RALEIGH, N. C., SATURDAY AFTERNOON, SEPTEMBER 7, 1912.

SPRECKLES WORKING FOR WIL-SON.

Rudolph Spreckles, of San Francisco, public spirited enemy of graft, friend and supporter of Senator La Follette and a leader of the progressive movement on the Pacific coast, has begun active work as president of the Wilson national progressive republican league. Mr. Spreckles will devote a great deal of his time during the present campaign to building up this organization.

When the citizens of San Francisco began to murmur and grow under the brazen exploita-He personally financed an extensive investigation of graft conand personally expended large sums'to bring to life the sordid of the system by which the of San Francisco were annually robbed of millions. The story of the graft exposures in San Francisco and the subsequent prosecution and conviction of Schmitz, Ruel and many others is recent history. During the last few years Mr. Spreckels has attained national stature in the cause of good government and his activities in behalf of the progressive wing of the republican party are well known. He has given his time, his abilities and his money his personal advancement; indeed it is a remarkable fact that Mr. Spreckels has never asked for anything in the way of political honors always given his services unselfish regard for the pub-In no instance has he proved this fact more conclusively republican league. He has not withdrawn from the republican but because he believes that the progressive cause will best be served by the election of Governor Wilson, he has decided to do what he can to bring that election about.

He is a firm believer in Woodrow Wilson and does not believe in Theodore Roosevelt. Of the Roosevelt

"Roosevelt secured the support of many progressive republican leaders who were over-anxions for mere vic tory and who accepted the leadership of Roosevelt because he has the art advertising and stirring up public interest, by making a great noise in his very theatrical manner of conducting a political campaign, all of which is calculated to mislead a vast number of people for the moment. Besides he has demonstrated his ability to secure campaign funds, far beyond anything a real progressive sive cause was lost sight of by many recognized leaders in their great de sire for possible political victory, that would satisfy personal ambitions regardless of its ultimate effect upon

the fight for principles. Fortunately, all progressive republicans are not self-seeking and even now the rank and file of progressive voters will have come to understand clearly that success for the establishment of truly representative government will not come through following these men who seek first to serve their own personal ambitions, before considering remarkable business that great mar-

the interests of the whole people. "In California there is a growing resentment among the rank and file progressive republican voters ministration which is employing old-time political machine methods in effort to carry California for sevelt. I fully expect that Gov-Wilson will carry California November election.

GOOD FOR RALEIGH.

Raleigh took another long step forward last night in the adoption of comprehensive milk and meat inspection ordinances and the employnent of a skilled inspector charged with the duty of enforcing them. The Times is especially gratified that these ordinances have been passed. For the last four years it has persistently urged upon our people the necessity for better regulations of the dairles, butcher pens and markets, with thorough inspection of their products offered for sale. It s therefore very pleasing to this paper, after a four years fight, to see these ordinances adopted by a manimous vote of the board of al-The new ordinances or the neat inspection ordinance rather. supplement the ordinance establishing an abattoir and rendering plant. Taken together with other new sanitary ordinances they will give Raleigh standing among the foremost sanitary cities of the country. Of course there are some things to be introduced last night covering one of these matters. This related to compulsory connection between they all become effective we believe we will have better health conditions and we know we will have bet-

MORE CONVENTIONS.

ter meat and milk than we are now

The chamber of commerce is in formed by Dr. Joseph Hyde Pratt Drainage Association will be held here the latter part of November or early in December. The last session was held at Elizabeth City, and The chamber of commerce is al trying to get the North Carolina Farmers' Union to hold its next state convention here

Raleigh's advantages as a meeting place for the farmers as well as the representatives of all other lines of effort are set out most clearly and forcibly in the invitation, which has been placed in the hands of all the members of the executive committee. Raleigh is keeping up its the profession of editing newspa reputation as the "Convention City" unstintedly and without regard to and it is very gratifying to know. admirable rallway schedules, splendid hotel accommodations, the finest assembly hall in the state and all annual convention of the farmers held in August at the Agricultural and Mechanical College, was by far clared they would see that many more came next year.

> men buried the hatchet and got down to business it accomplished something. In the many important matters acted upon last night the vote was unanimous each time. That has been the case with all the big questions considered the last few months and steady progress has been

"Between twelve and fifteen miles of new cement sidewalk since April' is the gist of the report of Alderman Cooper of the street committee, made that the work is going on steadily until all the streets have good side-

A very interesting report has been issued by the Memphis, Tenn., cotton exchange, which shows what a ket does and also throws some light on the prices of cotton. The gross receipts at that market during the year which ended August 31, were 939,670 bales, the average weight Drug Co. being 539 pounds, or about three

The average value per bale was only \$52, as against \$91 the previous season. Thus, though there was an increase of 49:000 bales, the total value of the receipts fell over twelve a half million dollars. Mem handled six per cent of all the cotton grown in the United States The average date of the first open boll in the Memphis territory was bale August 18th; first frost October 9; first killing frost October

Press Comment.

In a recent editorial the Fourth Estate commented upon the fairness of the newspapers in giving widespread publicity to men and measirers opposed to the editorial policy of the journals thus exploiting them. For the sake of definiteness we fastened upon the case of Mr. Roosevelt. He began life as a train boy, and with whom many editors differ radi-Almost any one in political life who holds pronounced opinions would serve just as well for an ex-

There is good basis for the pre nise that editors can be too fair in their news policies. We have in mind several newspapers which seem almost to be over-fair.

Is a newspaper to be considered fair that prints in full the statements of an opponent when it is satisfied he is making misstatements yet conents itself with controverting these utterances within the restricted confines of its editorial colums, on another page?

Resort may be made to the ques ion of advertising for a similar comparison. No honestly conducted newspaper condones or permits obiously false claims to be made in its advertising colums.

Nevertheless most newspapers per mit public men to make obviously erroneous claims or charges in their news colums in the guise of inter views or speeches.

This is a day of loose speaking. Tongues were never before so unguarded in the history of any nation Publicity therefore has almost as many bad uses as there are good

The newspaper that shall attempt o answer misstatements of officials or other public men by paralleling the truth in colums beside that which is untrue will be accused or every side of assuming to mould public opinion to conform to the editor's personal viewpoint.

Editors who diligently eliminate misstatements made by men figuring

that are libelous. There are laws for that purpose. But all untruthful statements are not necessarily libel ous. It is over this type of utterance that a type of editorial supervision

or censorship is suggested. This mere germ of an idea is no our exclusive possession. Many edi-tors share it with us. Some day this dea will expand, and when it does, there will be developments affecting -Fourth Estate.

The Sunday Mail.

In the expiring hours of Congress little piece of legislation slipped through both houses and has been signed by the President. This law prohibits the delivery of mail by class unless it is put in the special delivery class which means that the government gets ten cents for deliverifig it. This is not moral reform. It is simply a cunning form of graft in the name of morality The reason given for this proceeding is "to reduce the Sunday work the employees as possible may enjoy a complete day of rest." That joy a complete day of rest." looks pious, but it is not as pious as it looks. In order to attend to the special delivery mail the whole mass must be inspected, and very few of the regular force in the postoffice can be dispensed with. government is not over solicitous about the moral welfare of its employees anyhow. The main motive for this sly little piece of legislation was probably to increase the revenue by forcing patrons of the post office to fork over an extra en cents for each letter they get on Sunday. The Sunday paper will not be seriously affected. Except in towns other than those in which they are published, as they are delivered by carriers and not through the post office. One gleam of light through the darkness and that is that the children in small towns will not have their minds distracted by the hideous "funny paper that are a nuisance on any day of the week,

much more on Sunday. The objection to the whole transaction is not that the people who read and answer their mail on Sunday are to be deprived of that privilege (that is not an objection at all but a benefit) but the nypocrity of our lawmakers who pretent to be so concerned about the sancity of the Sabbath, but who are really interested in the money they can make out of the Sabbath day.—

Charity and Children.

Mrs. J. N. Hill, Homer, Ga., has used Foley's Honey and Tar Compound for years, and says she always recommends it to her friends "It never fails to cure our coughs and colds and prevents croup. We have five children and always give them Foley's Honey and Tar Compound for a cold, and they are all soon well, We would not be without it in our house."—King-Crowell
