### SUPPORTING GOV. WILSON

More Republican Papers Come to Support of Democratic Nominee

### MONEY FROM PEOPLE

Distinguished Recruits Come to the Aid of Wilson—Wisconsin State Journal One of the Number—Presidency Usually Mortgaged for a Campaign Fund, But Woodrow Wilson is Not Doing This—Origin of the Word Tariff—Derived From Name of Ancient African Town.

New York, Sept. 21.—One of the most encouraging phases of the present trend toward Wilson is the change of attitude of certain great daily newspapers. A few days ago the San Francisco Call, long a high priest of the republicans on the Pacific coast, and more recently an exponent of so-called "progressive republicanism," announced that it would not support Roosevelt, and came out strong for Wilson and Marshall.

Now comes the Providence Journal, which for years was the official organ of former Senator Nelson W. Aldrich, and of Senators Henry F. Lippitt and George P. Wetmore. In the editorial announcing it will support the democratic ticket, it says: "As an independent newspaper, bound to the party and desirous only of serving the public good, the Journal believes that the election of Woodrow Wilson as president of the United States is demanded by every consideration of the national welfare."

"To whom then, at such a juncture can intelligent and patriotic men turn if not to Governor Wilson? The question is no longer one of mere partisanship. It is at bottom a question of morals. Governor Wilson does not indulge in the cant of affecting to be greater than his party; but he does appeal to men outside of the party to join with him in discovering and applying a remedy for admitted evils. He is no blind reactionary, no vital issues in his hands. He does not believe, like Mr. Taft, that a tariff guaranteeing profits to special interests is the golden source of all our prosperity, or like Mr. Roosevelt, that Utopia is to be established by a dominating bureaucracy with an inflexible head. "We need no revolution," he says; "we need no excited change; we need only a new point of view and a new method of spirit of counsel. The nation will be fortunate if its next president deals with vital issues in such a fashion. It will be fortunate if the lofty ideals of Woodrow Wilson inspire into the new administration. The Journal is glad to give its earnest support to such a man."

Another distinguished recruit to the Wilson ranks is the Wisconsin State Journal, which championed the cause of Senator La Follette from the time he first announced his candidacy for the republican presidential nomination. So earnest is this paper in its support of Wilson and Marshall that democratic papers of life-long regularity have cause to be envious. Here is how its editor, Richard Lloyd Jones, asks for funds in a recent editorial: "Nothing has pleased Woodrow (Continued on Page Seven.)"

### COPPER MINERS AGAIN IN CHARGE OF MINES

Bingham, Utah, Sept. 21.—Rumors of a large army of strike breakers being recruited in nearby towns to take the place of the foreign miners who quit work Wednesday, have aroused the Greeks and Cretans. Today they took their places again behind the fortifications overlooking the mines, but there was no serious disorder. In case of the Utah Copper Company attempts to open the mines today a battle is expected. Governor Spry has again cautioned the miners that he will not allow the lives of citizens to be endangered, and will use the militia if necessary.

### TO INVESTIGATE COAL SUPPLY

Feeral Inquiry Promised Operators and Miners of Anthracite. Pottsville, Pa., Sept. 21.—Acting Secretary Benjamin S. Cable, of the department of commerce and labor, telegraphed Congressman Robert E. Lee today that the government will at once conduct an investigation into the causes of the short supply of anthracite coal in New York and New

England. The investigation will be made a part of the probe into certain other aspects of the anthracite coal situation now being conducted by the bureau of labor. Congressman Lee has been informed by operators as well as leaders of the United States Mine Workers, that there is no necessity for any scarcity of coal, and that large quantities of anthracite are being stored in this region, particularly at Landingville, where there is said to be enough coal piled up to last New York all winter. Operators and miners fear the report of a scarcity of anthracite will cause consumers to purchase bituminous coal, and Congressman Lee is acting on their joint request.

### WARN MAYOR PRESTON.

School Children De-lare If Turned Out It Means Death to Democratic Party. Baltimore, Md., Sept. 21.—Carrying banners setting forth their grievances in glaring words, half a hundred school boys, whose ages range from 6 to 15 years, marched to city hall today and protested to Mayor Preston against their school being taken from the white pupils and given over to negro children. The mayor listened amiably to the 15-year-old spokesman of the delegation who put the case in plain school-boy language and solemnly warned his honor that "if you turn us out it will mean the death of the democratic party in Baltimore."

"Too bad," laughed the mayor who told the boys he could do nothing as he never interfered in school affairs. The meeting came to a sudden end when a shrill voice broke in with the announcement that a photographer wanted to take their picture for the newspapers.

The school board recently transferred the pupils of public school number 51 at Arcle avenue and Lanvale street to other schools because it is in an almost exclusively colored district. The board's refusal to restore the school to the whites led to a strike of the transferred children.

### MINERS WORKERS DISAPPOINTED

Plans of Conference Over Strike Situation Not Pleasing. Charleston, W. Va., Sept. 21.—Officials of United Mine Workers in conference with Governor Glasgow, and representatives of the commercial bodies and coal operators expressed dissatisfaction today over the plans for the meeting. The coal operators insist that the present strike in the Kanawha old where 1,200 militiamen are maintaining order, shall not enter into the discussion. They claim they want no "outside interference" in this matter. Officials of the mine workers have prepared a statement of their position, but the limits of the conference will not be revealed until after it has been opened.

### THIRD PARTY AND LABOR

#### Louis D. Brandeis Shows Stand of New Party—Proposed Trust Method

New York, Sept. 21.—"The new party pledges itself to social and industrial justice and specifically to work unceasingly for effective legislation looking to the prevention of occupational diseases, overwork, involuntary unemployment, and other injurious effects incident to modern industry." \* \* \* and nowhere an that long and comprehensive platform, neither in its nobly phrased statement of principles, nor its general recommendations, nor in its enumeration of specific measures, can there be found one word approving the fundamental right of labor to organize, or even recognizing this right, without which all other grantees and concessions for improvement of the condition of the workingman are futile. The platform promises social and industrial justice, but it does not promise industrial democracy. The justice which it offers is that which the benevolent and wise corporation is prone to administer through its welfare department. There is no promise of that justice which free American workmen are striving to secure for themselves, through organization. Indeed, the industrial policy advocated by the new party would result in the denial of labor's right to organize.

### LYNCH PREDICTS WILSON WILL CARRY MINNESOTA.

New York, Sept. 21.—F. B. Lynch, of St. Paul, democratic national committeeman for Minnesota, is one of the most conservative men in American politics—and one of the ablest. He managed the winning campaign of the late Governor John A. Johnson, of Minnesota, and only that great man has done more than he to keep the people of the northwest aroused to the importance of looking to the democratic party for relief from tariff burdens and the tyranny of the trusts. Above all, Mr. Lynch is not given to forecasting. But when Governor Wilson was in St. Paul on September 18, he stated that he figured out that the total vote to be cast at the November election would not be far from 340,000, which he predicted would be divided in about this way: Wilson 135,000, Roosevelt 100,000, Taft 75,000, socialists and prohibition 30,000. If his prediction comes true the candidate will poll a record-breaking party vote.

### PISTOL THAT VANN CARRIED

### STATE COMPLETES CASE

Vann Borrowed Pistol On Morning Boy Disappeared—Pistol Found Near Layden's Body Identified As the One Vann Borrowed—Bullet and Other Corroborative Facts Placed in Evidence—State Finished Putting On Evidence This Afternoon. (Special to The Times.) Elizabeth City, Sept. 21.—The state established this morning in the Vann hearing that the pistol found under a clump of bushes a few yards from the spot where Oliver Layden's body was found was the one borrowed by Vann on the morning of the boy's disappearance. Scraps of a torn Sunday school quarterly on which was written Oliver Layden's name and a penny picture of Layden torn once across, found wadded together and stuck under some brush near the body were placed in evidence. The father of the dead boy testified that he searched among the bushes and found a hollow tooth filled with cotton; Oliver had been a great sufferer from toothache, and had been accustomed to filling his teeth with medicine soaked in cotton. A bullet found among the bushes was placed in evidence and shown to be of the same calibre as the pistol. The pistol when found contained two empty shells. The prosecution expects to conclude its direct examination early this afternoon. It is not known whether the defense will put on witnesses or will rely on breaking down the chain of circumstances constructed by the state.
