. He is acquainted with Dr. D. H. Hill, president of the A. and M. College; Dr. James I. Foust, president of the State Normal, and Dr. J. Y. Joyner, state superintendent of public instruction, and other educators. Coming with him to Raleigh are Mrs. Ramsey and daughter and Mrs. Ramsey's mother. It is not necessary to say that Dr. Ramsey has the highest endorsements and that he was thought by the board of trustees, of which Mr. James H. Young is president, the best qualified man for carrying on the great work that the Presbyterians began many years ago.

In addition to Professor Stockard, who has charge of the English department, Prof. J. P. Brawley, who has charge of the music department, and Miss Rosa Wallace, the lady principal, are already here for the opening. The fall term will begin next Thursday.

Fine Prospects. During the summer electric lights have been placed in the building so that both gas and electricity may be used. A well 180 feet deep, 120 feet of it through solid rock, has been bored and water from it will be used by the college. The indications for the best in the history of the institute were never brighter, and all friends of Peace are elated over the prospects.

President Ramsey. The Danville, Ky., Messenger contains the following reference to Dr. Ramsey: The announcement of the resignation of Dr. George J. Ramsey, as Professor of Education, in Central University, will be received with universal and sincere regret. Dr. Ramsey came to Danville six years ago, and during these years of connection (Continued on Page Seven.)

A LOCAL MOTOR FREIGHT DELIVERY

There is a new transfer company for Raleigh, known as The Motor Transfer Company, which has just been organized and will begin operations at once.

A three ton truck has been purchased, although others will be put into service later. Mr. W. H. Pace is at the head of the new firm.

HAYES CROSS-EXAMINED.

Says Commissioner Ordered Him Not to Molest Disorderly Houses.

New York, Sept. 7.—Cornelius Hayes, deposed police inspector, was under cross-examination at today's session of his trial on the charge of making false statements reflecting on Commissioner Waldo. On direct examination Hayes testified that Commissioner Waldo had given orders to him not to molest disorderly houses making an "outward show" of decency.

More Troops For Mexican Border. Washington, Sept. 7.—The war department is preparing to dispatch two more regiments of cavalry to the Mexican border line. General Wood today was trying to get into telephone communication with President Taft to get his approval of the order. Troops will be taken from Fort Riley, Kansas and Fort Russell, Wyoming, one regiment from each post.

CITY SCHOOLS OPEN MONDAY

All Preparations Made Today For Term—Teachers Have Meeting

Prof. Frank M. Harper, superintendent of the city schools, had all of his teachers together today for the final conference before the opening of the fall term Monday morning. All connected with schools were optimistic and enthusiastic. Constable D. R. Byrum, who has been elected attendance officer, was also present, and Mr. Frank P. Graham, teacher of English in the high school for two years, was a welcome visitor. Mr. Graham left in the afternoon for Chapel Hill to study law.

The pupils on meeting Monday will be assigned their booklists and those students who have conditions between them and the higher grades will be examined for removal of these handicaps. The teachers will report to Dr. A. S. Root, medical director, the number and names of students who have not been vaccinated, and he will give definite directions with regard to this matter. For the first time in the history of Raleigh a compulsory attendance law will be applicable to Raleigh township and Mr. Byrum will see to it that all children between the ages of 8 and 14 attend. Nobody in the city is acquainted with more people than this officer and he will be invaluable to the school authorities.

REGISTRATION AT A. AND M. PASSES FIVE HUNDRED MARK.

The latest report from A. and M. College gives the registration as something over 500 and it is expected that it will be increased by 50 or 60 more during the next few days. The college is making every effort to take care of the large number, though it is somewhat of a problem as the dormitories will accommodate only a few more than 500. Regular work began Friday morning following the opening Thursday morning and everything has been progressing well and the signs all point to a good year, one of the best in the history of the college.

Cattle Disease. Washington, Sept. 7.—What was first thought to be the outbreak of foot and mouth disease among cattle in Virginia, the Carolinas and Tennessee was investigated by the animal husbandry bureau and found to be "mycotic stomatitis," which is nowhere virulent. Many cases have been reported from these states.

Burned to Death Under Motor Car. Paulina, Iowa, Sept. 7.—Rev. H. Grady, pastor of the Lutheran church of Germantown, Iowa, was burned to death before his children's eyes. He was pinned beneath a wrecked motor car. The blaze started from a lantern.

Wilson Commends Progressive Ticket. Seagirt, Sept. 7.—Governor Wilson today commended the choice of Oscar Straus as the progressive republican nominee for governor in New York. "It is an admirable ticket and an admirable platform. It will put us on our mettle."

Dr. Burchard Dead. Hamburg, Sept. 7.—Dr. Johann Burchard, chief burgmaster of Hamburg, died today, age sixty.

OSCAR STRAUS THE MOOSE CANDIDATE

Syracuse, N. Y., Sept. 7.—Oscar S. Straus, progressive candidate for governor, left for New York City this morning. State Chairman Hotchkiss announced that every one of the party's nominees would take the stump. Straus will do his share of the speechmaking. The selection of candidates was not entirely in accord with Roosevelt's wishes. Roosevelt had suggested Comptroller William Pendergrast of New York for the governorship.

WASHINGTON STILL GAME.

But Boston is Assured of the Pennant and is Trying For Highest Number of Games. Boston, Sept. 7.—Washington went into today's game with Boston with the hope of stopping Boston's succession of victories. Boston's victory yesterday with Joe Wood beating Walter Johnson for his fourteenth consecutive victory attracted no greater crowd than was expected today. Over thirty thousand fans jammed Fenway park yesterday. Boston, now assured of the pennant is out to create a new American league record in the number of games won in a season. Boston has won ninety-two games. Of the twenty-five remaining to play, it needs eleven to attain a new mark.

"A NOTHER STEP FORWARD"

FIRST ANNIVERSARY IS CELEBRATED

Mr. John A. Park, president of The Raleigh Times Company, celebrated the first anniversary of his connection with the paper in a managerial capacity with a dinner at the Yarrowburgh to those employees who were with the paper when he took charge a year ago today. There were fourteen of the "boys" and "girls" present, and all went on record as intending to help celebrate in similar manner next year. The only guest outside of the office force was Mr. N. B. Broughton, a large employer himself, who is identified with the printing business in all its varieties.

Since the first edition of the paper was scheduled to appear on the streets at 2 p. m., there was not as much speechmaking as might have been expected, time being golden in this instance, but there was golden conversation to enable the host to ascertain that all were present. The rattle of the instruments used in transmitting food from the plates to the rapturously attentive clinking of ice in the glasses was more eloquent testimony than words of the enjoyment of the force. It was pointed out at the feast that of the 17 employees in the business office, editorial rooms and mechanical department a year ago only three had left. Besides those at the dinner there were several other men who will be eligible next year.

Those present were: Mr. John A. Park, Mr. N. B. Broughton, Misses Susan P. Iden and Mary Knight and Messrs. J. E. Clark, S. H. Fawcett, W. O. Scott, Sam Bogasse, Harry Roberts, Howard Scott, Bud Beavers, Charlie Haynes, Arthur Harris, Raymond Betts, Mr. Sam L. Bogasse was eligible, but was off duty today.

NATIONAL DENTAL ASSOCIATION

Move to Reorganize Along Lines of Medical Society. Washington, Sept. 7.—A move to reorganize the National Dental Association along the lines of the American Medical Society has been decided upon by the delegates to the sixteenth annual meeting of that body here September 10-13. The radicals favoring this move have placed it before a large number of the delegates for consideration and have inaugurated a strong campaign for its adoption. Their argument in its favor is the elimination of under prepared dentists from the profession and the closer alignment of the national body. Dentists from every city of size in the United States have signified their intention of attending the deliberations of the meeting and a large number of interesting technical addresses are on the programme.

Among other papers will be read by Dr. Harvey W. Wiley, the food expert, Dr. Newell S. Jenkins, Dr. L. F. Kebler, chief of the drug division of the bureau of chemistry, Dr. F. E. Stewart of Philadelphia, and Dr. Leon S. Medalla, of Boston.

Farm Hand Burned to Death. Rochester, N. Y., Sept. 7.—John Murphy, a farm hand, was burned to death when fire destroyed his home. The family escaped by jumping. Many a young man's chances in life go up in cigarette smoke.

AVIATION MEET MONDAY

Third Event of Kind--Number of Aviators of International Fame

Chicago, Sept. 7.—America's third international aviation meet, which opens Monday will establish a new mark for America in the number of aviators of international fame entered. Chief of these are the pilots of the foreign and American races who compete in the Gordon Bennett world's championship airplane race, the first event of the meet. The meeting embraces daily monoplane and biplane handicap races, a scratch biplane and monoplane race which is designed to give further demonstration of the skill of the Gordon Bennett drivers, and a 40 kilometer race for all types. Other contests are bomb and mail throwing accuracy landing contests from heights of 1,000 feet without a motor and similar events in which skill of the operator is tested.

This is the fourth time aeroplanes have been matched for the world's championship, as typified by James' \$10,000 silver trophy given by James (Continued on Page Seven.)

MAINE ELECTION BITTERLY CONTESTED

Portland, Maine, Sept. 7.—This was the last working day of one of the most bitterly contested state campaigns in Maine in a presidential year. Two gubernatorial candidates, Frederick W. Plaisted, democratic incumbent, who seeks a second term and William Haines, republican aspirant, arranged to speak almost up to the last moment. Although the republicans and progressives have separate organizations, leaders of these two parties are united in support of the republican state ticket. In Maine the speakers have discussed the tariff as the leading issue before the nation.

RACE TROUBLE IN TENNESSEE.

Negrees Ordered to Leave Town—House Dynamited. Nashville, Tenn., Sept. 7.—Much excitement was caused at Livingston by the dynamiting of a negro's house Thursday night and a general order that the negroes leave town. The trouble grew out of an attempt by Dillard Murphy, a negro to assault a white girl. Murphy is in jail here. Ruxy Cullen, whose home was dynamited is a negro woman, who harbored Murphy before his arrest.

HOLD LOVEFEAST AT FAIR GROUNDS

The board of county commissioners, the clerk to the board, Attorney Beckwith, Dr. McCullers, Supervisor Wiggs, Superintendent Guiley of the county home and other officers of the county held a family conference at the fair grounds this afternoon, a part of the program being a well cooked pig. It is the desire of Chairman Mills and his commissioners and other officers to have true understanding of their duties so that cooperation may be more effective. The barbecue this afternoon was for the purpose of exchanging ideas in the work that is being and is to be done by the officers.

WATER SITUATION

Level of Walnut Creek Two Inches Below Top of Dam. Yesterday evening at six o'clock the water level of Walnut creek at the tiny dam at the intake of the water plant, was two inches below the top of the log which crowns the dam and the stream was barely trickling below the dam, all the water going into the intake pipe, which was full. The water was about three-fourths clear and flowing strongly. It was about five inches below the normal level. One of the questions which is to come up will be objection by the authorities at the Central Hospital to the erection of a dam at the point where there is what is known as the "Dead Man's Spring," some four hundred yards above the intake, on the ground that it would drown too much valuable farm land, now planted in various crops. But it is intimated there may be objection to the erection of a dam on the hospital property, at a point something like half a mile above the intake, where the water would only affect some forest.

WILL ATTEND MRS. McLEAN.

Dr. Barker, of Johns Hopkins University Harried from Texaway to Maine.

Washington, Sept. 7.—Dr. L. F. Barker, of Johns Hopkins University, is being rushed on a special train from the Texaway district of North Carolina to Bar Harbor, Maine, to attend Mrs. John R. McLean, the wife of the Washington and Cincinnati publisher, who is desperately ill at their summer home there. Dr. Barker, on vacation thirty miles from a railroad station was reached by couriers and left Texaway on a special early today. The special is scheduled to reach Maine tomorrow.

THE ALLEN CASE.

Trial of Victor Allen in Progress—Testimony Similar to Other Trials. Wytheville, Va., Sept. 7.—Floyd Allen's threat that if convicted and sentenced to the penitentiary, that "he would die and take some one with him," was described by Homer Lettlich, one of the commonwealth's star witnesses in the trial of Victor Allen, for alleged complicity in the Hillsville murders. Much of the testimony introduced by the prosecution was along the same lines as presented at the former Allen trials. Wit is a fine sauce, but a very unsatisfactory steak.

MUCH SAVING IN PAST YEAR

The North Carolina Farmers Raised More Home Products Than Ever.

In a bulletin soon to be issued by the state department of agriculture it is estimated that North Carolina people sent last year \$29,000,000 out of the state for foods and other products that could really have been grown in this state. In 1910 the great total of over \$59,000,000 was sent out of the state. The gain last year for the state was \$29,000,000. Discussing this matter today Maj. W. A. Graham, commissioner of agriculture, said that the decrease was due to the increased average in corn and the general desire of farmers to grow as much of their own supplies as possible. With continued agitation by the farmers and their friends, it is expected that the amount of money sent to other states will continue to decrease until the sum is practically negligible. Since farm products have increased in value, the gain is even more than \$29,000,000.

WAKE FOREST NEWS

Classes Get Down to Work—Senior Class Officers.

Wake Forest, Sept. 7.—With practically all the students who will enter Wake Forest College this fall already in, the work for the fall term has started in earnest. Classes have been held every day this week since Wednesday and all are well started. The election of officers for the various classes has already started while the election of the honor committee, members and those of the athletic association will probably take place the first part of next week.

The senior class this year is the largest class that has ever entered. Over eighty members are entered for graduation next spring which will be the largest class ever sent out from the college. At a meeting of the senior class yesterday the following is a list of those elected: Sam Long, president, Union county; L. W. Smith, vice-president, Wake; J. J. Waff, secretary, Virginia; N. E. Wright, treasurer, Stanley; F. E. Smethurst, prophet, Wake; L. L. Carpenter, historian, Chatham; E. W. Lane, poet, Perquimans; W. T. Baucom, orator, Union; R. E. Young, testator, Pitt; H. J. Langston, statistician, Pitt.

The following are the members of the senate committee as nominated by the senior class and elected by the student body: H. B. Conrad, chairman; J. G. Stanley, E. A. Daniels, D. E. Josey, O. W. Sawyer, L. C. Williams, O. L. Stillwell, J. H. Jones, George Pennel, O. L. Stringfield.

The law class met this afternoon and elected the following officers: L. D. Knott, president; S. W. White, vice-president; R. L. Herge, secretary and treasurer; N. E. Shepherd, prophet; V. R. Johnson, historian; E. M. Johnson, solicitor; G. H. King, assistant judge; F. G. Whitaker, sheriff; D. F. Mayberry, manager athletics.

The organization of the other classes will take place now as soon as a suitable time can be had.

MANUFACTURERS OF COTTON WILL MEET

New London, Sept. 7.—A long list of interesting speeches, discussions and entertainments has been arranged for the delegates to the 92nd semi-annual meeting of the National Association of Cotton Manufacturers, which convenes its three days sessions here on September 9th. Chief among the addresses and discussions of interest are "International Tariff Relations" and "The Workmen's Compensation Laws in the United States." Each of these subjects has been covered by a carefully formulated treatise and will be supplemented by discussions among the delegates.

The social calendar arranged for the delegates includes golf matches, theatre parties, excursions, and a dinner. Governor Baldwin of Connecticut has accepted the invitation issued by the society to be present at its formal opening. He will formally welcome the delegates on behalf of the state of Connecticut.

Governor Johnson in Michigan.

Detroit, Sept. 7.—Governor Johnson, of California, progressive candidate for the vice-presidency, today faced a strenuous program for his first day's campaigning through Michigan. He delivered speeches at Ann Arbor, Chelsea, Albion and Jackson, before reaching Battle Creek this afternoon.

WILL CORNER THE MEXICANS

Mexican Government Wants to Send Troops Across American Border

Mexican Government Has Made Requests But Has Not Pursued It Because Rebels in Northern Section Have Suffered Great Reverses—In Raider Across Border United States Troops Are Unable to Pursue Troops When They Retreat Across the Border With Mexican Troops Aiding They Could Catch Them.

RAIDS ACROSS BORDER

Washington, Sept. 7.—While the Mexican Government has already begun negotiations through its Embassy for permission to send troops through Texas and Arizona to the state of Sonora, such request has not been pressed because of the heavy reversals suffered by rebels in that section. Word was received at the Embassy today that sufficient troops were at Nogales and Cananea to protect American life and property. In the raids on the American side, United States troops are unable to pursue the raiders when they retreat into Mexican territory. If the American defensive force were supported by sufficient Mexican force, the Marauders would be caught between them and the outrage could be stopped. War department advisers say the general salazar is personally responsible for rebel raids on this side of the line.

POISON SQUAD IMITATED

Government Farm Will Make Tests With Doctored Feeds.

Washington, Sept. 7.—Dr. Wiley's noted squad will be imitated in tests upon horses and cattle on the government's experimental farm near Bethesda, Maryland. "Sulphured oats" and other treated grains will be fed animals for a short period. This test will be made to settle the controversy between the pure food authorities and grain men of the middle west. Upon its outcome will depend about thirty million dollars annually.

INVADDED CASTLE GROUNDS.

Suffragettes Warn King George at Balmoral—Evaded Police.

Balmoral, Scotland, Sept. 7.—Suffragettes invaded the grounds of King George's highland castle last night. The king is residing here during the shooting season. A strong police guard is on duty. Women completely outwitted the guards and left signs of their daring in the shape of a purple flag, bearing the words, "Votes for women means peace for the cabinet ministers."

Broke Arm Fighting Mosquito.

New Brunswick, N. J., Charles Combs is nursing a fractured arm as the result of trying to kill a mosquito. When he struck at the insect he slipped and fell.

TEDDY WOULD NOT BE KING FOR ANYTHING

Hathaway, Montana, Sept. 7.—After an all night ride from Fargo, Colonel Roosevelt came into the state today and spoke at Billings, Livingston, Bozeman, Logan and Helena. He will remain over night in Helena, leaving tomorrow morning for Spokane. In a brief speech here to a crowd that gathered early to greet the Colonel, he said his opponents made every charge against him, they could think of, including the charge that he wanted to be a king. "I am accused of wanting to rule the country with an iron hand," the Colonel said. "I always feel inclined to answer that the people who make this statement don't know kings or else they would not put it down as my ambition. Other things I would like to be, but not a king. The constitutional monarch of the present time, comes nearer being a cross between a perpetual vice-president and leader of four hundred, than anything I know of. Mind you, I am not saying anything against the job of king, but I just would not have it."

Phanton Caught Fire and Sank.

New York, Sept. 7.—Phanton, a fifty-eight foot yawl, which figured prominently as cup winner in the New York yacht club's recent cruise, lies at the bottom of Huntington Bay, a total loss. She caught fire, sinking at her anchorage.
