Almost Obsolete.

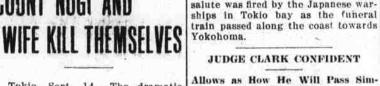

There is no doubt that hazing had become almost obsolete at the university, and there was no fear tha it would develop in any form. The faculty had time and again warned the young men against the brutal practice, students have acted as sentinels and the persons caught in the act have been summarily expelled. So it was with the greatest surprise and sorrow that the community awaked yesterday morning to learn of a terrible tragedy as the result of the pranks of four young men. A timation the suicide of Nogi and his deep gloom pervades the campus and distress is written on every face.

Atlanta, Ga., Sept. 14. ment of peaches from the Georgia erritory over the Southern railway for 1912, consisted of 5,334 cars, as compared with 4,820 cars in 1910, and 826 in 1911, according to fig-ures given out. Of this number 4,993 cars originated at points within the state of Georgia, the remainder coming from points in adjacent states, and being sent to market with the Georgia product. The total movement of peaches over all lines

for 1912 is given as 7,139 cars. Of the 4,993 cars handled from Georgia points, it is interesting to note that 4,665 cars went to eastern markets, being handled in solid rain loads from Atlanta to Washington, 319 cars to western markets and nine cars to southeastern points. Of the 341 cars handled from points outside of Georgia, 60 cars from the section about Haleyville, Ala., went west and the remainder, originating at points in the Carolinas went east. These figures show that the east is the great market for peaches from the Georgia territory, and the fast service afforded by the Southern railway by which the peaches are hurried to the eastern and western markets on passenger train schedules, has been a vital factor in the development of the great industry.

WHITE SLAVE TRAFFIC

leveland Being Used as a Recruiting Station For White Slavers. Cleveland, Sept. 14.—Evidence that Cleveland is being used as a recruiting station for "white slaves" was discovered by Probation Officer Christian.

Chief of Police Kohler ordered the entire police force to double their efforts to stamp out the evil.

Christian reports there is an organized effort between handsomely gowned women, and well-dressed young men, waiters in restaurants and grills, and dance halls and moving picture show attaches, to procure girls frequenting those places. The police attribute the disappearance of twenty-three girls during the last two months to white slave traffic. They probably were taken to other citles.
